☒ ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended **December 31, 2023**
or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number **000-56327**

NewLake Capital Partners, Inc.
(Exact name of registrant as specified in its charter)

Maryland
(State or other jurisdiction of
incorporation or organization)

83-4400045
(I.R.S. Employer Identification No.)

50 Locust Ave, First Floor, New Canaan CT 06840
(Address of principal executive offices)

203-594-1402
(Registrants Telephone number)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
None	None	None

Securities registered pursuant to section 12(g) of the Act:

Common Stock, par value \$0.01 per share

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Y ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Y ☒ No ☐

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☒ Smaller reporting company ☒ Emerging Growth Company ☒

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. Yes ☐ No ☒

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

Yes ☐ No ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Y ☒ No ☐

The aggregate market value of common stock held by non-affiliates of the registrant was approximately \$1,340,882 as of June 30, 2023, the last business day of the registrant's most recently completed second fiscal quarter.

The number of shares of the registrant's common stock outstanding on March 8, 2024 was 80,503,520.

Documents Incorporated by Reference

Portions of the registrant's Definitive Proxy Statement for the 2024 Annual Meeting of Shareholders (to be filed with the Securities and Exchange Commission no later than 120 days after the end of the registrant's fiscal year end) are incorporated by reference in this Annual Report on Form 10-K in response to Part II, Item 5 and Part III, Items 10, 11, 12, 13 and 14.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

We make statements in this Annual Report on Form 10-K that are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. In particular, statements pertaining to our capital resources, property performance, leasing rental rates, future dividends and results of operations contain forward-looking statements. Likewise, all of our statements regarding anticipated growth in our funds from operations, adjusted funds from operations, anticipated market conditions, demographics and results of operations are forward-looking statements. You can identify forward-looking statements by the use of forward-looking terminology such as “believe,” “continue,” “could,” “expect,” “may,” “will,” “should,” “would,” “seek,” “approximately,” “intend,” “plan,” “pro forma,” “estimates,” “forecast,” “project,” or “anticipate” or the negative of these words and phrases or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. You can also identify forward-looking statements by discussions of strategy, plans or intentions.

Forward-looking statements involve numerous risks and uncertainties, and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements:

- actions and initiatives of the U.S. or state governments and changes to government policies and the execution and impact of these actions, initiatives and policies, including the fact that cannabis remains illegal under federal law;
- reduced liquidity of our common stock resulting from limited availability of clearing firms that will settle our securities and settle our securities in secondary offerings;
- general economic conditions;
- adverse economic or real estate developments, either nationally or in the markets in which our properties are located;
- other factors affecting the real estate industry generally;
- increase in interest rates and operating costs;
- the impact of inflation;
- financial market fluctuations;
- the competitive environment in which we operate;
- the estimated growth in and evolving market dynamics of the regulated cannabis market;
- adverse economic effects on the cannabis market;
- the expected medical-use or adult-use cannabis legalization in certain states;
- shifts in public opinion regarding regulated cannabis;
- the additional risks that may be associated with certain of our tenants cultivating adult-use cannabis in our cultivation facilities;
- the risks associated with the development of cultivation centers and dispensaries;
- our ability to successfully identify opportunities in target markets;

[Table of Contents](#)

- the lack of tenant security deposits will impact our ability to recover rents should our tenants default under their respective lease agreement;
- our status as an emerging growth company and a smaller reporting company;
- our lack of an extensive operating history;
- the concentration of our tenants in certain geographical areas;
- our failure to generate sufficient cash flows to service any outstanding indebtedness;
- defaults on, early terminations of, or non-renewal of leases by tenants, including significant tenants;
- our failure to acquire the properties in our identified pipeline successfully, on the anticipated timeline or at the anticipated costs;
- our failure to properly assess employment growth or other trends in target markets and other markets in which we seek to invest;
- lack or insufficient amounts of insurance;
- bankruptcy or insolvency of a significant tenant or a substantial number of smaller tenants;
- our access to certain financial resources, including banks and other financial institutions;
- our failure to successfully operate acquired properties;
- our ability to operate successfully as a public company;
- our dependence on key personnel and ability to identify, hire and retain qualified personnel in the future;
- conflicts of interests with our officers and/or directors stemming from their fiduciary duties to other entities, including our operating partnership;
- our failure to obtain necessary outside financing on favorable terms or at all;
- general volatility of the market price of our common stock;
- changes in generally accepted accounting principles (“GAAP”);
- environmental uncertainties and risks related to adverse weather conditions and natural disasters;
- our failure to maintain our qualification as a REIT for federal income tax purposes; and
- changes in governmental regulations or interpretations thereof, such as real estate and zoning laws and increases in real property tax rates and taxation of REITs.

While forward-looking statements reflect our good faith beliefs, they are not guarantees of future performance. We disclaim any obligation to publicly update or revise any forward-looking statement to reflect changes in underlying assumptions or factors, of new information, data or methods, future events or other changes after the date of this Annual Report on Form 10-K, except as required by applicable law. You should not place undue reliance on any forward-looking statements that are based on information currently available to us or the third parties making the forward-looking statements.

PART I

ITEM 1. BUSINESS

General

NewLake Capital Partners, Inc., (“the “Company” “we,” “our,” “us,”), a Maryland corporation, was formed on April 9, 2019 under the Maryland General Corporation Law, as GreenAcreage Real Estate Corp. (“GARE”) and subsequently changed our name to NewLake Capital Partners, Inc. We are an internally managed real estate investment trust (“REIT”) focused on providing real estate capital to state-licensed cannabis operators through sale-leaseback transactions, third-party purchases and funding for build-to-suit projects. We elected to be taxed as a REIT beginning with our short taxable year ended December 31, 2019 and intend to continue to operate our business so as to continue to qualify as a REIT.

Our properties are leased to single tenants on a long-term, triple-net basis, which obligates the tenant to be responsible for the ongoing expenses of a property, in addition to its rent obligations. Our tenants operate in the fast-growing cannabis industry. We supply necessary real estate capital primarily to companies that cultivate, produce and/or dispense cannabis. We believe we fill a need in an underserved market that has been created by, among other factors, the misalignment of federal and state legislation regarding cannabis. Moreover, we believe the banking industry’s general reluctance to finance owners of cannabis-related facilities, coupled with the owners’ need for capital to fund the growth of their operations, should result in significant opportunities for us to acquire cultivation properties and dispensaries that provide stable and increasing rental revenue along with the potential for long-term appreciation in value.

As of December 31, 2023, we owned a geographically diversified portfolio consisting of 31 properties across 12 states with 13 tenants, comprised of 17 dispensaries and 14 cultivation facilities. Our leases include a parent or other affiliate guarantee.

Our Investment Strategy

The regulated state-legal cannabis industry is rapidly expanding, and we believe presents a compelling opportunity to invest in revenue-centric cultivation and dispensary real estate that is mission-critical to the industry. According to BDSA, legal cannabis sales in the U.S. are expected to grow from \$29.5 billion of sales in 2023 to \$43.4 billion in 2027. This growth will likely drive demand for real estate capital given the real estate intensive nature of the industry. Additionally, the continued prohibition of cannabis under federal law limits the capital available to operators in the industry, creating a market opportunity for real estate companies like us. Furthermore, we expect that acquisition opportunities will continue to grow as additional states legalize medical-use and adult-use cannabis and license new retail dispensaries and cultivation operations.

To date, the status of cannabis under federal law has significantly limited the ability of state-licensed industry participants to fully access the U.S. banking system and traditional financing sources. Due in part to the lack of access to traditional financing sources, we believe that our sale-leaseback solutions are attractive to state licensed medical-use and adult-use cannabis retailers, cultivators and producers and non-dilutive to their shareholders. We anticipate that future changes in federal and state laws may ultimately open up financing options that have not been available in this industry. However, we believe that such changes will take time and that our sale-leaseback solutions will continue to be attractive to industry participants.

We intend to continue to take advantage of this market opportunity by purchasing medical-use and adult-use retail cannabis dispensaries, as well as cannabis cultivation and production facilities in states that permit medical-use and adult-use cannabis.

We intend to provide long-term, single-tenant, triple-net sale-leaseback and build-to-suit transactions for the cannabis industry, which includes the acquisition of properties and to provide capital to our tenants for development and expansion of the property.

Our target markets are states and municipalities where licensed cannabis properties are in high demand and connected to the operating license. We believe that states with licensing limitations and more rigorous licensing requirements present more attractive investment opportunities because the operators are likely to be better capitalized and the properties more valuable for remarketing, should the need arise. Additionally, in states that have a more relaxed regulatory environment, strict municipal laws or regulations may present similar locally attractive opportunities.

[Table of Contents](#)

Transporting cannabis across state lines remains illegal. As a result, each state has its own supply and demand dynamics that are largely driven by how the state devised its cannabis laws and regulations. For this reason, we prioritize states that present dynamics constructive to the credit risk of the tenant. We focus on population, licensing limits, approved medical conditions and number of licenses, among other factors. Limited-license jurisdictions typically have more restrictions resulting in fewer licensees and creating a natural barrier to entry. This leads to a more favorable operating environment for our lessees, which we believe reduces their credit risk relative to operators in states with unlimited licenses.

Our Properties

We believe that our focus on cannabis properties in limited-license jurisdictions, where the property is an integral part of the license application process and moving the licensee's operations from one location to another would require regulatory or other approvals, provides the opportunity to capture rental income on properties with above-market property level cash flows and greater re-leasing probability as these properties are generally in high demand. Generally, a tenant's ability to meet rental obligations is strongly correlated to the tenant's revenues derived from the property. In our experience, cannabis operations in limited-license jurisdictions generally have less competition and produce a higher revenue per square foot than unlimited-license cannabis jurisdictions, as well as traditional industrial and retail businesses. We believe that our portfolio has a property rent coverage (generally, the ability of the tenant to generate income sufficient to satisfy its rent and other financial obligations) that is significantly greater than the average for the overall commercial real estate industry.

Competition

The current market for properties that meet our investment objectives is limited. In addition, we believe finding properties that are appropriate for the specific use of allowing medical-use and adult-use cannabis operators may be limited as more competitors enter the market, and as regulated cannabis operators obtain greater access to alternative financing sources, including but not limited to equity and debt financing sources.

We face significant competition from a diverse mix of market participants, including but not limited to, other companies with similar business models, including those companies involved in the sale of certain hemp extract products (including delta-8 THC, among others), independent investors, hedge funds and other real estate investors, hard money lenders, and cannabis operators themselves, all of whom may compete with us in our efforts to acquire real estate zoned for regulated cannabis facilities. In some instances, we will be competing to acquire real estate with persons who have no interest in the cannabis industry but have identified value in a real estate location that we may be interested in acquiring. In particular, we face competition from established companies in this industry, as well as local real estate investors, particularly for smaller retail assets. We have also seen competition from emerging debt funds. We believe that most cannabis cultivation facilities typically require capital in excess of \$20.0 million, which could provide some barriers for smaller potential competitors.

These competitors may prevent us from acquiring desirable properties, may cause an increase in the price we must pay for properties or lower the yield on the properties we acquire. Our competitors may have greater financial and operational resources than we do and may be willing to pay more for certain assets or may be willing to accept more risk than we believe can be prudently managed. In particular, larger companies may enjoy significant competitive advantages that result from, among other things, a lower cost of capital and enhanced operating efficiencies. Our competitors may also adopt transaction structures similar to ours, which would decrease our competitive advantage in offering flexible transaction terms.

In addition, due to a number of factors, including but not limited to potential greater clarity of the laws and regulations governing regulated cannabis by state and federal governments, the number of entities and the amount of funds competing for suitable investment properties may increase substantially, resulting in increased demand and increased prices paid for these properties. Furthermore, changes in federal regulations pertaining to cannabis could also lead to increased access to U.S. capital markets for our competitors and for regulated cannabis operators (including but not limited to access to Nasdaq and/or the New York Stock Exchange). We compete for the acquisition of properties primarily based on their purchase price and lease terms. If we pay higher prices for properties or offer lease terms that are less attractive for us, our profitability may decrease, and investors may experience a lower return on our common stock. Increased competition for properties may also preclude us from acquiring those properties that would generate attractive returns to us.

Risk Management

We are focused on further creating a diversified portfolio based on tenants, geographical concentration and license concentration (i.e., dispensary vs. cultivation). In completing rigorous asset-level and tenant due diligence, we draw upon a pool of highly experienced professionals within our management team, investment committee and third parties to underwrite, evaluate and diligence investment opportunities. We obtain third-party property condition reports, environmental reviews and other customary diligence items.

Our underwriting criteria primarily focuses on the following: (i) the tenant quality, the property including EBITDAR, and track record of paying obligations; (ii) the tenant and the guarantor's financial stability and capacity to meet all their respective obligations, including rent, insurance and taxes; and (iii) the tenant's ability to withstand varying market conditions, ability to adjust to an evolving market landscape.

We are active in the management of our portfolio to minimize risk. We are hands-on, working with our tenants, and industry participants more broadly, to understand the operating environment and continually reassess the risk profile of our investments and our broader strategy. From time to time, we will work with our tenants to identify opportunities to reposition assets to optimize long term value for our shareholders.

Our Financing Strategy

We intend to meet our long-term liquidity needs through cash flow from operations, the issuance of equity and debt securities, including common stock, preferred stock and long-term notes, credit facilities and asset level financing from financial institutions. Where possible, we also may issue limited partnership interests in NLCP Operating Partnership, our operating partnership ("OP Units") to acquire properties from existing owners seeking a tax-deferred transaction. We expect to issue equity and debt securities at times when we believe that our stock price or cost of debt capital, respectively, is at a level that allows for the reinvestment of offering proceeds in accretive property acquisitions. We may also issue common stock to permanently finance properties that were previously financed by debt securities. However, we cannot assure you that we will have access to the capital markets at times and on terms that are acceptable to us. Our investment guidelines provide that our aggregate borrowings (secured and unsecured) will not exceed 50% of the cost of our tangible assets at the time of any new borrowing, subject to our board of directors' discretion.

United States Federal and State Regulatory Overview

The United States federal government regulates drugs through the Controlled Substances Act ("CSA"), which places controlled substances, including cannabis, into classification schedules. Cannabis is defined as a Schedule I substance. The U.S. Department of Justice (the "DOJ") defines Schedule I drugs, substances, or chemicals as "drugs with no currently accepted medical use and a high potential for abuse." The Food and Drug Administration ("FDA") has not approved cannabis as a safe and effective drug for any condition.

In connection with President Biden's October 6, 2022 announcement directing the Secretary of the U.S. and the Attorney General to conduct a review of how marijuana is scheduled under federal law, in August 2023, the Department of Health and Human Services (the "HHS") requested the Drug Enforcement Administration ("DEA") reschedule cannabis from a Schedule I to a Schedule III under the CSA in response to President Biden's October 6, 2022 directive. We believe that the reclassification would remove current restrictions on cannabis operators from taking certain tax deductions, pursuant to IRS rule 208e. This recommendation is awaiting action from the DEA, who has the final authority to make any drug schedule changes.

Federal Legislation Applicable to the Medical-use and Adult-use Cannabis Industry

2013 Cole Memorandum

The U.S. administration under President Barack Obama attempted to address the inconsistencies between federal and state regulation of cannabis in a memorandum which then-Deputy Attorney General James Cole sent to all United States Attorneys in August 2013 (the "Cole Memorandum") outlining specific priorities for the DOJ relating to the prosecution of cannabis offenses. The Cole Memorandum noted that in jurisdictions that have enacted laws legalizing cannabis in some form and that have also implemented strong and effective regulatory and enforcement systems to control the cultivation, processing, distribution, sale, and possession of cannabis, conduct in compliance with those laws and regulations is less likely to be a priority at the federal level. In light of limited investigative and prosecutorial resources, the Cole

Memorandum concluded that the DOJ should be focused on addressing only the most significant threats related to cannabis.

FinCEN Memorandum

The U.S. Department of the Treasury's Financial Crimes Enforcement Network ("FinCEN") issued a memorandum on February 14, 2014 (the "FinCEN Memorandum") outlining the pathways for financial institutions to bank state-sanctioned cannabis businesses in compliance with federal enforcement priorities. The FinCEN Memorandum echoed the enforcement priorities of the Cole Memorandum and states that in some circumstances, it is permissible for banks to provide services to cannabis-related businesses without risking prosecution for violation of federal money laundering laws. Under these guidelines, financial institutions must submit a Suspicious Activity Report ("SAR") in connection with all cannabis-related banking activities by any client of such financial institution under federal money laundering laws. These cannabis-related SARs are divided into three categories – cannabis limited, cannabis priority, and cannabis terminated – based on the financial institution's belief that the business in question follows state law, is operating outside of compliance with state law, or where the banking relationship has been terminated, respectively.

2014 Cole Memorandum

On the same day that the FinCEN Memorandum was published, the DOJ issued a memorandum (the "2014 Cole Memorandum") directing prosecutors to apply the enforcement priorities of the Cole Memorandum in determining whether to charge individuals or institutions with crimes related to financial transactions involving the proceeds of cannabis-related conduct. As discussed below, the 2014 Cole Memorandum was rescinded as of January 4, 2018, along with the Cole Memorandum, removing guidance that enforcement of applicable financial crimes against state-compliant actors was not a DOJ priority.

It should be noted, however, that the revocation of the Cole Memorandum and the 2014 Cole Memorandum has not affected the status of the FinCEN Memorandum, nor has the U.S. Department of the Treasury given any indication that it intends to rescind the FinCEN Memorandum itself. Though it was originally intended for the 2014 Cole Memorandum and the FinCEN Memorandum to work in tandem, the FinCEN Memorandum is a standalone document that explicitly lists the eight enforcement priorities originally cited in the Cole Memorandum. As such, the FinCEN Memorandum remains intact, indicating that the U.S. Department of the Treasury and FinCEN intend to continue abiding by its guidance.

Sessions Memorandum

On January 4, 2018, then-U.S. Attorney General Jeff Sessions formally issued a new memorandum (the "Sessions Memorandum"), which officially rescinded the Cole Memorandum. The Sessions Memorandum stated, in part, that current law reflects "Congress' determination that cannabis is a dangerous drug and cannabis activity is a serious crime." Mr. Sessions directed all U.S. Attorneys to enforce the laws enacted by Congress by following well-established principles when pursuing prosecutions related to cannabis activities. No direction was given to federal prosecutors in the Sessions Memorandum as to the priority they should ascribe to such cannabis activities. However, neither Sessions, nor his successor, Bill Barr, nor current U.S. Attorney General, Merrick Garland, undertook or have undertaken any significant actions that demonstrated or suggested an enforcement policy different than as outlined in the Cole Memorandum.

Blumenauer-Farr Amendment

Although the 2014 Cole Memorandum has been rescinded and the Session Memorandum remains in place, one legislative safeguard for the medical cannabis industry remains. Congress adopted a so-called "rider" provision to the fiscal years 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022 and the most recent Consolidated Appropriations Act (H.R. 2617) (formerly referred to as the "Rohrabacher-Farr Amendment" and now known as the "Blumenauer Amendment"). This rider prevents the federal government from using congressionally appropriated funds to enforce federal cannabis laws against regulated medical cannabis actors operating in compliance with state and local law. The current prohibition, which must be renewed annually and which is currently authorized by passage of a stopgap spending bill, is effective through March 8, 2024.

The federal government has always reserved the right to enforce federal law regarding the sale and disbursement of medical or adult-use cannabis, even if state law sanctioned such sale and disbursement. The Company believes, from a purely legal perspective, that the criminal risk today remains identical to the risk at the time of the initial Blumenauer Amendment passage. It remains unclear whether the risk of enforcement has been altered. Additionally, under federal law, it may potentially violate federal money laundering statutes for financial institutions to take any proceeds from the sale of

[Table of Contents](#)

cannabis or any other Schedule I controlled substance. Likewise, Canadian banks are hesitant to deal with cannabis companies due to the industry's uncertain legal and regulatory framework. Banks and other financial institutions, particularly those that are federally chartered, could be prosecuted and possibly convicted of money laundering for providing services to cannabis businesses.

On April 9, 2021, the Secure and Fair Enforcement Banking Act, H.R. 1996 (the "SAFE Banking Act") passed the House of Representatives. If passed by the Senate, the bill would ensure that financial institutions could take on cannabis business clients without facing federal penalties. Despite the expanding market for legal cannabis, traditional sources of financing, including bank lending or private equity capital, are lacking, which can be attributed to the fact that cannabis remains a Schedule I substance under the CSA. These traditional sources of financing are expected to remain scarce unless and until the federal government legalizes cannabis cultivation and sales. The Senate has yet to act on the bill in Congress.

On April 1, 2022, the House of Representatives passed the Marijuana Opportunity Reinvestment and Expungement Act, H.R. 3617 (the "MORE Act"), which would decriminalize cannabis at the federal level and clear the way to erase nonviolent federal marijuana convictions. The MORE Act also would create a pathway for greater ownership opportunities in the cannabis industry, allow veterans to obtain medical cannabis recommendations from Veteran Affairs doctors, and establish funding sources to reinvest in communities disproportionately affected by the "war on drugs." The Senate has yet to act on the MORE Act this Congress.

In April 2023, lawmakers from both parties reintroduced the SAFE Banking Act. The bill passed the House of Representatives several times but continues to fail before the Senate Banking Committee, a key step toward what would be the first Senate vote on the measure. The bipartisan proposal would ensure that legal cannabis businesses have access to critical banking and financial services.

In September 2023, The Secure and Fair Enforcement Regulation Banking Act (SAFER Banking Act) was voted on by the Senate Banking Committee 14-9 to advance to the full Senate floor where another vote will take place. An earlier version of this bill known as the SAFE Banking Act, passed in the House of Representatives seven times previously but had never advanced through the Senate. The SAFER Banking Act would give legal cannabis businesses access to traditional financing institutions, including bank accounts and small business loans. It would also prevent federal bank regulators from ordering a bank or credit union to close an account based of reputational risk. While industry observers are hopeful that changes in Congress and a continued Biden administration will increase the chances of banking reform, such as approval of the SAFER Banking Act, we cannot provide assurances that Congress would approve such a bill in the near term or at all.

Biden Administration

On October 6, 2022, President Biden announced three steps concerning his administration's approach on marijuana in general. First, Biden pardoned thousands of individuals having convictions of simple possession of marijuana under federal law. Second, Biden urged all Governors in the U.S. to do the same with regard to state offenses. Third, Biden instructed the U.S. Secretary of Health, Xavier Becerra, a member of the President's cabinet, to initiate the administrative process to review expeditiously how marijuana is scheduled under federal law. As stated herein, federal law currently classifies marijuana in Schedule I of the Controlled Substances Act, the classification meant for the most dangerous substances. While rescheduling cannabis to CSA Schedule III would ease certain research restrictions, it would not make the state medical or adult-use programs federally legal. President Biden also noted that even as federal and state regulation of marijuana changes, important limitations on trafficking, marketing, and under-age sales should stay in place. Furthermore, while industry observers are hopeful that changes in Congress and a Biden administration will increase the chances of banking reform, such as the SAFE Banking Act, we cannot provide assurances that Congress would approve a bill legalizing cannabis.

As of December 31, 2023, 45 U.S. states have approved a medical or limited medical cannabis program and 24 states have legalized cannabis for both medical and adult-use. All considered, 92% of the U.S. population reside in a market where some form of medical cannabis is legal.

Despite the legal, regulatory, and political obstacles the cannabis industry currently faces, it has continued to grow. It is anticipated that the federal government will eventually repeal the federal prohibition on cannabis and thereby leave the states to decide whether to permit regulated cannabis cultivation, production, and sale, just as states are free today to decide policies governing the distribution of alcohol or tobacco.

State Laws Applicable to the Medical-use and Adult-use Cannabis Industry

In most states that have legalized medical-use and adult-use cannabis in some form, the growing, processing and/or dispensing of cannabis generally requires that the operator obtain one or more licenses in accordance with applicable state

[Table of Contents](#)

requirements. In addition, many states regulate various aspects of the growing, processing and/or dispensing of medical-use and adult-use cannabis. State and local governments in some cases also impose rules and regulations on the manner of operating cannabis businesses. As a result, applicable state and local laws and regulations vary widely, including, but not limited to, regulations governing medical-use and/or adult-use cannabis programs (such as the type of cannabis products permitted under the program, qualifications and registration of health professionals that may recommend treatment with medical cannabis, and the types of medical conditions that qualify for medical cannabis), product testing, the level of enforcement by state and local authorities on non-licensed cannabis operators, state and local taxation of regulated cannabis products, local municipality bans on operations and operator licensing processes and renewals. As a result of these and other factors, if our tenants default under their leases, we may not be able to find new tenants that can successfully engage in the cultivation, processing or dispensing of medical-use or adult-use cannabis on the properties.

There is no guarantee that state laws legalizing and regulating the growing, processing, sale and use of cannabis will not be repealed, amended or overturned, or that local governmental authorities will not limit the applicability of state laws within their respective jurisdictions. Unless and until Congress amends or repeals the CSA with respect to medical-use and/or adult-use cannabis and the President approves such action (and as to the timing or scope of any such potential amendment or repeal there can be no assurance), there is a risk that federal authorities may enforce current federal law. If the federal government begins to enforce federal laws relating to cannabis in states where the growing, processing, sale and use of cannabis is currently legal, or if existing applicable state laws are repealed or curtailed, our business, results of operations, financial condition and prospects would be materially and adversely affected.

Laws Applicable to Financial Services for Cannabis Industry

All banks are subject to federal law, whether the bank is a national bank or state-chartered bank. At a minimum, all banks maintain federal deposit insurance which requires adherence to federal law. Violation of federal law could subject a bank to loss of its charter. Financial transactions involving proceeds generated by cannabis-related conduct can form the basis for prosecution under the federal money laundering statutes, unlicensed money transmitter statutes and the Bank Secrecy Act. For example, under the Bank Secrecy Act, banks must report to the federal government any suspected illegal activity, which would include any transaction associated with a cannabis-related business. These reports must be filed even though the business is operating in compliance with applicable state and local laws. Therefore, financial institutions that conduct transactions with money generated by cannabis-related conduct could face criminal liability under the Bank Secrecy Act for, among other things, failing to identify or report financial transactions that involve the proceeds of cannabis-related violations of the CSA.

Despite these laws, the FinCEN Memorandum sets forth extensive requirements for financial institutions to meet if they want to offer bank accounts to cannabis-related businesses and echoed the enforcement priorities of the Cole Memorandum. Under these guidelines, financial institutions must submit a SAR in connection with all cannabis-related banking activities by any client of such financial institution, in accordance with federal money laundering laws. These cannabis-related SARs are divided into three categories based on the financial institution's belief that the business in question follows state law, is operating outside of compliance with state law, or where the banking relationship has been terminated, respectively. FinCEN provides a lengthy (but not exhaustive) list of marijuana-related "red flags" in the FinCEN Memorandum that banks are obligated to be aware of and monitor for. This is a level of scrutiny that is far beyond what is expected of any normal banking relationship.

As a result, many banks are hesitant to offer any banking services to cannabis-related businesses, including opening bank accounts. While we currently maintain banking relationships, our inability to maintain those accounts or the lack of access to bank accounts or other banking services in the future, would make it difficult for us to operate our business, increase our operating costs, and pose additional operational, logistical and security challenges. Similarly, if our proposed tenants are unable to access banking services, they will not be able to enter into triple-net leasing arrangements with us, as our leases will require rent payments to be made by check or wire transfer.

In addition, for our tenants that are publicly-traded companies, securities clearing firms may refuse to accept deposits of securities of those tenants, which may negatively impact the trading and valuations of such tenants and have a material adverse impact on our tenants' ability to finance their operations and growth through the capital markets.

The increased uncertainty surrounding financial transactions related to cannabis activities may also result in financial institutions discontinuing services to the cannabis industry. See "Risk Factors – Risks Related to Regulation."

Agricultural Regulation

The medical-use and adult-use cannabis properties that we own that are used primarily for cultivation and production of medical-use and adult-use cannabis are subject to the laws, ordinances and regulations of state, local and federal governments, including laws, ordinances and regulations involving land use and usage, water rights, treatment methods, disturbance, the environment, and eminent domain.

Each governmental jurisdiction has its own distinct laws, ordinances and regulations governing the use of agricultural lands and water. Many such laws, ordinances and regulations seek to regulate water usage and water runoff because water can be in limited supply, as is the case in certain locations where our properties are located. In addition, runoff from rain or from irrigation is governed by laws, ordinances and regulations from state, local and federal governments. Additionally, if any of the water used on or running off from our properties flows to any rivers, streams, ponds, the ocean or other waters, there may be specific laws, ordinances and regulations governing the amount of pollutants, including sediments, nutrients and pesticides, that such water may contain.

We believe that our existing properties have, and other properties that we acquire in the future will have, sources of water, including wells and/or surface water that provide sufficient amounts of water necessary for the current operations at each location. However, should the need arise for additional water from wells and/or surface water sources, we may be required to obtain additional permits or approvals or to make other required notices prior to developing or using such water sources. Permits for drilling water wells or withdrawing surface water may be required by federal, state and local governmental entities pursuant to laws, ordinances, regulations or other requirements, and such permits may be difficult to obtain due to drought, the limited supply of available water within the districts of the states in which our properties are located or other reasons.

In addition to the regulation of water usage and water runoff, state, local and federal governments also seek to regulate the type, quantity and method of use of chemicals and materials for growing crops, including fertilizers, pesticides and nutrient rich materials. Such regulations could include restricting or preventing the use of such chemicals and materials near residential housing or near water sources. Further, some regulations have strictly forbidden or significantly limited the use of certain chemicals and materials. Licenses, permits and approvals must be obtained from governmental authorities requiring such licenses, permits and approvals before chemicals and materials can be used at grow facilities. Reports on the usage of such chemicals and materials must be submitted pursuant to applicable laws, ordinances, and regulations and the terms of the specific licenses, permits and approvals. Failure to comply with laws, ordinances and regulations, to obtain required licenses, permits and approvals or to comply with the terms of such licenses, permits and approvals could result in fines, penalties and/or imprisonment.

Because properties we own may be used for growing medical-use and adult-use cannabis, there may be other additional land use and zoning regulations at the state or local level that affect our properties that may not apply to other types of agricultural uses. For example, certain states in which our properties are located require stringent security systems in place at grow facilities and require stringent procedures for disposal of waste materials.

As an owner of cultivation facilities, we may be liable or responsible for the actions or inactions of our tenants with respect to these laws, regulations and ordinances.

Environmental Matters

Our properties and the operations thereon are subject to federal, state and local environmental laws, ordinances and regulations, including laws relating to water, air, solid wastes and hazardous substances. Our properties and the operations thereon are also subject to federal, state and local laws, ordinances, regulations and requirements related to the federal Occupational Safety and Health Act, as well as comparable state statutes relating to the health and safety of our employees and others working on our properties. Although we believe that we and our tenants are in material compliance with these requirements, there can be no assurance that we will not incur significant costs, civil and criminal penalties and liabilities, including those relating to claims for damages to persons, property or the environment resulting from operations at our properties. Furthermore, many of our properties have been repurposed for regulated cannabis operations, and historically were utilized for other purposes, including heavy industrial uses, which expose us to additional risks associated with historical releases of substances at the properties.

[Table of Contents](#)

Real Estate Industry Regulation

Generally, the ownership and operation of real properties are subject to various laws, ordinances and regulations, including regulations relating to zoning, land use, water rights, wastewater, storm water runoff and lien sale rights and procedures. These laws, ordinances or regulations, such as the Comprehensive Environmental Response and Compensation Liability Act and its state analogs, or any changes to any such laws, ordinances or regulations, could result in or increase the potential liability for environmental conditions or circumstances existing, or created by tenants or others, on our properties. Laws related to upkeep, safety and taxation requirements may result in significant unanticipated expenditures, loss of our properties or other impairments to operations, any of which would adversely affect our cash flows from operating activities.

REIT Qualification

We elected to be taxed as a REIT under Section 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"), commencing with our taxable year ended December 31, 2019. We will generally not be subject to corporate U.S. federal income tax to the extent that we make qualifying distributions to stockholders, and provided that we satisfy, on a continuing basis, through actual investment and operating results, the REIT requirements including certain asset, income, distribution and stock ownership tests. If we fail to qualify as a REIT, and do not qualify for certain statutory relief provisions, we will be subject to U.S. federal, state and local income taxes and may be precluded from qualifying as a REIT for the subsequent four taxable years following the year in which we lost our REIT qualification. The failure to qualify as a REIT could have a material adverse impact on our results of operations and amounts available for distribution to stockholders.

Americans with Disabilities Act

Our properties must comply with Title III of the Americans with Disabilities Act ("ADA") to the extent that such properties are "public accommodations" as defined by the ADA. The ADA may require removal of structural barriers to access by persons with disabilities in certain public areas of our properties where such removal is readily achievable. We believe the existing properties are in substantial compliance with the ADA and that we will not be required to make substantial capital expenditures to address the requirements of the ADA. However, noncompliance with the ADA could result in imposition of fines or an award of damages to private litigants. Although our tenants are generally responsible for all maintenance and repairs of the property pursuant to our leases, including compliance with the ADA and other similar laws or regulations, we could be held liable as the owner of the property for a failure of one of our tenants to comply with these laws or regulations.

Available Information

We make available to the public free of charge through our internet website our Definitive Proxy Statement, Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after we electronically file such reports with, or furnish such reports to, the Securities and Exchange Commission ("SEC"). Our internet website address is www.newlake.com. The SEC also maintains electronic versions of the Company's reports on its website at www.sec.gov. You can also access on our website our Code of Business Conduct and Ethics, Corporate Governance Guidelines, Audit Committee Charter, Compensation Committee Charter, and Nominating and Corporate Governance Committee Charter. The content of our website is not incorporated by reference into this Annual Report on Form 10-K or in any other report or document we file with the SEC, and any references to our website are intended to be inactive textual references only.

Human Capital Resources

At December 31, 2023, we had eight employees. Our employees are our most valuable asset and critical to our long-term success. We believe we have created an inclusive and engaging work environment, where each person is an integrated member of the team. We meet regularly as a full team, and each member is encouraged to actively participate in a wide range of topics relating to our company's business activities.

We have a seasoned team of people with meaningful experience across real estate, cannabis and financial services. We believe that attracting, developing and retaining our team is a high priority. To that end, we believe we offer a highly

competitive compensation (including salary, bonuses and equity) and benefits package for each member of our team, which include the following:

- Comprehensive health insurance, including medical, dental and vision, to each employee at no cost to the employee;
- At least three weeks of paid time off each year for each employee, which are in addition to Company holidays;
- Supplemental paid family medical leave;
- 401(k) plan with a portion matched by the Company;
- Life and Disability insurance;
- Company sponsorship of continuing education courses related to our Company's business; and
- An employer charitable match program for donations to eligible non-profit 501(c)(3) organizations.

We are also proud to be an equal opportunity workplace and employer. We are committed to the principle of equal employment opportunity for all employees and to providing employees with an inclusive work environment free of discrimination and harassment. All employment decisions are based on qualifications, merit and business needs, without regard to race, color, creed, gender, religion, sex, national origin, ancestry, pregnancy, age, marital status, registered domestic partner status, sexual orientation, gender identity, protected medical condition, genetic information, physical or mental disability, veteran status, or any other status protected by the laws or regulations in the locations where we operate.

ITEM 1A. RISK FACTORS

Summary of Risk Factors

Risks Related to Clearing Firms Settling Transactions of Companies Engaged in the Cannabis Industry

- Risks related to engaging in certain capital raising activities and secondary trading in our common stock

Risks Related to Our Business

- Risks related to our limited number of tenants
- Risks related to the limited operating history of our tenants
- Risks related to real estate assets and the real estate industry
- Risks related to the guarantors of our tenant leases being unable to satisfy their obligations
- Risks related to our ability to consummate future acquisitions
- Risks related to the limited number of cannabis-related facilities
- Risks related to the concentration of our properties in states allowing cannabis operations
- Risks related to the demand for properties suitable for cannabis operations
- Risks related to our acquisitions of dispensaries and entrance into leases with licensed operators for these properties
- Risks related to the sale or re-leasing of properties suitable for cannabis operations
- Risks related to impairment charges
- Risks related to our tenants' ability to maintain their licenses for cannabis operations
- Risks related to the acquisition of properties "as-is"
- Risks related to competition for the acquisition of properties
- Risks related to potential liability for environmental matters and climate change
- Risks related to the development and redevelopment of properties we acquire
- Risks related to our tenants' susceptibility to bankruptcy
- Risks related to Section 280E of the Internal Revenue Code (the "Code") and its effects on our tenants
- Risks related to liability of uninsured losses
- Risks related to our properties' access to adequate water and power supplies
- Risks related to obtaining various insurance policies
- Risks related to purchase of properties subject to ground leases
- Risks related to making investments in asset classes outside of our core investment strategy
- Risks related to our status as an emerging growth company and smaller reporting company
- Risks related to the Sarbanes-Oxley Act
- Risks related to assets held at financial institutions

Risks Related to Regulation

- Risks related to enforcement of federal laws regarding cannabis
- Risks related to engaging in operations for the adult-use of cannabis
- Risks related to the potential for new federal, state or local laws
- Risks related to FDA regulation of cannabis
- Risks related to the service of banks and other financial institutions
- Risks related to owners of properties located in close proximity to our properties
- Risks related to changing laws and regulations affecting the regulated cannabis industry
- Risks related to the potential forfeit of assets leased to cannabis businesses
- Risks related to accessing bankruptcy courts
- Risks related to our properties being subject to extensive regulations

Risks Related to Financing Our Business

- Risks related to external sources of capital
- Risks related to significant debt
- Risks related to inflation
- Risks related to interest rate fluctuations
- Risks related to our Revolving Credit Facility

Risks Related to Our Organization and Structure

- Risks related to our senior management
- Risks related to key personnel
- Risks related to certain stockholders' rights to nominate members of our board
- Risks related to changes to our investment strategies by our board
- Risks related to certain provisions of Maryland law
- Risks related to our authorized but unissued shares of common and preferred stock
- Risks related to severance agreements
- Risks related to our company structure and structurally subordinated rights of payment
- Risks related to our operating partnership issuing additional OP Units
- Risks related to conflicts of interest between stockholders and holders of OP Units
- Risks related to limitations on rights to take action against our directors and officers
- Risks related to the difficulty of removing directors
- Risks related to ownership limits which may restrict change in control
- Risks related to operating our business to avoid registration as an investment company

Risks Related to Our Securities

- Risks related to the volatility of the market price of our common stock
- Risks related to common stock and preferred stock eligible for future sale on share price
- Risks related to our ability to make distributions and their reflection of our performance
- Risks related to the effect of distributions on the price of our common stock
- Risks related to securities analysts, effect on the price of our common stock

Risks Related to Our Taxation as a REIT

- Risks related to failure to maintain our qualification as a REIT
- Risks related to REIT distribution requirements
- Risks related to Section 280E of the Code and the possible effect on our REIT status
- Risks related to complying with REIT requirements
- Risks related to the tax on prohibited transactions
- Risks related to the ability of our board to revoke our REIT election
- Risks related to our Taxable REIT Subsidiary ("TRS")
- Risks related to dividends payable by REITs and their tax implications
- Risks related to re-characterization of sale-leaseback transactions
- Risks related to non-U.S. stockholders

[Table of Contents](#)

- Risks related to legislative, regulatory or administrative changes

General Risk Factors

- Risks related to cyberattacks
- Risks related to events not discussed herein

The following risk factors may adversely affect our overall business, financial condition, results of operations, and cash flows; our ability to make distributions to our stockholders; our access to capital; or the market price of our common stock, as further described in each risk factor below. In addition to the information set forth herein, one should carefully review and consider the information contained in our other reports and filings that we make with the SEC from time to time. The risks that we describe in our public filings are not the only risks that we face. Additional risks and uncertainties not presently known to us or are out of our control, or that we currently consider immaterial, also may materially adversely affect our business, financial condition, and results of operations. Additional information regarding forward-looking statements is included herein.

Risks Related to Clearing Firms Settling Transactions of Companies Engaged in the Cannabis Industry

Many clearing firms in the United States are prohibited or very limited in their ability to settle securities of companies engaged in the cannabis industry, which could adversely impact our ability to raise funds in the capital markets.

In the United States, many clearing firms for broker-dealers are prohibited by their internal policies or otherwise have refused to settle sales of securities offerings of companies engaged in the cannabis industry. We lease cultivation properties and dispensaries to tenants who operate in the cannabis industry, and thus many clearing firms and other market participants consider us to be engaged in the cannabis industry. Therefore, the number of clearing firms that will settle our securities offerings, or secondary sales of our common stock, is extremely limited. This means that broker-dealers that we may engage to sell our securities, will have few alternatives for clearing firms that will settle such transactions. This limitation is more pronounced for companies, like ours, that have securities that trade on the OTCQX® Best Market rather than on a national securities exchange. Therefore, our access to the capital markets may be constrained, including having to rely on best efforts securities offerings as opposed to more traditional underwritten securities offerings. Additionally, limitations on settling secondary sales of our securities may limit the marketability and daily trading volume of our securities. These conditions may adversely impact our ability to raise funds in the capital markets and fully execute our business plans as, the amount of proceeds we raise in best efforts securities offerings may be substantially less than the amount that we expect. Given the level of regulation and scrutiny of the cannabis industry by stock exchanges and other regulators, this condition may continue or become more pronounced in the future.

For additional risks related to the cannabis industry, see “Risks Related to Regulation,” below.

Risks Related to Our Business

We have a very limited number of tenants, and the inability of any single tenant to make its lease payments could materially and adversely affect our business (including our financial performance and condition).

We have a very limited number of tenants. As of December 31, 2023, we owned 31 total properties that were leased to a total of 13 tenants. Our 13 tenants each represent aggregate annualized rental revenues (represented by annualized monthly base rent of executed leases which were in effect as of December 31, 2023) for the year ended December 31, 2023 as follows: Curaleaf (23.8%); Cresco Labs (13.6%); Trulieve (11.6%); Columbia Care (8.6%); Calypso (7.5%); Acreage (6.9%); Revolutionary Clinics (6.0%); Ayr Wellness (5.9%); Organic Remedies (5.1%); Mint (4.9%); Bloom Medicinals (4.4%); PharmaCann (1.2%); and Greenlight (0.5%). Lease payment defaults by any of our tenants or a significant decline in the value of any single property could materially and adversely affect our business (including our financial performance and condition). Our lack of tenant diversification also increases the potential that a single underperforming investment or tenant could have a material adverse effect on the price we could realize from the sale of our properties. Any adverse change in the financial condition of any of our tenants, including but not limited to the state cannabis markets not developing and growing in ways that we or our tenants projected, or any adverse change in the political climate regarding cannabis where our properties are located, would subject us to a significant risk of loss.

In addition, failure by any of our tenants to comply with the terms of its lease agreement with us could require us to find another lessee for the applicable property. We may experience delays in enforcing our rights as landlord and may incur

[Table of Contents](#)

substantial costs in protecting our investment and re-leasing that property. Furthermore, we cannot assure you that we will be able to re-lease that property for the rent we currently receive, or at all, or that a lease termination would not result in our having to sell the property at a loss.

The tenant concentration risk (and related risk of tenant defaults) may be more pronounced in the cannabis industry due to the fact that some of our tenants have limited operating histories. See “Risk Factors - Related to Our Business”. Some of our tenants have limited operating histories and may be more susceptible to payment and other lease defaults, which could materially and adversely affect our business (including our financial performance and condition).” The result of any of the foregoing risks could materially and adversely affect our business (including our financial performance and condition).

Some of our tenants and borrower have limited operating histories and may be more susceptible to payment and other lease and loan defaults, which could materially and adversely affect our business (including our financial performance and condition).

As of December 31, 2023, our properties were 100% leased to 13 tenants with one loan to one of the Company’s existing tenants. Single tenants currently occupy our properties, and we expect that single tenants will occupy our properties that we acquire in the future. Therefore, the success of our investments will be materially dependent on the financial stability of these tenants. We rely on our management team to perform due diligence investigations of our potential tenants, related guarantors and their properties, operations and prospects, of which there is sometimes little or no publicly available operating and financial information. We may not learn all of the material information we need to know regarding these businesses through our investigations, and these businesses are subject to numerous risks and uncertainties, including but not limited to, regulatory risks and the rapidly evolving market dynamics of each state’s regulated cannabis program. As a result, it is possible that we could enter into a sale-leaseback arrangement with tenants or otherwise lease properties to tenants that ultimately are unable to pay rent to us, which could adversely impact our business (including our financial performance and condition).

Some of our existing tenants are, and we expect that some of our future tenants will be, companies with limited histories of operations that are not profitable when they enter triple-net leasing arrangements with us and therefore, may be unable to pay rent with funds from operations. Some of our current tenants are not profitable and have experienced losses since inception or have been profitable for only a short period of time. As a result, some of our current tenants have made, and we expect that some of our future tenants will make, initial rent payments to us from proceeds from the sale of the property, in the case of sale-leaseback transactions, or other cash on hand, including cash received from debt financings.

In addition, in general, our tenants are more vulnerable to adverse conditions resulting from federal and state regulations affecting their businesses or industries or other changes in the marketplace for their products and have limited access to traditional forms of financing. The success of our tenants will heavily depend on the growth and development of the state markets in which the tenants operate, many of which have a very limited history or are still in the stages of establishing the regulatory framework.

We record revenue for each of our properties on a cash basis due to the uncertainty of collectability of lease payments from each tenant due to its limited operating history and the uncertain regulatory environment in the U.S. relating to the cannabis industry (for more information, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Estimates”).

Some of our tenants are subject to significant debt obligations and may rely on debt financing to make rent payments to us. Tenants that are subject to significant debt obligations may be unable to make their rent payments if there are adverse changes in their business plans or prospects, the regulatory environment in which they operate or in general economic conditions. In addition, the payment of rent and debt service may reduce the working capital available to tenants for the start-up phase of their businesses. Furthermore, we may be unable to monitor and evaluate tenant credit quality on an on-going basis.

Any lease payment defaults by a tenant could adversely affect our cash flows and cause us to reduce the amount of distributions to stockholders. In the event of a default by a tenant, we may also experience delays in enforcing our rights as landlord and may incur substantial costs in protecting our investment and re-leasing our property as operators of cannabis cultivation, production and retail facilities are generally subject to extensive state licensing requirements. Any negotiations with tenants who are in default under their lease may prove costly or time-consuming and may divert our management team’s attention and resources. Furthermore, we will not operate any of the facilities that we purchase.

Our business is subject to risks associated with real estate assets and the real estate industry, which could materially and adversely affect our business (including our financial performance and condition).

Our ability to pay expected dividends to our stockholders depends on our ability to generate revenues in excess of expenses, scheduled principal payments on debt and capital expenditure requirements. Events and conditions generally applicable to owners and operators of real property that are beyond our control may decrease cash available for distribution and the value of our properties. These events include many of the risks set forth above under “Risks Related to Our Business,” as well as the following:

- oversupply or reduction in demand in our markets;
- adverse changes in financial conditions of buyers, sellers and tenants of properties;
- vacancies or our inability to rent space on favorable terms, including possible market pressures to offer tenants rent abatements, tenant improvements, early termination rights or below-market renewal options, and the need to periodically repair, renovate and re-let space;
- increased operating costs, including insurance premiums, utilities, real estate taxes and state and local taxes;
- civil unrest, acts of war, terrorist attacks and natural disasters, including hurricanes, which may result in uninsured or under insured losses;
- decreases in the underlying value of our real estate;
- changes in submarket demographics; and
- changes in traffic patterns.

The rise in interest rates and historically high inflation negatively impacted economic conditions in 2023. Additionally, some markets in which we own properties saw the wholesale pricing for cannabis decrease, which has had an adverse impact on some of our tenant’s financial performance and condition. Our business plans for 2024 and beyond depend on the general economic conditions. Periods of economic downturn or recession, rising interest rates or declining demand for real estate, or the public perception that any of these events may occur, could result in a general decline in rents or an increased incidence of defaults under existing leases, which could materially and adversely affect our business (including our financial performance and condition).

If the guarantors of our tenant leases and loan are unable to satisfy their obligations to us in connection with a default by the tenant or borrower, it could have a material adverse effect on our business (including our financial performance and condition).

Currently, all of our leases and our loan include a parent or other affiliate guarantee. Although we seek to obtain a parent or affiliated entity guaranty of the obligations of our tenants or borrower under their agreements, in some cases, the guarantor may have no material direct operations as a stand-alone entity. For example, in circumstances where the guarantor is a parent holding company, its assets are likely comprised primarily of the equity interests it directly or indirectly holds in its subsidiaries, with such subsidiaries directly holding dispensary, or cultivation and production operations and related operating assets. As a result, those parent holding company guarantors will be dependent on equity and debt financings, loans, and dividends, distributions and other payments from their subsidiaries to generate the funds necessary to meet any future financial obligations as guarantor of a lease of its subsidiary. Furthermore, a subsidiary is legally distinct from its parent company and other affiliated entities and may be prohibited or restricted from paying dividends or distributions, or otherwise making funds available to its parent company under certain conditions. If a parent holding company guarantor is unable to obtain funds from its subsidiaries, it may be unable to meet future obligations, if any, as a guarantor of leases or loan between its subsidiaries and us. If the guarantors of our tenants’ leases or borrowers’ loan are unable to satisfy their obligations to us as guarantors, it could materially and adversely affect our business (including our financial performance and condition).

Our growth will depend upon future acquisitions of cannabis-related facilities, and we may be unable to consummate acquisitions on advantageous terms or at all.

Our growth strategy is focused on the acquisition of cultivation properties and dispensaries that are leased to tenants that are well positioned to benefit from the growth of the cannabis industry and for whom such real estate is operationally strategic to their business. Our ability to acquire these real estate assets on favorable terms is subject to the following risks, among others:

- significantly increased competition from other potential acquirers or increased availability of alternative debt and equity financing sources for tenants may significantly increase the purchase price of a desired property and/or negatively impact the lease terms we are able to secure with our tenants;
- we may not successfully purchase and lease our properties to meet our expectations;
- we may be unable to obtain the necessary equity or debt financing to consummate an acquisition on satisfactory terms or at all;
- agreements for the acquisition of properties are typically subject to closing conditions, including satisfactory completion of due diligence investigations, and we may spend significant time and money and divert management attention on potential acquisitions that we do not consummate; and
- we may acquire properties without any recourse, or with only limited recourse, for liabilities, whether known or unknown, against the former owners of the properties.

Our failure to consummate acquisitions on advantageous terms without substantial expense or delay would impede our growth and negatively affect our business (including our financial performance and condition).

There may only be a limited number of cannabis-related facilities located in our target jurisdictions operated by suitable tenants available for us to acquire, which could materially and adversely affect our growth prospects.

We target primarily cannabis cultivation and dispensary facilities for acquisition and leasing to licensed operators under triple-net lease agreements. We also target properties owned by established operators or operators that have been among the top candidates in the rigorous state licensing process and have been granted one or more licenses to operate multiple facilities. In light of the current regulatory landscape regarding cannabis, including but not limited to, the rigorous state licensing processes, limits on the number of licenses granted in certain states and in counties within such states, zoning regulations related to cannabis facilities, the inability of potential tenants to open bank accounts necessary to pay rent and other expenses and the ever- changing federal and state regulatory landscape, we may have only a limited number of cannabis facilities available to purchase that are operated by licensees that we believe would be suitable tenants. These tenants may also have increased access to alternative equity and debt financing sources over time, which may limit our ability to negotiate leasing arrangements that meet our investment criteria. Our inability to locate suitable investment properties and tenants would have a material adverse effect on our growth prospects.

Our properties are, and are expected to continue to be, geographically concentrated in states that permit cannabis cultivation and dispensing, and we will be subject to social, political and economic risks of doing business in these states.

As of December 31, 2023, we owned 31 properties in 12 states, and we expect that the properties that we acquire in the future will be geographically concentrated in these states and other states that have established cannabis use programs. We focus on states and municipalities where licensed cannabis properties are in high demand and connected to the operating license. Circumstances and developments related to operations in these markets that could materially negatively affect our business (including our financial performance and condition) include, but are not limited to, the following factors:

- the state cannabis market fails to develop and grow in ways that we or our tenants projected;
- the responsibility of complying with multiple and, in some respects, conflicting state and federal laws in the U.S., including with respect to cultivation and distribution of cannabis, licensing, banking and insurance;

- access to capital may be more restricted, or unavailable on favorable terms or at all in certain locations;
- difficulties and costs of staffing and managing operations;
- unexpected changes in regulatory requirements and other laws;
- the impact of national, regional or state specific business cycles and economic instability; and
- potentially adverse tax consequences.

Our real estate investments are concentrated in cultivation properties suitable for the cultivation and production of cannabis and retail properties suitable for the dispensing of cannabis, and a decrease in demand for such facilities could materially and adversely affect our business (including our financial performance and condition). These properties may be difficult to sell or re-lease upon tenant defaults or lease terminations, either of which could materially and adversely affect our business (including our financial performance and condition).

Our portfolio of properties is concentrated in cultivation and dispensary properties used in the regulated cannabis industry. Further, we do not currently and do not expect in the future to invest in non-cannabis related real estate or businesses to hedge against the risk that cannabis industry trends might decrease the profitability of our facilities. Therefore, we are subject to risks inherent in investments in a single industry. A decrease in the demand for cannabis cultivation, processing and dispensary facilities would have a greater adverse effect on our rental revenues than if we owned a more diversified real estate portfolio. Demand for cannabis cultivation, processing and dispensary facilities has been and could be adversely affected by changes in state or local laws or any change in the federal government's current enforcement posture with respect to state-licensed cannabis operations, among others. Additionally, we have funded build-to-suit projects that are specific to our cultivation facilities which may affect the future demand from non-cannabis industry tenants seeking these properties for an alternative use. To the extent that any of these conditions occur, they are likely to affect demand and market rents for cannabis cultivation, processing and dispensary facilities, which could materially and adversely affect our business (including our financial performance and condition).

We expect that at times we will deem it appropriate or desirable to sell or otherwise dispose of certain properties we own. The types of properties that we own are relatively illiquid compared to other types of real estate assets. This illiquidity could limit our ability to quickly dispose of properties in response to changes in regulatory, economic or other conditions. Therefore, our ability at any time to sell assets may be restricted and this lack of liquidity may limit our ability to make changes to our portfolio promptly, which could materially and adversely affect our business (including our financial performance and condition). We cannot predict the various market conditions affecting the properties that we expect to acquire that will exist in the future. Due to the uncertainty of regulatory and market conditions which may affect the future disposition of the real estate assets we expect to acquire, we cannot assure you that we will be able to sell these assets at a profit in the future, or at all. Accordingly, the extent to which we will realize potential appreciation (or depreciation) on the real estate investments we have acquired and expect to acquire will depend upon regulatory and other market conditions. In addition, in order to maintain our REIT status, we may not be able to sell properties when we would otherwise choose to do so, due to market conditions or changes in our strategic plan. Furthermore, we may be required to make expenditures to correct defects or to make improvements before a property can be sold and we cannot assure you that we will have funds available to correct such defects or to make such improvements. For our properties, if the current lease is terminated or not renewed, we may be required to make expenditures and rent concessions in order to lease the property to another tenant.

In addition, if we are forced to sell or re-lease the property, we may have difficulty finding qualified purchasers who are willing to buy the property or tenants who are willing to lease the property on terms that we expect, or at all. As our tenants and properties are concentrated in the regulated cannabis industry, a shift in property preferences by regulated cannabis operators, including but not limited to changing preferences regarding location and types of improvements, could have a significant negative impact on the desirability of our properties to prospective tenants when we need to re-lease them, in addition to other challenges, such as obtaining the necessary state and local authorizations for a new tenant to commence operations at the property. These and other limitations may affect our ability to sell or re-lease properties, which may materially and adversely affect our business (including our financial performance and condition).

The assets we acquire may be subject to impairment charges.

We periodically evaluate the real estate investments we acquire and other assets for impairment indicators. The judgment regarding the existence of impairment indicators is based upon factors such as market conditions, tenant performance and

[Table of Contents](#)

legal structure. For example, the termination of a lease by a tenant may lead to an impairment charge (particularly in the context of properties that have only a single tenant). If we determine that an impairment has occurred, we would be required to make an adjustment to the net carrying value of the asset which could have an adverse effect on our results of operations in the period in which the impairment charge is recorded.

We have acquired and may continue to acquire dispensaries and enter into leases with licensed operators for those properties, which present additional risks and challenges in comparison to properties for the cultivation and production cannabis.

We have acquired and may continue to acquire cannabis dispensaries and enter into leases with licensed operators for those locations. As of December 31, 2023, 17 of our 31 owned properties were cannabis dispensaries. Cannabis dispensaries entail some risks that are different from risks associated with regulated cannabis cultivation and processing facilities, including but not limited to:

- the impact of the continued evolution of the retail distribution model for cannabis and customer preferences, including the impact of e-commerce and home delivery on demand for cannabis retail space;
- the handling of significant cash transactions and cannabis inventory at the property, which may increase security risks associated with dispensary operations;
- local real estate conditions (such as an oversupply of, or a reduction in demand for, cannabis retail space);
- our and our tenants' ability to procure and maintain appropriate levels of property and casualty insurance; and
- risks associated with data breaches through cyberattacks, cyber intrusions or otherwise that expose customer personal information at dispensaries, which may result in liability and reputational damage to our tenants and our company.

The realization of any of the risks above, among others, with respect to one or more of our properties or tenants could have a material adverse impact on our business (including our financial performance and condition).

Our tenants or borrower may be unable to renew or otherwise maintain their licenses or other requisite authorizations for their cannabis operations, which may result in such tenants or borrower not being able to operate their businesses and defaulting on their lease payments to us.

As of December 31, 2023, our properties were 100% leased and primarily located in limited-license jurisdictions. We rely on our tenants or borrower to renew or otherwise maintain the requisite state and local cannabis licenses and other authorizations on a continuous basis. If one or more of our tenants or borrower are unable to renew or otherwise maintain its licenses or other state and local authorizations necessary to continue its cannabis operations, such tenants or borrower may default on their lease payments to us.

Any such noncompliance by our tenants of state and local laws, rules and regulations may also subject us, as the owner of such properties, to potential penalties, fines or other liabilities.

Any lease payment defaults by a tenant or additional liability on us could materially and adversely affect our business (including our financial performance and condition). In the event of a default by a tenant, we may also experience delays in enforcing our rights as landlord and may incur substantial costs in protecting our investment and re-leasing our property as operators of cannabis cultivation, production and dispensaries are generally subject to extensive state licensing requirements, including required state and local authorizations for a new tenant to take over operations at a facility.

We acquired some of our properties, and expect to acquire other properties, "as-is" or otherwise with limited recourse to the prior owner, which significantly increases the risk of an investment.

We acquired some of our properties, and expect to acquire other real estate properties, "as is" or otherwise with limited recourse to the prior owner and with only limited representations and warranties from such prior owner regarding matters

affecting the condition, use and ownership of the property. There may also be environmental or other conditions associated with properties we acquire of which we are unaware despite our diligence efforts or that we have identified during diligence, including with respect to historical heavy industrial uses of the properties. In particular, cannabis facilities may present environmental concerns of which we are not currently aware. See “Risk Factors—Risks Related to Our Business—Potential liability for environmental matters could adversely affect our business (including our financial performance and condition)” below. If environmental contamination exists on properties we acquire or develops after acquisition, we could become subject to liability for the contamination. If defects in the property (including any building on the property) or other matters adversely affecting the property are discovered or otherwise subject us to unknown claims or liabilities, we may not be able to pursue a claim for any or all damages against the property seller. Such a situation could materially harm our business (including our financial performance and condition).

We did not obtain a title insurance policy in connection with the acquisition of the cultivation property in Sterling, MA.

We did not obtain a title insurance policy in connection with the acquisition of the cultivation property in Sterling, MA. If there were a material title defect related to this property, we could lose some or all of our capital invested in and our anticipated profits from this property.

Competition for the acquisition of properties suitable for the cultivation, production or retail sale of cannabis and alternative financing sources for licensed operators may impede our ability to make acquisitions or increase the cost of these acquisitions, which could materially and adversely affect our growth prospects.

We face significant competition from a diverse mix of market participants, including but not limited to, other companies with similar business models, independent investors, hedge funds and other real estate investors, hard money lenders, and cannabis operators themselves, including those companies involved in the sale of certain hemp extract products (including delta-8 THC, among others), all of whom may compete with us in our efforts to acquire real estate zoned for regulated cannabis facilities. In some instances, we will be competing to acquire real estate with persons who have no interest in the cannabis industry, but have identified value in a real estate location that we may be interested in acquiring. In particular, we face competition from established companies in this industry, including Innovative Industrial Properties, Inc. (the largest publicly-traded cannabis-focused REIT) as well as local real estate investors, particularly for smaller retail assets. Recently, we have also seen competition from emerging debt funds and business development companies.

These competitors may prevent us from acquiring desirable properties or may cause an increase in the price we must pay for properties. Our competitors may have greater financial and operational resources than we do and may be willing to pay more for certain assets or may be willing to accept more risk than we believe can be prudently managed. In particular, larger companies may enjoy significant competitive advantages that result from, among other things, a lower cost of capital and enhanced operating efficiencies. Our competitors may also adopt transaction structures similar to ours, which would decrease our competitive advantage in offering flexible transaction terms. In addition, due to a number of factors, including but not limited to potential greater clarity of the laws and regulations governing regulated cannabis by state and federal governments, the number of entities and the amount of funds competing for suitable investment properties may increase substantially, resulting in increased demand and increased prices paid for these properties.

Furthermore, changes in federal regulations pertaining to cannabis could also lead to increased access to U.S. capital markets for our competitors and for regulated cannabis operators (including but not limited to access to the Nasdaq Stock Market and/or the New York Stock Exchange). We compete for the acquisition of properties primarily based on their purchase price and lease terms. If we pay higher prices for properties or offer lease terms that are less attractive for us, our profitability may decrease, and you may experience a lower return on our common stock. In addition, we may have competition from companies who sell products containing hemp-derived cannabinoids, including CBD and certain forms of THC (including but not limited to delta-8 THC and THCO). Pursuant to The Agricultural Act of 2014, Pub. L. 115-334 (the “Farm Bill”), hemp and hemp extracts, including CBD, are no longer defined as marijuana nor classified as a controlled substance. Although the Farm Bill lapsed at the end of 2023 and the timing and terms of a new farm bill are uncertain, increased use of products containing hemp and hemp extracts may compete with the cannabis market and thus could impact the success of our tenants, which would adversely impact our business (including our financial performance and condition).

Increased competition for properties may also preclude us from acquiring those properties that would generate attractive returns to us. By way of example, Congress has introduced several proposed bills focused on the regulated cannabis industry, including the MORE Act, the States Reform Act (the “States Act”) and the Secure and Fair Enforcement Regulation (SAFER) Banking Act (the “SAFER Banking Act”). If it became law, the MORE Act, which was passed by the

U.S. House of Representatives in December 2020 and for the second time on April 1, 2022, would, among other things, remove cannabis as a Schedule I controlled substance under the Controlled Substances Act (“CSA”) and make available U.S. Small Business Administration funding for regulated cannabis operators. In November 2021, the States Act was introduced, which would, among other things, remove cannabis as a Schedule I controlled substance under the CSA, provide deference to states to determine their own cannabis policies, transfer regulatory responsibility of cannabis to the U.S. Department of Agriculture, the FDA and certain other federal regulatory agencies, and establish a lower federal excise tax on cannabis products than other current proposals. If it became law, the SAFER Banking Act would, among other things, provide protection from federal prosecution to banks and other financial institutions that provide financial services to state-licensed, compliant cannabis operators, which may include the provision of loans by financial institutions to such operators. In September 2023, the Committee on Banking, Housing, and Urban Affairs of the U.S. Senate passed a legislative markup of the SAFE Banking Act, now titled the “SAFER Banking Act,” out of the committee. In December 2023, the States Act was reintroduced for the second time in the U.S. House of Representatives. If passed, the States Act would remove marijuana as a substance covered by the CSA, remove existing federal obstacles to marijuana retailers’ financial transactions involving financial institutions and authorizes the Food and Drug Administration to regulate cannabis. If any of the proposed bills in Congress became law, there would be further increased competition for the acquisition of properties that can be leased to licensed cannabis operators, and such operators would have greater access to alternative financing sources with lower costs of capital. These factors may reduce the number of operators that wish to enter into lease transactions with us or renew leases with us, or may result in us having to enter into leases on less favorable terms with tenants, each of which may significantly adversely impact our profitability and ability to generate cash flow and make distributions to our stockholders.

Potential liability for environmental matters could adversely affect our business (including our financial performance and condition).

As an owner of real estate, we are subject to the risk of liabilities under federal, state and local environmental laws. Some of these laws could subject us to:

- responsibility and liability for the cost of removal or remediation of hazardous substances released on our properties, generally without regard to our knowledge of or responsibility for the presence of the contaminants;
- liability for the costs of removal or remediation of hazardous substances at disposal facilities for persons who arrange for the disposal or treatment of these substances; or
- potential liability for claims by third parties for damages resulting from environmental contaminants.

We will generally include provisions in our leases making tenants responsible for all environmental liabilities and for compliance with environmental regulations, and we will seek to require tenants to reimburse us for damages or costs for which we have been found liable. However, these provisions will not eliminate our statutory liability or preclude third party claims against us. Even if we were to have a legal claim against a tenant to enable us to recover any amounts we are required to pay, there are no assurances that we would be able to collect any money from the tenant. Our costs of investigation, remediation or removal of hazardous substances may be substantial. In addition, the presence of hazardous substances on one of our properties, or the failure to properly remediate a contaminated property, could adversely affect our ability to sell or lease the property or to borrow using the property as collateral. Additionally, we could become subject to new, stricter environmental regulations, which could diminish the utility of our properties and have a material adverse impact on our results of operations and our ability to make distributions to our stockholders.

Although it is our policy to require an acceptable Phase I environmental site assessment for all real property in which we invest prior to our investment, such surveys are limited in scope. As a result, there can be no assurance that a Phase I environmental site assessment will uncover any or all hazardous or toxic substances on a property prior to our investment in that property. We cannot assure you:

- that there are no existing liabilities related to our properties of which we are not aware;
- that future laws, ordinances or regulations will not impose material environmental liability; or

- that the current environmental condition of any of our properties or dispensaries will not be affected by the condition of properties in the vicinity of the properties or dispensaries (such as the presence of leaking underground storage tanks) or by a tenant or third parties unrelated to us.

We face possible risks associated with the physical effects of climate change.

The physical effects of climate change could have a material adverse effect on our business (including our financial performance and condition). To the extent climate change causes changes in weather patterns, our markets could experience increases in storm intensity. These conditions could result in physical damage to our properties or declining demand for space in our buildings or the inability of us to operate the buildings at all in the areas affected by these conditions. Climate change also may have indirect effects on our business by increasing the cost of (or making unavailable) property insurance on terms we find acceptable, increasing the cost of energy and increasing the cost of snow removal or related costs at our properties. Legislation to address climate change could increase utility and other costs of operating our properties which, if not offset by rising rental income, would reduce our net income. Should the impact of climate change in target markets be material in nature, our properties, operations or business would be adversely affected.

We face significant risks associated with the development and redevelopment of properties that we own.

In many instances, we fund build-to-suit projects for our cultivation centers and dispensaries. Development and redevelopment activities that we fund entail risks that could adversely impact our business (including our financial performance and condition), including:

- construction costs, which may exceed our or our tenant's original estimates due to increases in materials, labor or other costs, which could make the project less profitable for our tenant, require us or our tenant to commit additional funds to complete the project and adversely impact our tenant's business and prospects as a result;
- permitting or construction delays, which may result in increased project costs, as well as deferred revenue and delayed commencement of operations by our tenant;
- unavailability of raw materials when needed, which may result in project delays, stoppages or interruptions, which could make the project less profitable;
- claims for warranty, product liability and construction defects after a property has been built;
- health and safety incidents and site accidents;
- poor performance or nonperformance by, or disputes with, any of our contractors, subcontractors or other third parties on whom we rely;
- unforeseen engineering, environmental or geological problems, which may result in delays or increased costs;
- labor stoppages, slowdowns or interruptions;
- liabilities, expenses or project delays, stoppages or interruptions as a result of challenges by third parties in legal proceedings; and
- weather-related and geological interference, including hurricanes, landslides, earthquakes, floods, drought, wildfires and other events, which may result in delays or increased costs.

The realization of any of the risks above or other delays in development and redevelopment activities at a property may also materially and adversely impact our tenant's ability to commence, continue or expand its operations, which may result in that tenant defaulting on its rent obligations to us.

Some of our tenants could be susceptible to bankruptcy, which would affect our ability to generate rents from them and therefore negatively affect our business (including our financial performance and condition).

In addition to the risk of tenants being unable to make regular rent payments, certain of our tenants may depend on debt, which could make them especially susceptible to bankruptcy in the event that their cash flows are insufficient to satisfy their debt. Because cannabis remains illegal under federal law, there is no assurance that federal bankruptcy courts will provide relief for parties who engage in cannabis-related businesses. Recent bankruptcy court rulings have denied bankruptcy relief for certain cannabis businesses on the basis that businesses cannot violate federal law and then claim the benefits of federal bankruptcy for such activity and on the basis that courts cannot ask a bankruptcy trustee to take possession of, and distribute cannabis assets, as such action would violate the CSA. Any inability of our tenants to seek bankruptcy protection may impact their ability to secure financing for their operations and prevent our tenants from utilizing the benefits of reorganization of their businesses under bankruptcy protection to operate in a financially sustainable way, thereby reducing the probability that such a tenant would be able to honor its lease obligations with us.

Generally, under bankruptcy law, a tenant who is the subject of bankruptcy proceedings may continue (“assume”) or give up (“reject”) any unexpired lease of non-residential real property. If a bankrupt tenant decides to give up (reject) a lease, any claim for breach of the lease is treated as a general unsecured claim in the tenant’s bankruptcy case, subject to certain exceptions for collateral and guarantees. In the event one of our tenants is permitted to seek bankruptcy protection in the U.S., our general unsecured claim would likely be capped at the amount the tenant owed us for unpaid rent prior to the bankruptcy unrelated to the termination, plus the greater of one year of lease payments or 15% of the lease payments payable under the remaining term of the lease, but in no case more than three years of lease payments. In addition to the cap on our damages for breach of the lease, even if our claim is timely submitted to the bankruptcy court, there is no guaranty that the tenant’s bankruptcy estate would have sufficient funds to satisfy the claims of general unsecured creditors. Finally, a bankruptcy court could re-characterize a net lease transaction as a disguised secured lending transaction. If that were to occur, we would not be treated as the owner of the property, but might have additional rights as a secured creditor. This would mean our claim in bankruptcy court could be limited to the amount we paid for the property, which could adversely impact our business (including our financial performance and condition). Any bankruptcy, if allowed, of one of our tenants would result in a loss of lease payments to us, as well as an increase in our costs to carry the property.

Our tenants may be subject to Section 280E of the Code because of the nature of their business activities, which could have an adverse impact on their financial condition due to a disallowance of certain tax deductions.

Section 280E of the Code provides that, with respect to any taxpayer, no deduction or credit is allowed for expenses incurred during a taxable year “in carrying on any trade or business if such trade or business (or the activities which comprise such trade or business) consists of trafficking in controlled substances (within the meaning of Schedule I and II of the CSA) which is prohibited by federal law or the law of any state in which such trade or business is conducted.” Because cannabis is a Schedule I controlled substance under the CSA, Section 280E of the Code by its terms applies to the purchase and sale of cannabis products. Our tenants are engaged in the cultivation, processing and sale of cannabis and cannabis-related products, and therefore may be subject to Section 280E of the Code. Application of the provisions of Section 280E of the Code to our tenants would result in the disallowance of certain tax deductions, including for depreciation or interest expense, which could have an adverse impact on their respective financial condition and ability to make lease payments to us. Any lease payment defaults by a tenant could adversely affect our business (including our financial performance and condition).

There are significant tax risks related to controlled substances.

The Marijuana Opportunity Reinvestment and Expungement (MORE) Act of 2022 (H.R. 3617) passed the U.S. House of Representatives by a 220-204 vote April 1, 2022. The MORE Act would impose an excise tax on the sale or other disposition of cannabis products. Initially, the excise tax rate would be set at the rate of five percent of the product’s sale price for the first two years after the law went into effect. After that, the excise tax rate would increase by one percentage point annually until it increased to eight percent in the fifth year after the law went into effect. The MORE Act would also remove marijuana from the CSA so that state-legal cannabis businesses would no longer be subject to Section 280E of the Code. The prior Senate session did not consider this legislation and it is unclear whether the MORE Act will be reintroduced. If reintroduced and enacted into law, it is unclear whether this legislation would negatively impact our tenants resulting in lease payment defaults.

Liability for uninsured losses could materially and adversely affect our business (including our financial performance and condition).

While the terms of our leases with our tenants generally require property and casualty insurance, losses from disaster-type occurrences, such as earthquakes, hurricanes, floods and weather-related disasters, and other types of insurance, such as landlord's rental loss insurance, may be either uninsurable or not insurable on economically viable terms, due in part to our properties' locations, construction types and concentration on the regulated cannabis industry. Should an uninsured loss occur, we could lose our capital investment or anticipated profits and cash flows from one or more properties, which could materially and adversely affect our business (including our financial performance and condition).

If our properties' access to adequate water and power supplies is interrupted, it could harm our ability to lease the properties for cannabis cultivation and production, thereby adversely affecting our ability to generate returns on our properties.

In order to lease some of the properties that we own, these properties require access to sufficient water and power to make them suitable for the cultivation and production of cannabis. Although we expect to acquire properties with sufficient access to water, should the need arise for additional wells from which to obtain water, we would be required to obtain permits prior to drilling such wells. Permits for drilling water wells are required by state and county regulations, and such permits may be difficult to obtain due to the limited supply of water in areas where we acquire properties. Similarly, our properties may be subject to governmental regulations relating to the quality and disposition of rainwater runoff or other water to be used for irrigation. In such case, we could incur costs necessary in order to retain this water. If we are unable to obtain or maintain sufficient water supply for our properties, our ability to lease them for the cultivation and production of cannabis would be seriously impaired, which would have a material adverse impact on the value of our assets and our business (including our financial performance and condition).

Indoor cultivation of cannabis requires significant power for growing lights, ventilation and air conditioning to remove the hot air generated by the growing lights. While outdoor cultivation is gaining acceptance in many states with favorable climates for such growth, we expect that most of our properties will continue to utilize indoor cultivation methods. Any extended interruption of the power supply to our properties, particularly those using indoor cultivation methods, would likely harm our tenants' crops and processing capabilities, which could result in their inability to make lease payments to us for our properties. Any lease payment defaults by a tenant could materially and adversely affect our business (including our financial performance and condition).

Due to our involvement in the regulated cannabis industry, we may have a difficult time obtaining the various insurance policies that are desired to operate our business, which may expose us to additional risks and financial liabilities.

Insurance that is otherwise readily available, such as workers' compensation, general liability and directors' and officers' insurance, is more difficult for us to find and more expensive, because we lease our properties to companies in the regulated cannabis industry. There are no guarantees that we will be able to find such insurance in the future, or that the cost will be affordable to us. If we are forced to go without such insurance or with less insurance than we would prefer, it may prevent us from entering into certain business sectors, may inhibit our growth, and may expose us to additional risk and financial liabilities.

We may purchase properties subject to ground leases that expose us to the loss of such properties upon breach or termination of the ground leases.

A ground lease agreement permits a tenant to develop and/or operate a land parcel (property) during the lease period, after which the land parcel and all improvements revert back to the property owner. Under a ground lease, property improvements are owned by the property owner unless an exception is created and all relevant taxes incurred during the lease period are paid for by the tenant. Ground leases typically have a long duration generally ranging from 50 to 99 years with additional extension options. As a lessee under a ground lease, we would be exposed to the possibility of losing the property upon termination, or an earlier breach by us, of the ground lease, which could have a material adverse effect on our business (including our financial performance and condition).

We may make investments in asset classes outside of our core investment strategy which may be perceived as complicating our strategy relative to our peers.

We may need to expand beyond our current asset class mix to grow our portfolio. We may, to the extent that market conditions warrant, seek to grow our business by pursuing new investment strategies (including investment opportunities in new asset classes), developing new types of investment structures and products, and expanding into new geographic markets and businesses. Investing in new asset classes could increase the complexities involved in managing such assets. Making investments in assets classes outside of our core investment strategy may also be perceived as complicating our strategy relative to our peers.

Entry into new asset classes may subject us to new laws and regulations with which we are not familiar and may lead to increased litigation and regulatory risk and costs.

We are an “emerging growth company,” and a “smaller reporting company” and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies and smaller reporting companies will make shares of our common stock less attractive to investors.

We are an “emerging growth company” under the JOBS Act. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for emerging growth companies, including certain requirements relating to accounting standards and compensation disclosure. We will remain an emerging growth company until the earliest to occur of:

- the last day of the fiscal year during which our total annual revenue equals or exceeds \$1.2 billion (subject to adjustment for inflation);
- the last day of the fiscal year following the fifth anniversary of our initial public offering;
- the date on which we have, during the previous three-year period, issued more than \$1.0 billion in non-convertible debt; or
- the date on which we are deemed to be a “large accelerated filer” under the Exchange Act.

For as long as we remain an emerging growth company, we may take advantage of exemptions from various reporting and other requirements that are applicable to other public companies that are not emerging growth companies, including the requirements to:

- provide an auditor’s attestation report on management’s assessment of the effectiveness of our system of internal control over financial reporting pursuant to Section 404;
- comply with any new or revised financial accounting standards applicable to public companies until such standards are also applicable to private companies;
- comply with any new requirements adopted by the Public Company Accounting Oversight Board (the “PCAOB”), requiring mandatory audit firm partner rotation or a supplement to the auditor’s report in which the auditor would be required to provide additional information about the audit and the financial statements of the issuer;
- comply with any new audit rules adopted by the PCAOB unless the SEC determines otherwise;
- provide certain disclosure regarding executive compensation required of larger public companies; or
- hold stockholder advisory votes on executive compensation.

Similarly, as a smaller reporting company, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “smaller reporting companies,” including, but not limited to, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements.

We cannot predict if investors will find shares of our common stock less attractive because we will not be subject to the same reporting and other requirements as other public companies. If some investors find shares of our common stock less

attractive as a result, there may be a less active trading market for our common stock, and the per-share trading price of our common stock could decline and may be more volatile.

We have elected to use the extended transition period for adopting new or revised accounting standards available to emerging growth companies under the JOBS Act and will, therefore, not be subject to the same new or revised accounting standards as other public companies that are not emerging growth companies, which could make our common stock less attractive to investors.

The JOBS Act provides that an emerging growth company can take advantage of exemption from various reporting requirements applicable to other public companies and an extended transition period for complying with new or revised accounting standards. This allows an emerging growth company to delay the adoption of these accounting standards until they would otherwise apply to private companies. We intend to take advantage of these exemptions and the extended transition periods for adopting new or revised accounting standards and therefore, we will not be subject to the same new or revised accounting standards as other public companies that are not emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with public company effective dates. We intend to take advantage of these options although, subject to certain restrictions, we may elect to stop availing ourselves of these exemptions in the future even while we remain an “emerging growth company.” We cannot predict whether investors will find our stock less attractive as a result of this election. If some investors find our common stock less attractive as a result of this election, there may be a less active trading market for our common stock and our stock price may be more volatile.

We will be subject to the requirements of the Sarbanes-Oxley Act.

As long as we remain an emerging growth company, we will be permitted to comply gradually with certain of the ongoing reporting and disclosure obligations of public companies pursuant to the Sarbanes-Oxley Act. See “Risk Factors—Risks Related to Our Business— We are an “emerging growth company,” and a “smaller reporting company” and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies and smaller reporting companies will make shares of our common stock less attractive to investors.”

Management is required to deliver a report that assesses the effectiveness of our internal controls over financial reporting pursuant to Section 302 of the Sarbanes-Oxley Act. Section 404 of the Sarbanes-Oxley Act may require our auditors to deliver an attestation report on the effectiveness of our internal controls over financial reporting in conjunction with their opinion on our audited financial statements as of December 31 in a future year. Substantial work on our part will be required to implement appropriate processes, document the system of internal control over key processes, assess their design, remediate any deficiencies identified and test their operation. This process is expected to be both costly and challenging. We cannot give any assurances that material weaknesses will not be identified in the future in connection with our compliance with the provisions of Sections 302 and 404 of the Sarbanes-Oxley Act. The existence of any material weakness described above would preclude a conclusion by management and our independent auditors that we maintained effective internal control over financial reporting. Our management may be required to devote significant time and expense to remediate any material weaknesses that may be discovered and may not be able to remediate any material weakness in a timely manner. The existence of any material weakness in our internal control over financial reporting could also result in errors in our financial statements that could require us to restate our financial statements, cause us to fail to meet our reporting obligations and cause investors to lose confidence in our reported financial information, all of which could lead to a decline in the per-share trading price of our common stock and significant harm to our reputation.

We currently, and may in the future, have assets held at financial institutions that may exceed the insurance coverage offered by the Federal Deposit Insurance Corporation, the loss of such assets would have a severe negative affect on our operations and liquidity.

We maintain our cash assets at certain financial institutions in the U.S. in amounts that are in excess of the Federal Deposit Insurance Corporation (“FDIC”) insurance limit of \$250,000. In the event of a failure of any financial institution where we maintain our deposits or other assets, we may incur a loss to the extent such loss exceeds the FDIC insurance limit, which could have a material adverse effect on our liquidity, financial condition and our results of operations. In order to mitigate the risk of loss, a large balance of our cash assets are held in Insured Cash Sweep (“ICS”) accounts which distribute our cash balances at the FDIC insured rate to demand deposit accounts or money market deposit accounts at other ICS network banks. This allows for greater protection on our large cash deposits should a financial institution fail while simultaneously also allows us to earn a return. This in no way completely eliminates our exposure to a potential loss and the failure of a

financial institution where our cash balances are held could still have an adverse effect on our liquidity, financial condition and our results of operations.

Risks Related to Regulation

Cannabis remains illegal under federal law, and therefore, strict enforcement of federal laws regarding cannabis would likely result in our inability and the inability of our tenants to execute our respective business plans.

Cannabis is a Schedule I controlled substance under the CSA. Even in those jurisdictions in which cannabis has been legalized at the state level, the possession, distribution, cultivation, manufacture and use of cannabis all remain violations of federal law that are punishable by imprisonment, substantial fines and forfeiture. U.S. federal law does not differentiate between “medical cannabis,” “retail cannabis,” “adult-use cannabis” and any other designations that state or local law may apply to cannabis. Moreover, individuals and entities may violate federal law if they intentionally aid and abet another in violating federal laws, including those regarding controlled substances, or conspire with another to violate them, and violating the federal cannabis laws is also a predicate for certain other crimes under anti-money laundering laws or the Racketeer Influenced and Corrupt Organizations Act (the “RICO Act”). The U.S. Supreme Court has ruled in *United States v. Oakland Cannabis Buyers’ Coop.* and *Gonzales v. Raich* that it is the federal government that has the right to regulate and criminalize the sale, possession and use of cannabis, even for medical purposes. We would likely be unable to execute our business plan if the federal government were to strictly enforce federal law regarding cannabis.

In January 2018, the then-acting U.S. Attorney General Jeff Sessions issued a memorandum (the “Sessions Memo”) rescinding certain prior memoranda, including the so-called “Cole Memorandum” issued on August 29, 2013 under the Obama Administration. The Cole Memorandum had characterized enforcement of federal cannabis prohibitions under the CSA to prosecute those complying with state regulatory systems allowing the use, manufacture and distribution of medical cannabis as an inefficient use of federal investigative and prosecutorial resources when state regulatory and enforcement efforts are effective with respect to enumerated federal enforcement priorities under the CSA. In rescinding the Cole Memorandum, DOJ instructed its prosecutors to enforce the laws enacted by Congress and to follow well-established principles that govern all federal prosecutions when deciding whether to pursue prosecutions related to cannabis activities. As a result, under the Sessions Memo—which technically remains in effect—federal prosecutors could, and still can, use their prosecutorial discretion to decide to prosecute actors compliant with their state laws. Although there have not been any identified prosecutions of state law compliant cannabis entities, there can be no assurance that the federal government will not enforce federal laws against the regulated cannabis industry generally, including our tenants and us.

President Biden’s Attorney General, Merrick Garland, has not yet provided a clear policy directive for the U.S. as it pertains to state-legal cannabis-related activities. However, on October 6, 2022, President Biden granted a full, complete, and unconditional pardon to all current US citizens and lawful permanent residents who committed the offense of simple possession of marijuana in violation of the CSA. He also directed the Secretary of Health and Human Services and the Attorney General to conduct an expeditious review of how marijuana is scheduled under federal law, noting that as a Schedule I drug, it has the same classification as heroin and LSD, and even higher than the classification of fentanyl and methamphetamine. In August 2023, the HHS recommended to the DEA that cannabis be reclassified from a Schedule I drug to a Schedule III drug under the CSA. HHS based this recommendation on a FDA review of cannabis’ classification pursuant to President Biden’s executive order in October 2022. The process for reclassification will require DEA approval and likely complex administrative rulemaking proceedings, and it remains unclear how long this process will take and the scope of any final decisions or rules. Further, the impact of such decisions or rules, if any are promulgated, on existing state-regulated cannabis programs remains unclear, including but not limited to FDA and other federal regulatory agency involvement, the impact of such a decision on potential federal legislative reform such as proposals to de-schedule cannabis and provide greater access to capital markets for state-regulated cannabis operators, and the potential entry into the cannabis markets of large, well-capitalized companies as a result of any re-scheduling.

Congress previously enacted an omnibus spending bill that includes a provision prohibiting the DOJ (which includes the DEA) from using funds appropriated by that bill to prevent states from implementing their medical-use cannabis laws. Commonly referred to as the “Rohrabacher-Blumenauer Amendment,” this so-called “rider” provision has been appended to the Consolidated Appropriations Acts for fiscal years 2015 through present. Under the terms of the Rohrabacher-Blumenauer rider, the federal government is prohibited from using congressionally appropriated funds to enforce federal cannabis laws against regulated medical cannabis actors operating in compliance with state and local law. On November 16, 2023, President Biden signed a series of spending bill which included the Rohrabacher-Blumenauer Amendment, extending its application until February 2, 2024; the application of the Rohrabacher-Blumenauer Amendment was subsequently extended to March 8, 2024, by a series of stopgap spending bills. However, there is no assurance that Congress will approve inclusion of a similar prohibition in future appropriations bills to prevent DOJ from using congressionally appropriated funds to enforce federal cannabis laws against regulated medical cannabis actors operating in compliance with state and local law. In *USA vs. McIntosh*, the U.S. Court of Appeals for the Ninth Circuit held that this

provision prohibits the DOJ from spending funds from relevant appropriations acts to prosecute individuals who engage in conduct permitted by state medical-use cannabis laws and who strictly comply with such laws. However, the Ninth Circuit's opinion, which only applies to the states of Alaska, Arizona, California, Hawaii, and Idaho, also held that persons who do not strictly comply with all state laws and regulations regarding the distribution, possession and cultivation of medical-use cannabis have engaged in conduct that is unauthorized, and in such instances the DOJ may prosecute those individuals.

There is also uncertainty surrounding the upcoming presidential election, and how the outcome may impact the federal regulation of cannabis and the bills and recent actions discussed above.

Furthermore, while we target the acquisition of medical-use facilities in certain jurisdictions, our leases do not prohibit cannabis cultivation for adult-use that is permissible under the state and local laws where our facilities are located. Consequently, certain of our tenants currently (and additional tenants may in the future) cultivate, process and/or dispense adult-use cannabis as well as medical-use cannabis in our facilities, as permitted by state and local laws now or in the future, which may in turn subject the tenant, us and our properties to greater and/or different federal legal and other risks as compared to facilities where cannabis is cultivated exclusively for medical use, including not providing protection under the Congressional spending bill provision.

Additionally, financial transactions involving proceeds generated by cannabis-related conduct can form the basis for prosecution under the federal money laundering statutes, unlicensed money transmitter statutes and the Bank Secrecy Act. The penalties for violation of these laws include imprisonment, substantial fines and forfeiture. Prior to the DOJ's rescission of the Cole Memorandum, supplemental guidance from the DOJ issued under the Obama administration directed federal prosecutors to consider the federal enforcement priorities enumerated in the Cole Memorandum when determining whether to charge institutions or individuals with any of the financial crimes described above based upon cannabis-related activity. This supplemental guidance was followed by the February 14, 2014 FinCEN Memorandum outlining the pathways for financial institutions to bank state-sanctioned cannabis businesses in compliance with federal enforcement priorities. Under these guidelines, financial institutions must submit a Suspicious Activity Report in connection with all cannabis-related banking activities by any client of such financial institution, in accordance with federal money laundering laws. These cannabis-related SARs are divided into three categories—cannabis limited, cannabis priority, and cannabis terminated—based on the financial institution's belief that the business in question follows state law, is operating outside of compliance with state law, or where the banking relationship has been terminated, respectively. The FinCEN Memorandum states that in some circumstances, it is permissible for banks to provide services to cannabis-related businesses without risking prosecution for violation of federal money laundering laws. Although the Sessions Memo rescinded the Cole Memorandum, the FinCEN Memorandum technically remained intact during President Trump's administration; however, it is unclear whether the current administration will continue to follow the FinCEN Memorandum. The DOJ continues to have the right and power to prosecute crimes committed by banks and financial institutions, such as money laundering and violations of the Bank Secrecy Act, that occur in any state including states that have in some form legalized the sale of cannabis. Further, the conduct of the DOJ's enforcement priorities could change for any number of reasons. A change in the DOJ's priorities could result in the DOJ's prosecuting banks and financial institutions for crimes that were not previously prosecuted.

Federal prosecutors have significant discretion to investigate and prosecute suspected violations of federal law and no assurance can be given that the federal prosecutor in each judicial district where we purchase a property will not choose to strictly enforce the federal laws governing cannabis operations. Any change in the federal government's enforcement posture with respect to state-licensed cannabis operations, including the enforcement postures of individual federal prosecutors in judicial districts where we purchase properties, would result in our inability to execute our business plan, and we would likely suffer significant losses with respect to our investment in cannabis facilities in the U.S., which would adversely affect the trading price of our securities. Furthermore, following any such change in the federal government's enforcement position, we could be subject to criminal prosecution, which could impact our ability to operate and could lead to imprisonment and/or the imposition of penalties, fines, or forfeiture.

Certain of our tenants engage in operations for the adult-use cannabis industry in addition to or in lieu of operations for the medical-use cannabis industry, and such tenants, we and our properties may be subject to additional risks associated with such adult-use cannabis operations.

Our existing leases at our properties do not, and we expect that leases that we enter into with future tenants at other properties we acquire will not, prohibit cannabis operations for adult-use that is permissible under state and local laws where our facilities are located and certain of our tenants are currently engaged in operations in the adult-use cannabis

[Table of Contents](#)

industry, which may subject our tenants, us and our properties to different and greater risks, including greater prosecution risk for aiding and abetting violation of the CSA and federal laws governing money laundering. For example, the prohibition in the current omnibus spending bill that prohibits the DOJ from using funds appropriated by Congress to prevent states from implementing their medical-use cannabis laws does not extend to adult-use cannabis laws. In addition, while we may purchase properties in states that only permit medical-use cannabis at the time of acquisition, such states may in the future authorize by state legislation or popular vote the legalization of adult-use cannabis, thus permitting our tenants to engage in adult-use cannabis operations at our properties. For example, Arizona, California, Illinois and Massachusetts permit licensed adult-use cannabis operations, and our leases with tenants in those states allow for adult-use cannabis operations to be conducted at the properties in compliance with state and local laws.

New laws that are adverse to the business of our tenants may be enacted, and current favorable national, state or local laws or enforcement guidelines relating to cannabis operations may be modified or eliminated in the future.

We have acquired and are targeting for acquisition properties that are owned by state-licensed cannabis operators. Relevant state or local laws may be amended or repealed, or new laws may be enacted in the future to eliminate existing laws permitting cannabis operations. If our tenants were forced to close their operations, we would need to replace those tenants with tenants who are not engaged in the cannabis industry, who most likely will pay significantly lower rents. Moreover, any changes in state or local laws that reduce or eliminate the ability to conduct cannabis operations would likely result in a high vacancy rate for the kinds of properties that we seek to acquire, which would depress our lease rates and property values. In addition, we would realize an economic loss on any and all improvements made to properties that were specific to the cannabis industry.

For example, in connection with the Centers for Disease Control and Prevention identifying cases of vaping-related lung injuries, certain state and local governments had instituted temporary bans. In addition to litigation and reputational risks surrounding vaping-related lung injuries, bans or heightened regulations could have a material adverse impact on our tenants' operations in those states and localities where such a ban or other restrictive regulation has been implemented.

Our ability to grow our business depends on state laws pertaining to the cannabis industry.

Continued development of the medical-use and adult-use cannabis industry depends upon continued legislative authorization of cannabis at the state level. The status quo of, or progress in, the regulated medical-use and adult-use cannabis industry is not assured and any number of factors could slow or halt further progress in this area. While there may be ample public support for legislative action permitting the cannabis operations, numerous factors impact the legislative process. For example, many states that voted to legalize medical-use and/or adult-use cannabis have seen significant delays in the drafting and implementation of industry regulations and issuance of licenses. In addition, burdensome regulation at the state level could slow or stop further development of the medical-use and adult-use cannabis industry, such as limiting the medical conditions for which medical cannabis can be recommended by physicians for treatment, not strictly enforcing regulations for non-licensed cannabis operators, restricting the form in which medical cannabis can be consumed, imposing significant registration requirements on physicians and patients or imposing significant taxes on the growth, processing and/or retail sales of cannabis, which could have the impact of dampening growth of the cannabis industry and making it difficult for cannabis businesses, including our tenants, to operate profitably in those states. Any one of these factors could slow or halt additional legislative authorization of medical-use and adult-use cannabis, which could harm our business prospects.

FDA regulation of cannabis and the possible registration of facilities where cannabis is grown could negatively affect the cannabis industry, which would directly affect our business (including our financial performance and condition).

Should the federal government legalize cannabis, it is possible that the FDA would seek to regulate it under the Food, Drug and Cosmetics Act of 1938 or under the Public Health Service Act. Additionally, the FDA may issue rules, regulations, or guidance including certified good manufacturing practices, related to the growth, cultivation, harvesting and processing of cannabis. If regulated by the FDA as a drug, clinical trials may be needed to verify efficacy and safety. It is also possible that the FDA would require that facilities where cannabis is grown register with the FDA and comply with certain federally prescribed regulations. In the event that some or all of these regulations or enforcement actions are imposed, we do not know what the impact this would have on the cannabis industry, including what costs, requirements and possible prohibitions may be enforced. If we or our tenants are unable to comply with the regulations or registration as prescribed by the FDA, we and or our tenants may be unable to continue to operate their and our business in its current form or at all.

We and our tenants may have difficulty accessing the service of banks and other financial institutions, which may make it difficult to contract for real estate needs.

Financial transactions involving proceeds generated by cannabis-related conduct can form the basis for prosecution under the federal money laundering statutes, unlicensed money transmitter statute and the Bank Secrecy Act. Previous guidance issued by FinCEN clarified how financial institutions can provide services to cannabis-related businesses consistent with their obligations under the Bank Secrecy Act. However, this guidance does not provide any safe harbors or legal defenses from examination or regulatory or criminal enforcement actions by the DOJ, FinCEN or other federal regulators. Thus, most banks and other financial institutions in the U.S. do not appear to be comfortable providing banking services to cannabis-related businesses, or relying on this guidance, which can be amended or revoked at any time by the executive branch. In addition to the foregoing, banks may refuse to process debit card payments and credit card companies generally refuse to process credit card payments for cannabis-related businesses. Prior to the DOJ's announcement in January 2018 of the rescission of the Cole Memorandum and related memoranda, supplemental guidance from the DOJ directed federal prosecutors to consider the federal enforcement priorities enumerated in the Cole Memorandum when determining whether to charge institutions or individuals with any of the financial crimes described above based upon cannabis-related activity. It remains unclear what impact the rescission of the Cole Memorandum will have or what position the Biden administration may take, but it remains possible that federal prosecutors may increase enforcement activities against institutions or individuals that are conducting financial transactions related to cannabis activities. The uncertainty surrounding financial transactions related to cannabis activities may also result in financial institutions discontinuing services to the cannabis industry.

Consequently, those businesses involved in the regulated medical-use and adult-use cannabis industry continue to encounter difficulty establishing banking relationships, which may increase over time. Our inability to maintain our current bank accounts would make it difficult for us to operate our business, increase our operating costs, and pose additional operational, logistical and security challenges and could result in our inability to implement our business plan.

The terms of our leases require that our tenants make rental payments via check or wire transfer. Only a small percentage of financial institutions in the U.S. currently provide banking services to licensed cannabis operators. The inability of our current and potential tenants to open accounts and continue using the services of banks will limit their ability to enter into triple-net lease arrangements with us or may result in their default under our lease agreements, either of which could materially harm our business (including our financial performance and condition) and the trading price of our securities. Our current cash balances are held in smaller banks and our cash deposits exceed federally insured limits.

In addition, in the United States, many clearing houses for major broker-dealer firms have refused to handle securities or settle transactions of companies engaged in cannabis related business. This means that certain broker-dealers cannot accept for deposit or settle transactions in the securities of companies, which may inhibit the ability of investors to trade in our securities in the United States, could negatively affect the liquidity of our securities and could subject us to additional regulatory scrutiny from state and federal securities regulators. Similarly, for our tenants that are publicly-traded companies, securities clearing firms may refuse to accept deposits of securities of those tenants, which may negatively impact the trading and valuations of such tenants and have a material adverse impact on our tenants' ability to finance their operations and growth through the capital markets.

In addition, federal money laundering statutes and Bank Secrecy Act regulations discourage financial institutions from working with any organization that sells a controlled substance, regardless of whether the state it resides in permits cannabis sales. While the SAFER Banking Act would permit commercial banks to offer services to cannabis companies that are in compliance with state law, it remains under consideration by Congress; if Congress fails to pass the SAFER Banking Act, our inability, or limitations on our ability, to open or maintain bank accounts, obtain other banking services and/or accept credit card and debit card payments may make it difficult for us to operate and conduct our business as planned or to operate efficiently.

Federal and state banking regulators closed two U.S. banks in March 2023 and one U.S. bank in May 2023, with which we have no banking, financing or other business relationships, precipitating financial industry and capital markets turmoil centered on concerns about the stability and solvency of other banks and financial institutions and the attendant risk they may be closed and/or forced by governmental agencies into receivership or sale. The failure of other banks and financial institutions, if it occurs, could have a material adverse effect on our or our tenants' liquidity or consolidated financial statements if we or our tenants have placed cash and cash equivalent deposits at such banks or financial institutions or have lending relationships with those banks.

Owners of properties located in close proximity to our properties may assert claims against us regarding the use of the property as a cannabis cultivation, processing or dispensing facility, which if successful, could materially and adversely affect our business (including our financial performance and condition).

Owners of properties located in close proximity to our properties may assert claims against us regarding the use of our properties for cannabis cultivation, processing or dispensing, including assertions that the use of the property constitutes a nuisance that diminishes the market value of such owner's nearby property. Such property owners may also attempt to assert such a claim in federal court as a civil matter under the RICO Act. If a property owner were to assert such a claim against us, we may be required to devote significant resources and costs to defending ourselves against such a claim, and if a property owner were to be successful on such a claim, our tenants may be unable to continue to operate their business in its current form at the property, which could materially and adversely impact the tenant's business and the value of our property, our business (including our financial performance and condition) and the trading price of our securities.

Laws and regulations affecting the regulated cannabis industry are constantly changing, which could materially and adversely affect our operations, and we cannot predict the impact that future regulations may have on us.

Local, state and federal cannabis laws and regulations are broad in scope and subject to evolving interpretations, which could require us to incur substantial costs associated with compliance or alter our business plan. In addition, violations of these laws, or allegations of such violations, could disrupt our business and result in a material adverse effect on our operations. It is also possible that regulations may be enacted in the future that will be directly applicable to our business. We cannot predict the nature of any future laws, regulations, interpretations or applications, nor can we determine what effect additional governmental regulations or administrative policies and procedures, when and if promulgated, could have on our business.

Assets leased to cannabis businesses may be forfeited to the federal government.

Any assets used in conjunction with the violation of federal law are potentially subject to federal forfeiture, even in states where cannabis is legal. In July 2017, the DOJ issued a new policy directive regarding asset forfeiture, referred to as the "equitable sharing program." Under this new policy directive, federal authorities may adopt state and local forfeiture cases and prosecute them at the federal level, allowing for state and local agencies to keep up to 80% of any forfeiture revenue. This policy directive represents a reversal of the DOJ's policy under the Obama administration, and allows for forfeitures to proceed that are not in accord with the limitations imposed by state-specific forfeiture laws. This new policy directive may lead to increased use of asset forfeitures by local, state and federal enforcement agencies. If the federal government decides to initiate forfeiture proceedings against cannabis businesses, such as the medical-use and adult-use cannabis facilities that we have acquired and intend to acquire, our investment in those properties may be lost.

We may have difficulty accessing bankruptcy courts.

As discussed above, cannabis is illegal under federal law. Therefore, there is a compelling argument that the federal bankruptcy courts cannot provide relief for parties who engage in the cannabis or cannabis related businesses. Recent bankruptcy rulings have denied bankruptcies for dispensaries upon the justification that businesses cannot violate federal law and then claim the benefits of federal bankruptcy for the same activity and upon the justification that courts cannot ask a bankruptcy trustee to take possession of, and distribute cannabis assets as such action would violate the CSA. Therefore, we may not be able to seek the protection of the bankruptcy courts and this could materially affect our business or our ability to obtain credit. In addition, bankruptcy or other similar proceedings are often a complex and lengthy process, the outcome of which may be uncertain and could result in a material adverse effect on us or our tenants.

The properties that we own are subject to extensive regulations, which may result in significant costs and materially and adversely affect our business (including our financial performance and condition), liquidity and results of operations.

Our properties are and other properties that we expect to acquire will be subject to various laws and regulatory requirements. For example, local property regulations, including restrictive covenants of record, may restrict the use of properties we acquire and may require us to obtain approval from local authorities with respect to the properties that we expect to acquire, including prior to acquiring a property or when developing or undertaking renovations. Among other things, these restrictions may relate to cultivation, processing or dispensing of medical-use and adult-use cannabis, the use of water and the discharge of waste water, fire and safety, seismic conditions, asbestos-cleanup or hazardous material abatement requirements. Our failure to obtain such regulatory approvals could have a material adverse effect on our business (including our financial performance and condition), liquidity and results of operations. Furthermore, we cannot

assure you that the regulatory requirements and statutory prohibitions relating to properties used in cannabis operations will not materially and adversely affect us or the timing or cost of any future acquisitions, developments or renovations, or that additional regulations will not be adopted that would increase such delays or result in additional prohibition or costs.

Risks Related to Financing Our Business

Our growth depends on external sources of capital, which may not be available on favorable terms or at all (which such financing source risk may be more pronounced in the cannabis industry due to financial and regulatory constraints).

We expect to acquire additional real estate assets, which we intend to finance primarily through newly issued equity or debt. We may not be in a position to take advantage of attractive investment opportunities for growth if we are unable, due to global or regional economic uncertainty, changes in the state or federal regulatory environment relating to the cannabis industry, changes in market conditions for the regulated cannabis industry, our own operating or financial performance or otherwise, to access capital markets on a timely basis and on favorable terms or at all. In addition, U.S. federal income tax law generally requires that a REIT distribute annually at least 90% of its REIT taxable income, without regard to the deduction for dividends paid and excluding net capital gain and that it pay U.S. federal income tax at regular corporate rates to the extent that it annually distributes less than 100% of its taxable income. Because we intend to grow our business, this limitation may require us to raise additional equity or incur debt at a time when it may be disadvantageous to do so.

Our access to capital will depend upon a number of factors over which we have little or no control, including general market conditions and the market's perception of our current and potential future earnings. If general economic instability or downturn leads to an inability to borrow at attractive rates or at all, our ability to obtain capital to finance the purchase of real estate assets could be negatively impacted. In addition, banks and other financial institutions may be reluctant to enter into lending transactions with us, particularly secured lending, because we intend to acquire properties used in the cultivation, production or dispensing of cannabis. If this source of funding is unavailable to us, our growth may be limited.

If we are unable to obtain capital on terms and conditions that we find acceptable, we likely will have to reduce the number of properties we can purchase. In addition, our ability to refinance all or any debt we may incur in the future, on acceptable terms or at all, is subject to all of the above factors, and will also be affected by our future business (including our financial performance and condition), which additional factors are also subject to significant uncertainties, and therefore we may be unable to refinance any debt we may incur in the future, as it matures, on acceptable terms or at all. All of these events would have a material adverse effect on our business (including our financial performance and condition), including our growth prospects.

In addition, securities clearing firms may refuse to accept deposits of our securities, which may negatively impact the trading of our securities and have a material adverse impact on our ability to obtain capital.

We may incur significant debt, which may subject us to restrictive covenants and increased risk of loss and may reduce cash available for distributions to our stockholders.

As of December 31, 2023, we have a \$1.0 million loan payable and \$1.0 million outstanding on our Revolving Credit Facility. Although we currently have no other outstanding indebtedness, subject to market conditions and availability, we may incur significant debt through bank credit facilities (including term loans and revolving facilities), public and private debt issuances and derivative instruments, in addition to other transaction or asset specific funding arrangements. The percentage of leverage we employ will vary depending on our available capital, our ability to obtain and access financing arrangements with lenders, debt restrictions contained in those financing arrangements and the lenders' and rating agencies' estimate of the stability of our investment portfolio's cash flow. Our board of directors may significantly increase the amount of leverage we utilize at any time. In addition, we may leverage individual assets at substantially higher levels. Incurring substantial debt could subject us to many risks that, if realized, would materially and adversely affect us, including the risk that:

- our cash flow from operations may be insufficient to make required payments of principal and interest on the debt or we may fail to comply with all of the other covenants contained in the debt, which is likely to result in (i) acceleration of such debt (and any other debt containing a cross-default or cross-acceleration provision) that we may be unable to repay from internal funds or to refinance on favorable terms, or at all, (ii) our inability to borrow unused amounts under our financing arrangements, even if

we are current in payments on borrowings under those arrangements, and/or (iii) the loss of some or all of our assets to foreclosure or sale;

- we may be unable to borrow additional funds as needed or on favorable terms, or at all;
- to the extent we borrow debt that bears interest at variable rates, increases in interest rates could materially increase our interest expense;
- our default under any loan with cross default provisions could result in a default on other indebtedness;
- our debt may increase our vulnerability to adverse economic and industry conditions with no assurance that investment yields will increase with higher financing costs;
- we may be required to dedicate a substantial portion of our cash flow from operations to payments on our debt, thereby reducing funds available for operations, future business opportunities, stockholder distributions, including distributions currently contemplated or necessary to satisfy the requirements for REIT qualification or other purposes; and
- we may be unable to refinance debt that matures prior to the investment it was used to finance on favorable terms, or at all. There can be no assurance that a leveraging strategy will be successful.

If any one of these events were to occur, our business (including our financial performance and condition) and our ability to make distributions to our stockholders could be materially and adversely affected.

Inflation could adversely impact our tenants and our results of operations.

Inflation, both real or anticipated, as well as any resulting governmental policies, could adversely affect the economy and the costs of labor, goods and services to our tenants. Our long-term leases and loans typically contain provisions such as rent and interest escalators that are designed to mitigate the adverse impact of inflation on the Company's results of operations. However, these provisions may have limited effectiveness at mitigating the risk of high levels of inflation due to contractual limits on escalation that exist in substantially all of our escalation provisions. Our leases are triple-net and typically require the tenant to pay all property operating expenses, and therefore, increases in property-level expenses at our leased properties generally do not directly affect us. However, increased operating costs resulting from inflation could have an adverse impact on our tenants if increases in their operating expenses exceed increases in their revenue, which may adversely affect our tenants' ability to pay rent or other obligations owed to us. An increase in our tenant's expenses and a failure of their revenues to increase at least with inflation could adversely impact our tenant's and our financial condition and our results of operations.

Interest rates could adversely impact our results of operations.

Interest rates are highly sensitive to many factors, including fiscal and monetary policies and domestic and international economic and political considerations, as well as other factors beyond our control. We are, and may become, subject to interest rate risk in connection with our Revolving Credit Facility and other lendings or loans we may enter into in the future. If interest rates decrease, our required interest payments may exceed those based on current market rates. If interest rates remain higher for longer, our cost of financing could significantly increase when the Revolving Credit Facility or other lending we may enter into in the future adjust to a floating rate which could adversely impact our financial condition and our results of operations. We may choose to mitigate such interest rate risk through the use of interest rate derivative instruments.

Covenants in our Revolving Credit Facility could adversely affect our financial condition.

Our Revolving Credit Facility is subject to certain liquidity and operating covenants and includes customary representations and warranties, affirmative and negative covenants and events of default. Any of the default events under our Revolving Credit Facility could cause our lenders to accelerate the timing of payments and/or prohibit future

borrowings, either of which would have a material adverse effect on our business, operations, financial condition and liquidity.

Risks Related to Our Organization and Structure

Our senior management team manages our portfolio subject to very broad investment guidelines.

Our senior management team has broad discretion over our investments, and our stockholders will have no opportunity to evaluate the terms of transactions or other economic or financial data concerning our investments that are not described in periodic filings with the SEC. We rely on the senior management team's ability to execute acquisitions and dispositions of cannabis-related facilities, subject to the oversight and approval of our board of directors. Our senior management team is authorized to pursue acquisitions and dispositions of real estate investments in accordance with very broad investment guidelines, subject to approval of our board of directors.

We are dependent on our key personnel for our success.

We depend upon the efforts, experience, diligence, skill and network of business contacts of our senior management team, and our success will depend on their continued service. The departure of any of our executive officers or key personnel could have a material adverse effect on our business (including our financial performance and condition). If any of our key personnel were to cease their employment, our operating results could suffer. Further, we do not intend to maintain key person life insurance that would provide us with proceeds in the event of death or disability of any of our key personnel.

We believe our future success depends upon our senior management team's ability to hire and retain highly skilled personnel. Competition for such personnel is intense, and we cannot assure you that we will be successful in attracting and retaining such skilled personnel. If we lose or are unable to obtain the services of key personnel, our ability to implement our investment strategies could be delayed or hindered, and the value of our common stock may decline.

Certain of our stockholders have the right to nominate members of our board of directors.

We have entered into an amended and restated investor rights agreement (the "Investor Rights Agreement") with certain of our stockholders, pursuant to which the stockholders party thereto have certain rights with respect to the nomination of members to our board of directors. As a result, our other stockholders may have a limited ability to influence the composition of our board of directors.

Our board of directors may change our investment objectives and strategies without stockholder consent.

Our board of directors determines our major policies, including with regard to financing, growth, debt capitalization, REIT qualification and distributions. Our board of directors may amend or revise these and other policies without a vote of the stockholders. Under our charter and Maryland General Corporation Law (the "MGCL"), our stockholders generally have a right to vote only on the following matters:

- the election or removal of directors;
- the amendment of our charter, except that our board of directors may amend our charter without stockholder approval to:
 - change our name;
 - change the name or other designation or the par value of any class or series of stock and the aggregate par value of our stock;
 - increase or decrease the aggregate number of shares of stock that we have the authority to issue;
 - increase or decrease the number of our shares of any class or series of stock that we have the authority to issue; and
 - effect certain reverse stock splits;

- our liquidation and dissolution; and
- our being a party to a merger, consolidation, sale or other disposition of all or substantially all of our assets or statutory share exchange.

All other matters are subject to the discretion of our board of directors.

Certain provisions of Maryland law could inhibit changes in control.

Under the MGCL, “business combinations” (including a merger, consolidation, statutory share exchange or, in certain circumstances, an asset transfer or issuance or reclassification of equity securities) between a Maryland corporation and an “interested stockholder” or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. An interested stockholder is defined as: (a) any person who beneficially owns 10% or more of the voting power of the then-outstanding voting stock of the corporation; or (b) an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then-outstanding stock of the corporation.

A person is not an interested stockholder under the statute if the board of directors approved in advance the transaction by which the person otherwise would have become an interested stockholder. A Maryland corporation’s board of directors may provide that its approval is subject to compliance with any terms and conditions determined by the board of directors prior to the time that the interested stockholder becomes an interested stockholder.

Thereafter, any such business combination must generally be recommended by the board of directors of such corporation and approved by the affirmative vote of at least:

- 80% of the votes entitled to be cast by holders of outstanding voting stock of the corporation; and
- two-thirds of the votes entitled to be cast by holders of voting stock of the corporation, other than shares held by the interested stockholder with whom (or with whose affiliate) the business combination is to be effected, or held by an affiliate or associate of the interested stockholder unless, among other conditions, the corporation’s common stockholders receive a minimum price (as defined in the MGCL) for their shares and the consideration is received in cash or in the same form as previously paid by the interested stockholder for its shares.

A Maryland corporation’s board of directors may provide that its approval is subject to compliance with any terms and conditions determined by it. These provisions of the MGCL do not apply, however, to business combinations that are approved or exempted by a Maryland corporation’s board of directors prior to the time that the interested stockholder becomes an interested stockholder. As permitted by the MGCL, our board of directors has adopted a resolution exempting any business combination between us and any other person from the provisions of this statute, *provided* that the business combination is first approved by our board of directors (including a majority of directors who are not affiliates or associates of such persons).

The “control share” provisions of the MGCL provide that, subject to certain exceptions, a holder of “control shares” of a Maryland corporation (defined as shares which, if aggregated with all other shares of stock owned by the acquirer or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), entitle the stockholder to exercise one of three increasing ranges of voting power in electing directors) acquired in a “control share acquisition” (defined as the direct or indirect acquisition of ownership or control of issued and outstanding “control shares”) has no voting rights with respect to such shares except to the extent approved by our stockholders by the affirmative vote of at least two-thirds of all the votes entitled to be cast on the matter, excluding votes entitled to be cast by the acquirer of control shares, our officers and our personnel who are also our directors. Our bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions by any person of shares of our stock. There can be no assurance that such provision will not be amended or eliminated at any time in the future by our board of directors.

The “unsolicited takeover” provisions of Title 3, Subtitle 8 of the MGCL (“Subtitle 8”), permit the board of directors of a Maryland corporation with a class of equity securities registered under the Exchange Act to, without stockholder approval and regardless of what is currently provided in its charter or bylaws, to implement certain takeover defenses, including the ability to classify the board of directors.

These provisions may have the effect of inhibiting a third party from making an acquisition proposal for us or of delaying, deferring or preventing a change in control of us under the circumstances that otherwise could provide the holders of shares of common stock with the opportunity to realize a premium over the then current market price.

Our authorized but unissued shares of common and preferred stock may prevent a change in our control.

Our charter permits our board of directors to authorize us to issue additional shares of our authorized but unissued common or preferred stock. In addition, our board of directors may, without stockholder approval, amend our charter to increase the aggregate number of our shares of stock or the number of shares of stock of any class or series that we have the authority to issue and classify or reclassify any unissued shares of common or preferred stock and set the terms of the classified or reclassified shares. As a result, our board of directors may establish a class or series of shares of stock that could delay or prevent a transaction or a change in control that might involve a premium price for shares of our common stock or otherwise be in the best interest of our stockholders.

Severance provisions included in our employment agreements with our executive officers could be costly and prevent a change in our control.

The employment agreements that we entered into with our executive officers include severance provisions, which provide that, if their employment with us terminates under certain circumstances (including after a change in our control), we may be required to pay them significant amounts of severance compensation, including accelerated vesting of equity awards, thereby making it costly to terminate their employment. Furthermore, these provisions could delay or prevent a transaction or a change in our control that might involve a premium paid for our common stock or otherwise be in the best interests of our stockholders.

Because of our holding company structure, we depend on our operating partnership and its subsidiaries for cash flows and we will be structurally subordinated in right of payment to the obligations of such operating subsidiary and its subsidiaries.

We are a holding company with no business operations of our own. Our only significant asset is and will be OP Units and the general partnership interests in our operating partnership. We conduct, and intend to continue to conduct, all of our business operations through our operating partnership. Accordingly, our only source of cash to pay our obligations is distributions from our operating partnership and its subsidiaries of their net earnings and cash flows. We cannot assure our stockholders that our operating partnership or its subsidiaries will be able to, or be permitted to, make distributions to us that will enable us to make distributions to our stockholders from cash flows from operations. Each of our operating partnership's subsidiaries is or will be a distinct legal entity and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from such entities. In addition, because we are a holding company, your claims as stockholders will be structurally subordinated to all existing and future liabilities and obligations of our operating partnership and its subsidiaries. Therefore, in the event of our bankruptcy, liquidation or reorganization, our assets and those of our operating partnership and its subsidiaries will be able to satisfy your claims as stockholders only after all of our and our operating partnership's and its subsidiaries' liabilities and obligations have been paid in full. Furthermore, U.S. bankruptcy courts have generally refused to grant bankruptcy protections to cannabis businesses.

Our operating partnership may issue additional OP Units to third parties without the consent of our stockholders, which would reduce our ownership percentage in our operating partnership and would have a dilutive effect on the amount of distributions made to us by our operating partnership and, therefore, the amount of distributions we can make to our stockholders.

As of the date of this Annual Report on Form 10-K, we are the sole general partner of our operating partnership and own, directly or through subsidiaries, approximately 98% of the outstanding OP Units. We may, in connection with our acquisition of properties or otherwise, cause our operating partnership to issue additional OP Units to third parties. Such issuances would reduce our ownership percentage in our operating partnership and affect the amount of distributions made to us by our operating partnership and, therefore, the amount of distributions we can make to our stockholders. Because our stockholders will not directly own any interest in our operating partnership, our stockholders will not have any voting rights with respect to any such issuances or other partnership level activities of our operating partnership.

Conflicts of interest may exist or could arise in the future between the interests of our stockholders and the interests of holders of OP Units, which may impede business decisions that could benefit our stockholders.

Conflicts of interest may exist or could arise in the future as a result of the relationships between us and our affiliates, on the one hand, and our operating partnership or any partner thereof, on the other. Our directors and officers have duties to our company under Maryland law in connection with their management of our company. At the same time, we, as the general partner of our operating partnership, have fiduciary duties and obligations to our operating partnership and its limited partners under Delaware law and the partnership agreement of our operating partnership in connection with the management of our operating partnership. Our fiduciary duties and obligations as the general partner of our operating partnership may come into conflict with the duties of our directors and officers to our company.

The partnership agreement provides that, in the event of a conflict between the interests of our operating partnership or any partner, on the one hand, and the separate interests of our company or our stockholders, on the other hand, we, in our capacity as the general partner of our operating partnership, are under no obligation not to give priority to the separate interests of our company or our stockholders, and that any action or failure to act on our part or on the part of our directors that gives priority to the separate interests of our company or our stockholders that does not result in a violation of the contract rights of the limited partners of our operating partnership under its partnership agreement does not violate the duty of loyalty that we, in our capacity as the general partner of our operating partnership, owe to the operating partnership and its partners.

Additionally, the partnership agreement provides that we will not be liable to our operating partnership or any partner for monetary damages for losses sustained, liabilities incurred or benefits not derived by our operating partnership or any limited partner, except for liability for our intentional harm or gross negligence. Our operating partnership must indemnify us, our directors and officers, officers of our operating partnership and our designees from and against any and all claims that relate to the operations of our operating partnership, unless (1) an act or omission of the person was material to the matter giving rise to the action and either was committed in bad faith or was the result of active and deliberate dishonesty, (2) the person actually received an improper personal benefit in violation or breach of the partnership agreement or (3) in the case of a criminal proceeding, the indemnified person had reasonable cause to believe that the act or omission was unlawful. Our operating partnership must also pay or reimburse the reasonable expenses of any such person upon its receipt of a written affirmation of the person's good faith belief that the standard of conduct necessary for indemnification has been met and a written undertaking to repay any amounts paid or advanced if it is ultimately determined that the person did not meet the standard of conduct for indemnification. Our operating partnership will not indemnify or advance funds to any person with respect to any action initiated by the person seeking indemnification without our approval (except for any proceeding brought to enforce such person's right to indemnification under the partnership agreement) or if the person is found to be liable to our operating partnership on any portion of any claim in the action.

Our rights and the rights of our stockholders to take action against our directors and officers are limited, which could limit our stockholders recourse in the event of actions not in their best interests.

We have entered into indemnification agreements with each of our directors and officers that provide for indemnification to the maximum extent permitted by Maryland law. Maryland law permits us to include in our charter a provision eliminating the liability of our directors and officers and our stockholders for money damages except for liability resulting from:

- actual receipt of an improper benefit or profit in money, property or services; or
- active and deliberate dishonesty that was established by a final judgment and was material to the cause of action.

Our Company's charter contains such a provision which eliminates such liability to the maximum extent permitted by Maryland law.

Our charter authorizes us to obligate ourselves and our bylaws obligate us, to the fullest extent permitted by Maryland law in effect from time to time, to indemnify and, without requiring a preliminary determination of the ultimate entitlement to indemnification, pay or reimburse reasonable expenses in advance of final disposition of a proceeding to:

- any present or former director or officer who is made or threatened to be made a party to or witness in the proceeding by reason of his or her service in that capacity; or

- any individual who, while a director or officer of our company and at our request, serves or has served as a director, officer, trustee, manager, member or partner of another corporation, REIT, limited liability company, partnership, joint venture, trust, employee benefit plan or any other enterprise and who is made or threatened to be made a party to or witness in the proceeding by reason of his or her service in that capacity.

Our charter contains provisions that make removal of our directors difficult, which could make it difficult for our stockholders to effect changes to our management.

Our charter provides that, subject to the rights of holders of any series of preferred stock, a director may be removed only upon the affirmative vote of stockholders entitled to cast at least a majority of the votes entitled to be cast generally in the election of directors. Vacancies on the board of directors may be filled only by a vote of the majority of the remaining directors in office, even if less than a quorum. These requirements make it more difficult to change our management by removing and replacing directors and may prevent a change in control of our company that is in the best interests of our stockholders.

Ownership limitations may restrict change in control or business combination opportunities in which our stockholders might receive a premium for their shares.

To qualify as a REIT under the Code, shares of our stock must be owned by 100 or more persons during at least 335 days of a taxable year of 12 months (other than the first year for which an election to be a REIT has been made) or during a proportionate part of a shorter taxable year. Also, not more than 50% of the value of the outstanding shares of our stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include certain entities) during the last half of a taxable year (other than the first year for which an election to be a REIT has been made). In order for us to remain qualified as a REIT under the Code, the relevant sections of our charter provide that, subject to certain exceptions, no person or entity may own, or be deemed to own, by virtue of the applicable constructive ownership provisions of the Code, more than 7.5% (in value or number of shares, whichever is more restrictive) of the aggregate of our outstanding shares of stock or more than 7.5% (in value or number of shares, whichever is more restrictive) of our outstanding common stock or any class or series of our outstanding preferred stock. These ownership limits and other restrictions could have the effect of discouraging a takeover or other transaction in which holders of our common stock might receive a premium for their shares over the then prevailing market price or which holders might believe to be otherwise in their best interests.

We plan to continue to operate our business so that we are not required to register as an investment company under the Investment Company Act.

We engage primarily in the business of investing in real estate and we have not and do not intend to register as an investment company under the Investment Company Act. If our primary business were to change in a manner that would require us register as an investment company under the Investment Company Act, we would have to comply with substantial regulation under the Investment Company Act which could restrict the manner in which we operate and finance our business and could materially and adversely affect our business operations and results.

Risks Related to Our Securities

The market price and trading volume of our common stock may be volatile.

The market price for our common stock may be volatile. In addition, the trading volume in our common stock may fluctuate, resulting in significant price variations.

Some of the factors that could negatively affect the share price or result in fluctuations in the price or trading volume of our common stock include, among others:

- our actual or projected operating results, financial condition, cash flows and liquidity or changes in business strategy or prospects;
- changes in government policies, regulations or laws;
- the performance of our current properties and additional properties that we acquire;
- our ability to make acquisitions on preferable terms or at all;
- additional equity issuances by us, or share resales by our stockholders, or the perception that such issuances or resales may occur;

[Table of Contents](#)

- actual or anticipated accounting problems;
- publication of research reports about us, the real estate industry or the cannabis industry;
- changes in market valuations of similar companies;
- adverse market reaction to any increased indebtedness we may incur in the future;
- interest rate changes;
- additions to or departures of our senior management team;
- speculation in the press or investment community or negative press in general;
- our failure to meet, or the lowering of, our earnings estimates or those of any securities analysts;
- failure to maintain our qualification as a REIT;
- changes in tax laws;
- the general reputation of REITs and the attractiveness of our equity securities in comparison to other equity securities, including securities issued by other real estate-based companies;
- refusal of securities clearing firms to accept deposits of our securities;
- the realization of any of the other risk factors presented in this Annual Report on Form 10-K;
- actions by institutional stockholders;
- price and volume fluctuations in the stock market generally; and
- market and economic conditions generally, including the current state of the credit and capital markets and the market and economic conditions.

Market factors unrelated to our performance could also negatively impact the market price of our common stock and preferred stock. One of the factors that investors may consider in deciding whether to buy or sell our common stock is our distribution rate as a percentage of our stock price relative to market interest rates. If market interest rates increase, prospective investors may demand a higher distribution rate or seek alternative investments paying higher dividends or interest. As a result, interest rate fluctuations and conditions in capital markets can affect the market value of our common stock.

We may face liquidity risks.

Our common stock trades on the OTCQX® Best Market. No assurance can be given as to (i) the likelihood that an active market for common stock will develop and be sustained, (ii) the liquidity of any such market, (iii) the ability of the stockholders to sell their shares or (iv) the prices that stockholders may obtain for any of their shares. No prediction can be made as to the effect, if any, that future sales of shares, or the availability of shares for future sale, will have on the market price prevailing from time to time. Sales of substantial amounts of our common stock (including shares of our common stock issued upon the exchange of OP Units), or the perception that such sales could occur, may adversely affect prevailing market prices of our common stock.

In addition, see “Risks Related to Clearing Firms Settling Transactions of Companies Engaged in the Cannabis Industry” for risks related to limitations on clearing houses and other market participants settling transactions in our securities.

Common stock and preferred stock eligible for future sale may have material and adverse effects on our share price.

Subject to applicable law, our board of directors, without further stockholder approval, may authorize us to issue additional shares of our common stock or securities convertible into or exchangeable or exercisable for our common stock, including, without limitation, equity-based awards to participants in the NewLake 2021 Equity Incentive Plan, or to raise capital through the issuance of preferred stock (including equity or debt securities convertible into common or preferred stock), options, warrants and other rights, on terms and for consideration as our board of directors in its sole discretion may determine. Any such issuance could result in dilution of the equity of our stockholders. Sales of substantial amounts of shares of our common stock in the public market, or the perception that such sales might occur, could adversely affect the market price of our common stock.

Our charter also authorizes our board of directors, without stockholder approval, to designate and issue one or more classes or series of preferred stock (including equity or debt securities convertible into common or preferred stock) and to set or change the voting, conversion or other rights, preferences, restrictions, limitations as to dividends or other distributions and qualifications or terms or conditions of redemption of each class of shares so issued. If any preferred stock is publicly offered, the terms and conditions of such preferred stock (including any equity or debt securities convertible into preferred stock) will be set forth in a registration statement registering the issuance of such preferred stock or equity or debt securities convertible into preferred stock. Because our board of directors has the power to establish the preferences and rights of each class or series of preferred stock, it may afford the holders of any series or class of preferred stock

[Table of Contents](#)

preferences, powers, and rights senior to the rights of holders of common stock or other preferred stock. If we ever create and issue additional preferred stock or equity or debt securities convertible into preferred stock with a distribution preference over common stock or preferred stock, payment of any distribution preferences of new outstanding preferred stock would reduce the amount of funds available for the payment of distributions on the common stock and junior preferred stock. Further, holders of preferred stock are normally entitled to receive a preference payment if we liquidate, dissolve, or wind up before any payment is made to the common stockholders, likely reducing the amount common stockholders would otherwise receive upon such an occurrence. In addition, under certain circumstances, the issuance of additional preferred stock may delay, prevent, render more difficult or tend to discourage a merger, tender offer, or proxy contest, the assumption of control by a holder of a large block of our securities, or the removal of incumbent management.

Furthermore, we filed a shelf registration statement, which may permit us, from time to time, to offer and sell common stock, preferred stock, warrants and other securities to the extent necessary or advisable to meet our liquidity needs.

Additionally, from time to time we also may issue shares of our common stock or OP Units in connection with property acquisitions. We may grant additional demand or piggyback registration rights in connection with these issuances. Sales of substantial amounts of our common stock or OP Units, or the perception that these sales could occur, may adversely affect the prevailing market price of our common stock or may adversely affect the terms upon which we may be able to obtain additional capital through the sale of equity securities.

We cannot assure you of our ability to make distributions in the future.

U.S. federal income tax law generally requires that a REIT distribute annually at least 90% of its REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gain (which does not equal net income as calculated in accordance with U.S. generally accepted accounting principles ("GAAP")), and that it pay U.S. federal income tax at regular corporate rates to the extent that it annually distributes less than 100% of its taxable income. We may not continue our current level of distributions to stockholders. Our board of directors will determine future distributions based on a number of factors, including cash available for distribution, economic conditions, operating results, our financial condition, especially in relation to our anticipated future capital needs, then current expansion plans, the distribution requirements for REITs, and other factors our board deems relevant. Furthermore, our Loan and Security Agreement contains prohibitions against our payment of any dividend on common or preferred shares, including at any time when there is an event of default under such credit covenants. There are exceptions, however, for payment of dividends necessary to maintain our REIT status as long as certain conditions are met. In addition, we may borrow money, sell assets or use offering proceeds to make distributions to our stockholders, if we are unable to make distributions from cash flows from operations.

Our charter does not restrict our ability to pay distributions from any source and, as a result, the amount of distributions paid at any time may not reflect the performance of our properties or as cash flow from operations.

Our organizational documents do not restrict our ability to make distributions from any source. To the extent that our cash available for distribution is insufficient to cover our distributions, we expect to use our cash on hand, the proceeds from the issuance of securities in the future, the proceeds from borrowings or other sources to pay distributions, some of which would constitute a return of capital to our stockholders. If we fund distributions from borrowings, sales of properties, future issuances of securities or cash on hand, we will have fewer funds available for the acquisition of additional properties resulting in potentially fewer investments, less diversification of our portfolio and a reduced overall return to our stockholders. In addition, the value of our shares of common stock and preferred stock may be diluted because funds that would otherwise be available to make investments would be diverted to fund distributions.

The market price of our common stock could be materially and adversely affected by our level of cash distributions.

The market value of our common stock is based upon the market's perception of our growth potential and our current and potential future cash distributions, whether from operations, sales or re-financings, as well as based upon the real estate market value of our underlying assets. If investors primarily focus on growth and cash distributions, our stock may trade at prices that are higher or lower than our net asset value per share. To the extent we retain operating cash flow for investment purposes, working capital reserves or other purposes, these retained funds, while increasing the value of our underlying assets, may not correspondingly increase the market price of our stock. Our failure to meet the market's expectations with regard to future earnings and cash distributions likely would materially and adversely affect the market price of our common stock.

If securities analysts do not publish research or reports about our industry or if they downgrade our common stock or the cannabis real estate sector, the price of our common stock could decline.

The trading market for our common stock will rely in part upon the research and reports that industry or financial analysts publish about us or our industry. We have no control over these analysts. Furthermore, if one or more of the analysts who do cover us downgrades our shares or our industry, or the stock of any of our competitors, the price of our common stock could decline. If one or more of these analysts ceases coverage of our company, we could lose attention in the market which in turn could cause the price of our common stock to decline.

Risks Related to Our Taxation as a REIT

Our failure to remain qualified as a REIT would subject us to U.S. federal income tax and applicable state and local taxes, which would reduce the amount of cash available for distribution to our stockholders and have significant adverse consequences on the market price of our common stock.

We elected to be taxed as a REIT under Sections 856 through 860 of the Code commencing with our taxable year ended December 31, 2019. We believe that we have been organized and operated in such a manner as to remain qualified for taxation as a REIT under the Code for such taxable year and all subsequent taxable years to date, and intend to continue to operate in such a manner in the future. We have not requested and do not intend to request a ruling from the Internal Revenue Service (the “Service”) that we remain qualified as a REIT, and the statements in this report are not binding on the Service or any court. Qualification as a REIT involves the application of highly technical and complex Code provisions and regulations promulgated by the U.S. Treasury Department thereunder (“Treasury Regulations”) for which there are limited judicial and administrative interpretations. Accordingly, we cannot provide assurance that we will remain qualified as a REIT.

To remain qualified as a REIT, we must meet, on an ongoing basis, various tests regarding the nature and diversification of our assets and our income, the ownership of our outstanding stock, and the amount of our distributions to stockholders. Our ability to satisfy these asset tests depends upon the characterization and fair market values of our assets, some of which are not susceptible to a precise determination, and for which we will not obtain independent appraisals. Our compliance with the REIT income and quarterly asset requirements also depends upon our ability to manage successfully the composition of our income and assets on an ongoing basis. Moreover, new legislation, court decisions or administrative guidance, in each case possibly with retroactive effect, may make it more difficult or impossible for us to remain qualified as a REIT. Thus, while we intend to operate in a manner to remain qualified as a REIT, in view of the highly complex nature of the rules governing REITs, the ongoing importance of factual determinations, and the possibility of future changes in our circumstances, we cannot provide assurance that we will so qualify for any particular year. These considerations also might restrict the types of income we can realize, or assets that we can acquire in the future.

If we fail to remain qualified as a REIT in any taxable year, and we do not qualify for certain statutory relief provisions, we would be required to pay U.S. federal income tax on our taxable income at regular corporate rates (and possibly increased state and local taxes). We will not be able to deduct distributions to our stockholders in any year in which we fail to qualify, nor will we be required to make distributions to our stockholders. In such a case, we might need to borrow money, sell assets, or reduce or even cease making distributions in order to pay our taxes. Our payment of income tax would reduce significantly the amount of cash available for distribution to our stockholders. If we fail to remain qualified as a REIT, all distributions to stockholders, to the extent of current and accumulated earnings and profits, will be taxable to the stockholders as dividend income (which may be subject to tax at preferential rates) and corporate distributions may be eligible for the dividends received deduction if they satisfy the relevant provisions of the Code. Furthermore, if we fail to remain qualified as a REIT, we no longer would be required to distribute substantially all of our net taxable income to our stockholders. In addition, unless we were eligible for certain statutory relief provisions, we could not re-elect to qualify as a REIT until the fifth calendar year following the year in which we failed to qualify. We might not be entitled to the statutory relief described in this paragraph in all circumstances.

The REIT distribution requirements could adversely affect our ability to execute our business plan, require us to borrow funds during unfavorable market conditions or subject us to tax, which would reduce the cash available for distribution to our stockholders.

To remain qualified as a REIT, we must distribute to our stockholders, on an annual basis, at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gain. In addition, we will be subject to U.S. federal income tax at regular corporate rates to the extent that we distribute less than 100% of our net

taxable income (including net capital gain) and will be subject to a 4% nondeductible excise tax on the amount by which our distributions in any calendar year are less than a minimum amount specified under U.S. federal income tax laws. We intend to distribute our net income to our stockholders in a manner intended to satisfy the REIT 90% distribution requirement and to avoid U.S. federal income tax and the 4% nondeductible excise tax. However, we can provide no assurances that we will have sufficient cash or other liquid assets to meet these requirements. Difficulties in meeting the distribution requirements might arise due to competing demands for available funds or timing differences between tax reporting and cash receipts. In addition, if the Service were to disallow certain of our deductions, such as employee salaries, depreciation or interest expense, by alleging that we, through our rental agreements with our state-licensed cannabis tenants, are primarily or vicariously liable for “trafficking” a Schedule 1 substance (cannabis) under Section 280E of the Code or otherwise, we would be unable to meet the distribution requirements and would fail to remain qualified as a REIT. Likewise, if any governmental entity were to impose fines on us for our business involvement in state-licensed cannabis, such fines would not be deductible and the inability to deduct such fines could also cause us to be unable to satisfy the distribution requirement.

We may also generate less cash flow than taxable income in a particular year. In such event, we may be required to use cash reserves, incur debt or liquidate assets at rates or times that we regard as unfavorable or, to the extent possible, make a taxable distribution of our stock in order to satisfy the REIT 90% distribution requirement and to avoid U.S. federal income tax and the 4% nondeductible excise tax in that year. Under certain circumstances, we may be able to rectify a failure to meet the distribution requirement for a year by paying “deficiency dividends” to stockholders in a later year, which may be included in our deduction for dividends paid for the earlier year. Thus, we may be able to avoid being taxed on amounts distributed as deficiency dividends; however, we will be required to pay penalties and interest based upon the amount of any deduction taken for deficiency dividends. If we do not have sufficient cash to distribute, we may incur U.S. federal income tax, U.S. federal excise tax and/or our REIT status may be jeopardized.

If we are deemed to be subject to Section 280E of the Code because of the business activities of our tenants, the resulting disallowance of tax deductions could cause us to incur U.S. federal income tax and jeopardize our REIT status.

Section 280E of the Code provides that, with respect to any taxpayer, no deduction or credit is allowed for expenses incurred during a taxable year “in carrying on any trade or business if such trade or business (or the activities which comprise such trade or business) consists of trafficking in controlled substances (within the meaning of Schedule I and II of the Controlled Substance Act) which is prohibited by federal law or the law of any State in which such trade or business is conducted.” Because cannabis is a Schedule I controlled substance under the CSA, Section 280E of the Code by its terms applies to the purchase and sale of medical-use and adult-use cannabis products. Although we will not be engaged in the purchase, sale, growth, cultivation, harvesting, or processing of medical-use and adult-use cannabis products, we will lease our properties to tenants who will engage in such activities, and therefore our tenants likely will be subject to Section 280E of the Code. If the Service were to take the position that, through our rental agreements with our state-licensed cannabis tenants, we are primarily or vicariously liable under federal law for “trafficking” a Schedule 1 substance (cannabis) under Section 280E of the Code or for any other violations of the CSA, the Service may seek to apply the provisions of Section 280E of the Code to our company and disallow certain tax deductions, including for employee salaries, depreciation or interest expense. If such tax deductions are disallowed, we would be unable to meet the distribution requirements applicable to REITs under the Code, which could cause us to incur U.S. federal income tax and fail to remain qualified as a REIT. Because we are not engaged in the purchase or sale of a controlled substance, we do not believe that we will be subject to the disallowance provisions of Section 280E of the Code, and neither we nor our tax advisors are aware of any tax court cases or guidance from the Service in which a taxpayer not engaged in the purchase or sale of a controlled substance was disallowed deductions under Section 280E of the Code. However, there is no assurance that the Service will not take such a position either currently or in the future.

We could face adverse tax consequences if the Target failed to qualify as a REIT prior to the Merger.

In connection with the closing of the Merger, we received an opinion of counsel to the effect that the Target qualified as a REIT for U.S. federal income tax purposes through the time of the Merger. However, we did not request a ruling from the Service that the Target qualified as a REIT. Notwithstanding the opinion of counsel, if the Service successfully challenged the Target’s REIT status prior to the Merger, we could face adverse tax consequences, including:

- succeeding to the Target’s liability for U.S. federal income taxes at regular corporate rates for the periods in which the Target failed to qualify as a REIT (without regard to the deduction for dividends paid for such periods);

[Table of Contents](#)

- succeeding to any built-in gain on the Target's assets, for which we could be liable for U.S. federal income tax at regular corporate rates, if we were to recognize such gain in the five-year period following the merger; and
- succeeding to the Target's earnings and profits accumulated during the periods in which the Target failed to qualify as a REIT, which we would be required to distribute to our stockholders in order to satisfy the REIT distribution requirements and avoid the imposition of any excise tax.

As a result, we would have less cash available for operations and distributions to our stockholders, which could require us to raise capital on unfavorable terms or pay deficiency dividends.

Complying with REIT requirements may cause us to forego otherwise attractive business opportunities or liquidate otherwise attractive investments.

To remain qualified as a REIT, we must ensure that we meet the REIT gross income tests annually. In addition, we must ensure that, at the end of each calendar quarter, at least 75% of the value of our total assets consists of cash, cash items, government securities and qualified REIT real estate assets, including certain mortgage loans, certain kinds of mortgage-backed securities and certain securities issued by other REITs. The remainder of our investment in securities (other than government securities, securities of corporations that are treated as TRSs, and qualified REIT real estate assets) generally cannot include more than 10% of the outstanding voting securities of any one issuer or more than 10% of the total value of the outstanding securities of any one issuer.

In addition, in general, no more than 5% of the value of our assets (other than government securities and qualified real estate assets) can consist of the securities of any one issuer, no more than 20% of the value of our total securities can be represented by securities of one or more TRSs, and the aggregate value of debt instruments issued by public REITs held by us that are not otherwise secured by real property may not exceed 25% of the value of our total assets. If we fail to comply with these asset requirements at the end of any calendar quarter, we generally must correct the failure within 30 days after the end of the calendar quarter or qualify for certain statutory relief provisions to avoid losing our REIT qualification and suffering adverse tax consequences.

To meet these tests, we may be required to take or forego taking actions that we would otherwise consider advantageous. For instance, we may be required to forego investments that we otherwise would make. Furthermore, we may be required to liquidate from our portfolio otherwise attractive investments. In addition, we may be required to make distributions to stockholders at disadvantageous times or when we do not have funds readily available for distribution. These actions could have the effect of reducing our income and amounts available for distribution to our stockholders. Thus, compliance with the REIT requirements may hinder our investment performance.

In certain circumstances, even if we qualify as a REIT, we and our subsidiaries may be subject to certain U.S. federal, state and other taxes, which would reduce our cash available for distribution to our stockholders.

Even if we qualify as a REIT, we may be subject to some U.S. federal, state and local taxes on our income or property and, in certain cases, a 100% penalty tax, in the event we sell property as a dealer. There is a safe harbor from this penalty tax for property that is held for certain time periods, but there can be no assurance that property sales have qualified or will qualify for this safe harbor. If a sale does not qualify for the safe harbor, then the sale is evaluated based on all of the facts and circumstances. In addition, if we were to sell property that the Target owned as a C corporation prior to January 1, 2025, then we would be required to pay corporate income tax on the built-in gain on such property as of January 1, 2020, which built-in gain is estimated to be less than \$35,000. Any U.S. federal, state or other taxes we pay will reduce our cash available for distribution to stockholders.

The ability of our board of directors to revoke our REIT election without stockholder approval may cause adverse consequences to our stockholders.

Our charter provides that our board of directors may revoke or otherwise terminate our REIT election, without the approval of our stockholders, if our board of directors determines that it is no longer in our best interests to attempt to qualify, or to continue to qualify as a REIT. If we cease to qualify as a REIT, we would become subject to U.S. federal income tax on our net taxable income and we generally would no longer be required to distribute any of our net taxable income to our stockholders, which may have adverse consequences on our total return to our stockholders.

Our transactions with our TRS will cause us to be subject to a 100% penalty tax on certain income or deductions if those transactions are not conducted on arm's-length terms.

Overall, no more than 20% of the value of a REIT's assets may consist of stock or securities of one or more TRSs. In addition, the Code limits the deductibility of interest paid or accrued by a TRS to its parent REIT to assure that the TRS is subject to an appropriate level of corporate taxation and, in certain circumstances, other limitations on deductibility may apply. The Code also imposes a 100% excise tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm's-length basis. Our TRS will be subject to applicable federal, foreign, state and local income tax on its taxable income, and its after-tax net income will be available for distribution to us but is not required to be distributed to us. We believe that the aggregate value of the stock and securities of our TRS will be less than 20% of the value of our total assets (including our TRS stock and securities). Furthermore, we will monitor the value of our respective investments in our TRS for the purpose of ensuring compliance with TRS ownership limitations and will structure our transactions with our TRS on terms that we believe are arm's length to avoid incurring the 100% excise tax described above. There can be no assurance, however, that we will be able to comply with the 20% limitation discussed above or to avoid application of the 100% excise tax.

Dividends payable by REITs do not qualify for the reduced tax rates on dividend income from regular corporations, which could adversely affect the value of our common stock.

Qualified dividend income payable to U.S. investors that are individuals, trusts, and estates is subject to the reduced maximum tax rate applicable to long-term capital gains. Dividends (other than capital gain dividends) payable by REITs, however, generally are not eligible for the reduced rates. Although the reduced U.S. federal income tax rate applicable to dividend income from regular corporate dividends does not adversely affect the taxation of REITs or dividends paid by REITs, the more favorable rates applicable to regular corporate dividends could cause investors who are individuals, trusts and estates to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay dividends, which could adversely affect the value of the shares of our common stock.

Non-corporate stockholders, including individuals, generally may deduct 20% of "qualified REIT dividends" (generally, dividends received by a REIT shareholder that are not designated as capital gain dividends or qualified dividend income), for taxable years beginning before January 1, 2026, subject to certain limitations. If we fail to remain qualified as a REIT, such stockholders may not claim this deduction with respect to dividends paid by us.

Complying with REIT requirements may limit our ability to hedge our liabilities effectively and may cause us to incur tax liabilities.

The REIT provisions of the Code may limit our ability to hedge our liabilities. Under these provisions, any income that we generate from transactions intended to hedge our interest rate, inflation and/or currency risks will be excluded from gross income for purposes of the 75% and 95% gross income tests if the instrument hedges (1) interest rate risk on liabilities incurred to carry or acquire real estate, (2) risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the 75% or 95% gross income tests, or (3) the instrument was entered into to "offset" certain instruments described in clauses (1) or (2) of this sentence and certain other requirements are satisfied and such instrument is properly identified under applicable Treasury Department regulations. Income from hedging transactions that do not meet these requirements is likely to constitute non-qualifying income for purposes of both of the gross income tests. As a result of these rules, we may need to limit our use of advantageous hedging techniques or implement those hedges through a TRS. This could increase the cost of our hedging activities because our TRSs would be subject to tax on gains or expose us to greater risks associated with changes in interest rates than we would otherwise want to bear. In addition, losses in a TRS generally will not provide any tax benefit, except for being carried forward against future taxable income of such TRS.

Re-characterization of sale-leaseback transactions may cause us to lose our REIT status.

We purchase many properties and lease them back to the sellers of such properties. While we will use our best efforts to structure any such sale-leaseback transaction so that the lease will be characterized as a "true lease," thereby allowing us to be treated as the owner of the property for federal income tax purposes, the Service could challenge such characterization. In the event that any sale-leaseback transaction is challenged and re-characterized as a financing transaction or loan for federal income tax purposes, deductions for depreciation and cost recovery relating to such property would be disallowed. If a sale-leaseback transaction were so re-characterized, we might fail to satisfy the REIT qualification "asset tests" or the "income tests" and, consequently, lose our REIT status effective with the year of re-characterization. Alternatively, the

[Table of Contents](#)

amount of our REIT taxable income could be recalculated which might also cause us to fail to meet the distribution requirement for a taxable year.

Non-U.S. stockholders will generally be subject to withholding tax with respect to our dividends.

Non-U.S. stockholders generally will be subject to U.S. federal withholding tax on ordinary dividends received from us at a 30% rate, subject to reduction under an applicable treaty or a statutory exemption under the Code.

Legislative, regulatory or administrative changes could adversely affect us or our stockholders.

At any time, the U.S. federal income tax laws or Treasury Regulations governing REITs or the administrative interpretations of those laws or regulations may be changed, possibly with retroactive effect, and may adversely affect us and our stockholders. We cannot predict if or when any new U.S. federal income tax law, regulation or administrative interpretation, or any amendment to any existing U.S. federal income tax law, regulation or administrative interpretation, will be adopted, promulgated or become effective or whether any such law, regulation or interpretation may take effect retroactively.

We cannot predict whether any of these proposed changes will become law. We cannot predict the long-term effect of any recent or future tax law changes on REITs and their stockholders. Prospective investors are urged to consult with their tax advisors regarding the effect of potential changes to the federal tax laws on an investment in our stock.

Risks Related to General and Other Factors

The occurrence of cyber incidents or cyberattacks could disrupt our operations, result in the loss of confidential information and/or damage our business relationships and reputation.

The risk of a security breach or disruption, particularly through cyberattack or cyber intrusion, including by computer hackers, foreign governments and cyber terrorists, has generally increased as the number, intensity and sophistication of attempted attacks and intrusions from around the world have increased. We rely on technology to run our business, and as such we are subject to risk from cyber incidents, including cyberattacks attempting to gain unauthorized access to our systems to disrupt operations, corrupt data or steal confidential information, and other electronic security breaches. While we have implemented measures to help mitigate these threats, such measures cannot guarantee that we will be successful in preventing a cyber incident. The occurrence of a cyber incident or cyberattack could disrupt our operations, compromise the confidential information of our employees or tenants, damage our business relationships and reputation and/or have an adverse impact on our business (including our financial performance and condition). We are not aware of any cyber incidents that we believe to be material or that could have a material adverse effect on our business, financial condition and results of operations.

We cannot predict every event and circumstance that may affect our business, and therefore, the risks and uncertainties discussed herein may not be the only ones you should consider.

We are aware of a limited number of other publicly-traded REITs that focus on the acquisition and ownership of cannabis facilities. Therefore, we may encounter risks of which we are not aware at this time, which could have a material adverse impact on our business (including our financial performance and condition).

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 1C. CYBERSECURITY

Risk Management and Strategy

We employ a risk management strategy for the assessment, identification and management of material risks stemming from cybersecurity threats. Our methodologies involve a systematic evaluation of potential threats, vulnerabilities, and their potential impacts on our organization's operations, data, and systems. Our cybersecurity risk management program includes:

[Table of Contents](#)

- Risk assessments designed to help identify material cybersecurity risks to our critical systems, and our IT environment;
- The use of external service providers to assess, test or otherwise assist with aspects of our security controls;
- Cybersecurity awareness training of our employees and senior management through the use of third-party providers for regular mandatory trainings;
- A cybersecurity incident response plan that includes procedures for responding to cybersecurity incidents; and
- We design and assess our program using the National Institute Cybersecurity Framework (“NIST CSF”) as a set of guiding principles.

Our third-party service providers are primarily responsible for the security of their own information technology environments and in certain instances we rely significantly on third-party service providers to supply and store our sensitive data in a secure manner. All of these third parties face potential risks relating to cybersecurity similar to ours which could disrupt their businesses and therefore adversely impact us. While we provide guidance and specific requirements in some cases, we do not directly control any of these parties' information technology security operations, or the amount of investment they place in guarding against cybersecurity threats. Accordingly, we are subject to any flaw or breaches to their information technology systems, or those which they operate for us, which could have a material adverse effect on our financial condition or results of operations.

We face certain ongoing risks from cybersecurity threats that, if realized, are reasonably likely to materially affect us, including our operations, business strategy, results of operations, or financial condition. See “Risk Factors – The occurrence of cyber incidents or cyberattacks could disrupt our operations, result in the loss of confidential information and/or damage our business relationships and reputation.

Governance

Our board of directors considers cybersecurity risk as part of its risk oversight function and has delegated to the Audit Committee (the “Committee”) oversight of cybersecurity and other information technology risks. The Committee oversees management’s implementation of our cybersecurity risk management program. The Committee receives periodic reports from management on our potential cybersecurity risks and threats and receives presentations on cybersecurity topics. In addition, management works collaboratively with our third-party provider to test our systems security processes and prevent, monitor, detect, mediate and remediate cybersecurity threats and incidents, and will report such threats and incidents to the Audit Committee when appropriate. The Committee reports to the full Board of Directors regarding its activities, including those related to cybersecurity.

As of the date of this Annual Report on Form 10-K, we have not identified of any risks from cybersecurity threats, including as a result of any previous cybersecurity incidents, that have materially affected or are reasonably likely to materially affect us, including our operations, business strategy, results of operations, or financial condition.

ITEM 2. PROPERTIES

Our Properties

We seek to acquire specialized real estate assets used for cultivation and processing of cannabis as well as retail dispensaries that are strategic profit centers for our tenants and are well positioned for the regulatory evolution of the industry. These licensed facilities are critical components of the cannabis industry, particularly in limited-license jurisdictions. As of December 31, 2023, we owned 31 properties comprised of 17 dispensaries and 14 cultivation facilities that are 100% leased to state-licensed cannabis operators, with a weighted average remaining lease term of 14.3 years. Based on invested capital, as of December 31, 2023, our portfolio is comprised of approximately 90.8% cultivation facilities and 9.2% dispensaries.

As of December 31, 2023, we have aggregate unfunded commitments to invest \$14.4 million for the development and improvement of our existing cultivation facilities in Arizona, Missouri and Pennsylvania. We define these tenant improvement commitments as a commitment pursuant to our lease with the tenant to fund alterations, additions or improvements to the premises. Our leases are generally structured to disburse capital over specified periods of time. The leases also generally contain certain provisions that require tenants to pay rent on the full amount of capital under each lease, whether or not disbursed.

Table of Contents

Existing Portfolio. The table below sets forth our property portfolio as of December 31, 2023 (in thousands, except square feet):

Property Type	State	Tenant ⁽¹⁾	Rentable Square Feet ⁽²⁾	Investment in Real Estate ⁽³⁾	Real Estate Construction in Progress	Total Real Estate	In-Place Lease Intangible Assets ⁽⁴⁾	Total Investment

Total			1,627,781	\$ 388,150	\$ 24,158	\$ 412,308	\$ 25,321	\$ 437,629

(1) Lease is with a subsidiary of this entity, for which this entity or an affiliate is a guarantor.

(2) Includes estimated rentable square feet at completion of construction.

(3) Includes the purchase price (and in some cases, transaction costs that have been capitalized into the purchase price) and tenant improvement commitments funded and placed in service, if any, as of December 31, 2023. Excludes tenant improvement commitments not funded as of December 31, 2023.

(4) Represents gross In-Place Intangibles at acquisition. Does not include accumulated amortization.

(5) Includes approximately \$40.0 million in cash and 88,200 OP Units issued in connection with the purchase of the property.

(6) GL Partners, Inc. (dba Greenlight), acquired the tenant and was added as a guarantor. Curaleaf remains as an additional guarantor subject to certain conditions in the lease agreement.

[Table of Contents](#)

The following table sets forth a summary of the lease expirations for leases in place as of December 31, 2023 for each of the ten full calendar years beginning January 1, 2024. The information set forth in the table assumes that tenants exercise no renewal options (square footage and annualized base rent in thousands).

Year of Lease Expiration	Number of Leases Expiring	Square Footage of Expiring	% of Portfolio Net Rentable Square Feet	Annualized Base Rent ⁽¹⁾	% of Portfolio Annualized Base Rent	Annualized Base Rent per Leased Square Foot ⁽²⁾
2024	—	—	— %	\$ —	— %	\$ —
2025	—	—	— %	—	— %	—
2026	—	—	— %	—	— %	—
2027	—	—	— %	—	— %	—
2028	—	—	— %	—	— %	—
2029	3	11	0.7 %	856	1.8 %	74.47
2030	—	—	— %	—	— %	—
2031	2	15	0.9 %	400	0.9 %	27.38
2032	8	44	2.7 %	1,687	3.5 %	38.69
2033	2	10	0.6 %	571	1.2 %	59.29
Thereafter	16	1,548	95.1 %	44,274	92.7 %	28.59
Total/Weighted Average	31	1,628	100.0 %	\$ 47,788	100.0 %	\$ 29.36

(1) Annualized base rent is calculated by multiplying (i) rental payments (defined as cash rents without regard to rental abatements or reimbursables) for the month ended December 31, 2023, by (ii) 12.

(2) Annualized base rent per leased square foot is calculated by dividing (i) annualized base rent (without regard to rental abatements or reimbursables) by (ii) net rentable square feet. Amounts may not recalculate due to rounding.

We target companies that have successfully navigated complex state regulation and fulfilled rigorous state-licensing requirements. We believe we have been diligent in partnering with a diverse tenant base of experienced operators in limited licensed jurisdictions that have strong management teams. Our tenants have generally demonstrated access to capital, which is critical to continuing to execute on their respective business plans.

[Table of Contents](#)

As of December 31, 2023, all of our revenues were derived from 13 tenants. The following table sets forth the tenants in our property portfolio as of December 31, 2023 (dollars in thousands). All of our leases include a parent or other affiliate guarantee.

Tenant⁽¹⁾	Total Investment⁽²⁾	Number of Leases	Percentage of Annualized Rental Income⁽³⁾
Curaleaf	\$ 98,477	10	23.8 %
Cresco	50,732	1	13.6 %
Trulieve	56,601	1	11.6 %
Revolutionary Clinics	42,860	1	6.0 %
Columbia Care	41,373	5	8.6 %
Calypso	32,013	1	7.5 %
Acreage	20,880	3	6.9 %
Ayr Wellness	28,107	2	5.9 %
Organic Remedies	21,101	1	5.1 %
Mint	17,222	1	4.9 %
Bloom Medicinals	20,190	1	4.4 %
PharmaCann	5,595	3	1.2 %
Greenlight ⁽⁴⁾	2,478	1	0.5 %
Total	\$ 437,629	31	100.0 %

(1) Lease may be with a subsidiary of this entity, for which this entity or an affiliate is a guarantor.

(2) Includes the purchase price (and in some cases, transaction costs that have been capitalized into the purchase price), gross In-Place Lease Intangible Assets and tenant improvement commitments funded, if any, as of December 31, 2023. Excludes tenant improvement commitments not funded as of December 31, 2023.

(3) Annualized Rental Income represents the annualized monthly base rent of executed leases as of December 31, 2023.

(4) GL Partners, Inc. (dba Greenlight), acquired the tenant and was added as a guarantor. Curaleaf remains as an additional guarantor subject to certain conditions in the lease agreement.

Curaleaf

We own nine dispensaries and one cultivation facility that are leased to subsidiaries of Curaleaf, which is, or an affiliate is, the corporate guarantor. Curaleaf is publicly-traded on the CSE and OTC markets under the symbols CURA and CURLF, respectively. Curaleaf's filings, including their financial information, are electronically available at www.sec.gov and from the Canadian System for Electronic Document Analysis and Retrieval (SEDAR) at www.sedar.com, the Canadian equivalent of the SEC electronic document gathering and retrieval system.

ITEM 3. LEGAL PROCEEDINGS

As of December 31, 2023, we were not a party to any proceedings. From time to time, we may in the future be a party to various claims and routine litigation arising in the ordinary course of business.

ITEM 4. MINE SAFETY

Not Applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information

Our common stock is listed on the OTCQX® Best Market operated by the OTC Markets Group, Inc., under the symbol "NLCP".

Dividend Information

In accordance with the requirements for maintaining REIT status, we intend to distribute to stockholders aggregate dividends equaling at least 90% of our REIT taxable income (determined without regard to the deduction of dividends paid and by excluding any net capital gain) for each taxable year and will endeavor to distribute at least 100% of our REIT taxable income so as not to be subject to federal income tax. Distributions of economic profits could be classified as return of capital due to differences between book and tax accounting rules. We may make additional returns of capital when the potential risk-adjusted returns from new investments fail to exceed our cost of capital. Subject to the limitations of applicable securities and state corporation laws, we can return capital by making purchases of our own capital stock or through payment of dividends.

Shareholder Information

As of December 31, 2023, there were approximately 250 holders of record of our common stock. This figure does not represent the actual number of beneficial owners of our common stock because shares of our common stock are frequently held in "street name" by securities dealers and others for the benefit of beneficial owners who may vote the shares.

Sales of Unregistered Securities

None.

Use of Proceeds from Sales of Registered Securities

None.

Purchase of Equity Securities by the Issuer

On November 7, 2022, the board of directors of the Company authorized a stock repurchase program of up to \$10.0 million of its common stock through December 31, 2023. On September 15, 2023, the board of directors authorized an amendment to the stock repurchase program for the repurchase of up to an additional \$10.0 million of outstanding common stock and extended the program through December 31, 2024. Purchases made pursuant to the stock repurchase program will be made in the open market, in privately negotiated transactions, or pursuant to any trading plan that may be adopted in accordance with Rule 10b-18 of the Securities and Exchange Act of 1934, as amended. The authorization of the stock repurchase program does not obligate the Company to acquire any particular amount of common stock. The timing, manner, price and amount of any repurchases will be determined by the Company in its discretion and will be subject to economic and market conditions, stock price, applicable legal requirements and other factors. The stock repurchase program may be suspended or discontinued by us at any time and without prior notice.

As of December 31, 2023, pursuant to the stock repurchase program, the Company acquired 908,394 shares of common stock with an average price, including commissions, of \$13.00, totaling approximately \$11.8 million. The remaining availability under the stock repurchase program as of December 31, 2023 was approximately \$8.2 million.

[Table of Contents](#)

The following is a summary of common shares repurchased:

Period	Total Number Of Common Shares Purchased ⁽¹⁾	Average Price Paid Per Common Share ⁽²⁾	Total Number Of Common Shares Purchased As Part Of Publicly Announced Plans Or Programs ⁽¹⁾	Approximate Dollar Value Of Common Shares That May Yet Be Purchased Under the Plan Or Programs
October 1, 2023 - October 31, 2023	—	—	—	\$ 10,746,577
November 1, 2023 - November 30, 2023	—	—	—	\$ 10,746,577
December 1, 2023 - December 31, 2023	197,229 ⁽³⁾	\$ 13.10	197,229 ⁽³⁾	\$ 8,193,910
Total for the three months ended December 31, 2023	197,229	\$ 13.10	197,229	

(1) Total shares purchased includes shares of common stock owned by certain of our employees which have been surrendered by them to satisfy their tax and other compensation related withholdings associated with the vesting of restricted stock units issued under the 2021 Equity Incentive Plan.

(2) Average price per common share includes commissions paid in connection with the stock repurchased under the stock repurchase program. This price is not adjusted for the price of surrendered shares.

(3) Includes 2,666 shares of common stock surrendered by employees to satisfy taxes and other compensation related withholdings associated with the vesting of restricted stock units issued under the 2021 Equity Incentive Plan.

Securities Authorized for Issuance Under Equity Compensation Plan

For information about our equity compensation plans and other related stockholder matters see Item 12 of Part III of this Annual Report on Form 10-K.

ITEM 6. RESERVED.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our audited consolidated financial statements and related notes appearing elsewhere in this Annual Report on Form 10-K.

This discussion, particularly information with respect to our future results of operations or financial condition, business strategy and plans, and objectives of management for future operations, includes forward-looking statements that involve risks and uncertainties as described under the heading "Cautionary Statement Regarding Forward-Looking Statements" in this Annual Report on Form 10-K. You should review the disclosure under the heading "Risk Factors" in this Annual Report on Form 10-K for a discussion of important factors that could cause our actual results to differ materially from those anticipated in these forward-looking statements.

Overview

NewLake Capital Partners, Inc., (the "Company," "we," "our," "us,") is an internally managed REIT and a leading provider of real estate capital to state-licensed cannabis operators primarily through sale-leaseback transactions, third-party purchases and funding for build-to-suit projects. Our properties are leased to single tenants on a long-term, triple-net basis, which obligates the tenant for the ongoing expenses of the leased property, in addition to its rent obligations.

We were incorporated in Maryland on April 19, 2019. We conduct our business through a traditional umbrella partnership REIT structure, in which properties are owned by an operating partnership, directly or through subsidiaries. We are the sole general partner of our operating partnership and currently own approximately 98% of the OP Units. We have elected to be taxed as a REIT for U.S. federal income tax purposes beginning with our short taxable year ended December 31, 2019 and intend to operate our business so as to continue to qualify as a REIT.

As of December 31, 2023, we owned a geographically diversified portfolio consisting of 31 properties across 12 states with 13 tenants, comprised of 17 dispensaries and 14 cultivation facilities.

Emerging Growth Company

We have elected to be an emerging growth company, as defined in the JOBS Act. An emerging growth company may take advantage of specified reduced reporting requirements and is relieved of certain other significant requirements that are otherwise generally applicable to public companies. As an emerging growth company, among other things:

- We are exempt from the requirement to obtain an attestation and report from our auditors on the assessment of our internal control over financial reporting pursuant to the Sarbanes-Oxley Act;
- We are permitted to provide less extensive disclosure about our executive compensation arrangements; and
- We are not required to give our stockholders non-binding advisory votes on executive compensation or golden parachute arrangements.

We have elected to use an extended transition period for complying with new or revised accounting standards.

We may take advantage of the other provisions for up to five years or such earlier time that we are no longer an emerging growth company. We will cease to be an emerging growth company upon the earliest to occur of: (i) the last day of the first fiscal year in which our annual gross revenues exceed \$1.2 billion (subject to adjustment for inflation), (ii) the date that we become a “large accelerated filer” as defined in Rule 12b-2 under the Exchange Act, which would occur if the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the last business day of our most recently completed second fiscal quarter, (iii) the date on which we have issued more than \$1 billion in non-convertible debt during the preceding three-year period or (iv) the last day of the fiscal year following the fifth anniversary of our initial public offering.

Factors Impacting Our Operating Results

Our results of operations are affected by a number of factors and depend on the rental income we receive from the properties that we own, interest income we receive from the loans we originate, the timing of lease expirations, general market conditions, the regulatory environment in the cannabis industry, and the competitive environment for real estate assets that support the cannabis industry.

Rental Income

We generate rental income from our real estate properties that we own and from real estate properties that we expect to acquire in the future. The amount of rental income depends upon a number of factors, including:

- Our ability to enter into new leases at market value rents inclusive of annual rent increases; and
- Rent collection, which primarily relates to each of our current and future tenant’s or guarantor’s financial condition and ability to make rent payments to us on time.

For the year ended December 31, 2023, all of our rental income was derived from triple-net leases to 13 tenants. Our leases include a parent or other affiliate guarantee and obligate the tenant for all the ongoing expenses of a property, including real estate taxes, insurance, maintenance and utilities. Our rental income is, therefore, dependent on our tenants (and related guarantors) ability to meet their respective obligations to us. Our tenants operate in the cannabis industry. Changes in current state or local laws in the cannabis industry may impair our ability to renew or re-lease properties and the ability of our tenants to fulfill their lease obligations and could materially and adversely affect our ability to maintain or increase rental rates for our properties. Further, because the regulated cannabis industry is a relatively new space, some of our existing tenants have limited operating histories and may be more susceptible to payment and other lease defaults. Thus, our operating results will be significantly impacted by the ability of our tenants to achieve and sustain positive financial results.

Financial Performance and Condition of Our Tenants

We have 31 properties, leased to 13 tenants. All of our tenants are performing under their lease agreements as of December 31, 2023.

[Table of Contents](#)

Revolutionary Clinics

During the year ended December 31, 2023, we had one tenant, Revolutionary Clinics, Inc., (“Revolutionary Clinics”), who did not pay contractual rent commencing on January 1, 2023 on our cultivation facility located in Massachusetts. We held a security deposit of approximately three months of the base year contractual rent, of which we applied \$315 thousand each quarter, or approximately \$1.3 million towards the outstanding rent during 2023. As of December 31, 2023, the security deposit had been fully applied.

On October 27, 2023, the Company entered into a lease amendment and forbearance agreement (the “Agreements”) for its existing lease agreement with Revolutionary Clinics. Under the terms of the Agreements, the lease term was extended by five years and we received approximately \$480 thousand of unpaid rent which was recognized as rental income in the fourth quarter of 2023. Under the terms of the Agreements, the rental payments have annual fixed escalations and may escalate quarterly as the tenant’s business achieves certain gross revenue metrics based on the trailing twelve months performance. Under the forbearance agreement, the Company provided forbearance for approximately \$2.0 million of back rental income, fees and reimbursable expenses. Lastly, the Company received warrants which if exercised will entitle the Company to receive 26,058 of common units in Revolutionary Clinics.

Calypso

On November 15, 2023, our tenant, Calypso Enterprises (“Calypso”) was sold by its parent Hero Diversified Associates, Inc. (“HDAI”) to Canvas Acquisition Corporation, LLC (“Canvas”) an independent third party, whose parent replaced HDAI as the lease guarantor. In connection with the sale the Company, and Canvas agreed to certain revised terms through a lease amendment. Under the terms of the amendment, we reduced the rent payments, provided up to \$3.0 million in tenant improvements allowance, provided an option to purchase the property at our cost basis, (inclusive of funding the \$3.0 million of tenant improvements), and received six-months of rent escrow, among other provisions. The purchase option is exercisable from December 1, 2024 through December 31, 2025, with notice to be delivered no later than December 31, 2024. In the event the purchase option is exercised prior to December 31, 2025, we would receive a make-whole payment for rent through December 31, 2025. As compensation for providing such lease modifications, HDAI agreed to pay us approximately \$1.5 million of additional rent to be paid in 5 installments over 18 months from November 15, 2023.

See Item 1A. “Risk Factors” of this Annual Report on Form 10-K for additional factors that may impact our operating results.

Market Conditions

During the year ended December 31, 2023, financial markets were volatile, reflecting heightened geopolitical risks and material tightening of financial conditions since the U.S. Federal Reserve began increasing interest rates in the spring of 2022. The tense regional banking crisis was short-lived as the banking system remained steady. Central banks continued to shrink their balance sheets during the latter half of the year, reducing market liquidity. There continues to be uncertainty regarding monetary policy and inflation. While most concerns about an economic recession have been pushed to the second half of 2024, or later, and while inflation has trended downward, there are concerns that inflation may still prove stickier than the market anticipates, creating risks to corporate profit margins. The Federal Reserve left rates unchanged so far in 2024, it has been signaling higher rates for longer and will not consider a rate cut as it continues to fight inflation, with borrowing costs at the highest level in 22 years. The increasing cost of capital is pressuring many U.S. Corporations. U.S. corporate defaults increased in 2023 compared to 2022. These current market conditions have increased the cost of capital and reduced the availability of capital for us and our tenants.

Inflation and Supply Chain Constraints

Inflation continues to trend higher than in prior periods, which may be negatively impacting some of our tenants. This inflation has impacted costs for labor and production inputs for regulated cannabis operators, in addition to increasing costs of construction for development and redevelopment projections. Ongoing labor shortages with global supply chain issues, and geopolitical issues, also continue to adversely impact costs and timing for completion of these development and

redevelopment projects, which may result in cost overruns and delays in commencing operations on certain of our tenants' projects.

Competitive Environment

We face competition from a diverse mix of market participants, including but not limited to, other companies with similar business models, independent investors, hedge funds and other real estate investors, mortgage REITs, hard money lenders, as well as would-be tenants and cannabis operators themselves, all of whom may compete with us in our efforts to acquire real estate zoned for cannabis cultivation, production or dispensary operations. Competition from others may diminish our opportunities to acquire a desired property on favorable terms or at all. In addition, this competition may put pressure on us to reduce the rental rates below those that we expect to charge for the properties that we own and expect to acquire, which would adversely affect our financial results.

Critical Accounting Estimates

In accordance with GAAP, our consolidated financial statements require the use of estimates and assumptions that involve the exercise of judgment and use of assumptions. Our most critical accounting estimates will involve decisions and assessments that could affect our reported assets and liabilities, as well as our reported revenues and expenses. Actual results could differ materially from those estimates and assumptions.

We believe that all of the decisions and assessments upon which our consolidated financial statements have been based were reasonable at the time made and based upon information available to us at that time. Below is a summary of our critical accounting policies that involve a significant level of estimation uncertainty or subjectivity and have had or are reasonably likely to have a material impact on our financial condition or results of operations. This discussion of our critical accounting estimates is intended to supplement the description of our accounting policies in the footnotes to our consolidated financial statements and to provide additional insight into the information used by management when evaluating significant estimates and assumptions. For further discussion of our significant accounting policies, see Note 2 "Basis of Presentation and Summary of Significant Accounting Policies" to our consolidated financial statements included in this Form 10-K.

Investment in Real Estate Properties and Depreciation

All of our acquisitions of rental properties to date were accounted for as asset acquisitions because substantially all of the fair value is concentrated in a single identifiable asset or group of similar identifiable assets. Upon acquisition of a property, we allocate the purchase price of the real estate to land, building and improvements (inclusive of tenant improvements and site improvements) and, if applicable, determine intangibles, such as the value of above and below market leases and origination costs associated with the in-place lease. The tangible and intangible assets acquired and liabilities assumed are initially measured based upon their relative fair values. We exercise judgement to determine the estimated fair value. For example the fair value of the land is determined by reviewing comparable sales within the same submarket and/or region, the fair value of buildings on an as-if vacant basis may be based on assumption of projected growth in rental rates and operating expenses, anticipated trends and market/economic conditions and we may engage third-party valuation specialists. The determination of the fair value at acquisition based on the above methodology for land and building may involve inputs that require significant judgment. The use of different assumptions can affect the amount of consideration allocated to the acquired depreciable/amortizable asset, which in turn can impact our net income due to the recognition of the related depreciation/amortization expense in our consolidated statements of operations.

We depreciate the amounts allocated to building and improvements on a straight-line basis over their estimated useful lives generally between 20 to 35 years and the amount allocated to site improvements at our buildings, if any, over the estimated useful lives, generally between 8 to 15 years. Determining whether expenditures meet the criteria for capitalization and the assignment of depreciable lives requires management to exercise significant judgment.

Provision for Impairment

We review current activities and changes in the business condition of all of our properties to determine the existence of any triggering events or impairment indicators. We evaluate our real estate assets for impairment on a property-by property basis. If triggering events or impairment indicators are identified, we analyze the carrying value of our real estate for any impairment. Such impairment indicators include but are not limited to, deterioration in rent rates for a property, decline in projected rental rates, evidence of material physical damage to the property, holding period, and tenant defaults.

[Table of Contents](#)

A provision is made for impairment if estimated future operating cash flows (undiscounted and without interest charges) plus estimated disposition proceeds (undiscounted) are less than the current book value of the property. Key inputs that we utilize in this analysis include projected rental rates, estimated holding periods, capital expenditures and property sales capitalization rates. Our undiscounted cash flow and fair value calculations contain uncertainties because they require management to make assumptions and to apply judgment to estimate future cash flow and property fair values, including determining our estimated holding period and selecting the discount or capitalization rate that reflects the risk inherent in future cash flow. If the actual net cash flow or actual market capitalization rates significantly differ from our estimates, the impairment evaluation for an individual asset could be materially affected.

Lease Classification

Lease classification for leases under which we are the lessor are evaluated at lease commencement and leases not classified as sales-type leases or direct financing leases are classified as operating leases. Leases qualify as sales-type leases if the contract includes either transfer of ownership clauses, certain purchase options, a lease term representing a major part of the economic life of the asset, or the present value of the lease payments and residual guarantees provided by the lessee exceeds substantially all of the fair value of the asset. Additionally, leasing an asset so specialized that it is not deemed to have any value to us at the end of the lease term may also result in classification as a sales-type lease. Leases qualify as direct financing leases when the present value of the lease payments and residual value guarantees provided by the lessee and unrelated third parties exceeds substantially all of the fair value of the asset and collection of the payments is probable. The determination of lease classification requires the calculation of the rate implicit in the lease or the use of an appropriate cap rate requires significant judgement.

Financial Instruments - Credit Losses

We adopted ASC 326, Financial Instruments - Credit Losses ("CECL") on January 1, 2023. The CECL expected loss model requires an allowance for all expected credit losses for the life of a loan be recognized when the loan is either originated or acquired. The allowance for credit losses is a valuation account that is deducted from, or added to, the amortized cost basis of the financial asset(s) to present the net amount expected to be collected on the financial asset(s). At each reporting period, we will update the estimate and adjust the allowance for credit losses accordingly. Increases in the allowance are recorded through net income as credit loss expense. Decreases in the allowance are recorded through net income as a reversal of credit loss expense. This standard does not specify a specific measurement technique for estimating expected credit losses and the approach used to estimate credit losses requires judgement. We generally use a discounted cash flow model approach to determine the credit loss. Determining the appropriate discount rate that reflects the risk inherent in future cash flow requires significant judgement. If the discount rates differ significantly from our estimates, the provision for current credit loss could be materially affected.

Stock-Based Compensation

We record our compensation cost for all stock awards at fair value at the grant date and amortize the cost over the service period (generally equal to the vesting period) which is included in "Compensation Expense" on our consolidated statement of operations. The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. We used the Black-Scholes option pricing model to estimate the fair value of options awards at the time of their grant, which required input of assumptions, including judgments to estimate expected stock price volatility, expected life, and forfeiture rate. The fair value of performance stock awards is determined using a Monte Carlo simulation for our future stock price and the corresponding peer group. There is significant uncertainty in the estimation of the valuation of our performance stock awards and there is additional uncertainty around forfeitures as we cannot determine if or when forfeitures will happen. The valuation of units can vary significantly since units are based upon target amounts that may or may not be met. If target metrics are not met upon vesting, the performance stock units are subject to cancellation. Cancellation of performance stock units has no impact on estimated or previously recognized expense.

2023 Highlights

Investment Activity

Real Estate Acquisitions

During 2023, we exercised our option to purchase the adjacent parcel of land to expand our cultivation facility in Missouri for approximately \$350 thousand and committed to fund \$16.2 million in tenant improvements.

The following table presents our investment activity for the year ended December 31, 2023 (in thousands):

Tenant	Market	Site Type	Closing Date	Real Estate Acquisition Costs	
Bloom Medicinal	Missouri	Cultivation	March 3, 2023	\$	350
Total				\$	350

Tenant Improvements Funded

During 2023, we funded approximately \$14.4 million of tenant improvements to our cultivation facilities in Arizona, Missouri and Pennsylvania.

The following table presents the tenant improvements funded during the year ended December 31, 2023 (in thousands):

Tenant	Market	Site Type	Closing Date	TI Funded	Unfunded Commitments
Mint	Arizona	Cultivation	June 24, 2021	\$ 4,281	\$ 3,788 ⁽¹⁾
Organic Remedies	Missouri	Cultivation	December 20, 2021	282	—
Bloom Medicinal	Missouri	Cultivation	April 1, 2022	7,858	8,826
Ayr Wellness, Inc.	Pennsylvania	Cultivation	June 30, 2022	—	750
Calypso	Pennsylvania	Cultivation	August 5, 2022	2,013	987
Total				\$ 14,434	\$ 14,351

(1) Effective June 1, 2023, the lease agreement was amended to include an additional TI commitment of approximately \$6.5 million.

Disposal of Real Estate

On October 27, 2023, we closed on the sale of our property in Palmer, Massachusetts, for \$2.0 million, which was leased to Mint. Our investment in the property was \$1.9 million. Upon closing, Mint's lease agreement was terminated and they paid a portion of the closing costs, resulting in a break-even sale of the property.

Financing Activity

Loan Payable

In January 2023, we paid our annual principal and interest payment of \$1.0 million on our loan payable, which we entered into in connection with a sale leaseback transaction, to the seller of our cultivation facility in Chaffee, Missouri. The loan's outstanding balance as of December 31, 2023 was \$1.0 million and the discount had been fully amortized.

Revolving Credit Facility

As of December 31, 2023, we had outstanding borrowings of \$1.0 million under our Revolving Credit Facility and \$89.0 million in funds available to be drawn, subject to sufficient collateral in the borrowing base.

Capital Markets Activity

Stock Repurchase Program

On September 15, 2023, the board of directors authorized an amendment to the stock repurchase program of up to an additional \$10.0 million of outstanding common stock and extended the program through December 31, 2024.

During the year ended December 31, 2023, pursuant to the stock repurchase program, we acquired 908,394 shares of common stock with an average purchase price, including commissions, of \$13.00, totaling approximately \$11.8 million. The remaining availability under the stock repurchase program as of December 31, 2023 was approximately \$8.2 million.

Recent Developments

Tenant Improvements

Subsequent to December 31, 2023, we funded approximately \$5.6 million of tenant improvements to our cultivation facilities in Arizona and Missouri.

Loan Payable

On January 3, 2024, we paid our annual principal and interest payment of \$1.0 million on our loan payable, which we entered into in connection with a sale leaseback transaction, to the seller of our cultivation facility in Chaffee, Missouri. This represents the final installment payment on our loan payable.

Results of Operations

General

We derive substantially all our revenue from rents received from single tenants at each of our 31 properties under triple-net leases. We have low leverage on the portfolio with only \$1.0 million outstanding under our revolving credit facility and low general and administrative expense with an annualized ratio of 1.33% of total assets.

Comparison of the Year Ended December 31, 2023 and 2022 (dollars in thousands):

	For the Year Ended December 31,		Increase/(Decrease)
	2023	2022	2023 vs 2022
Revenue:			
Rental Income	\$ 46,341	\$ 42,216	\$ 4,125
Interest Income from Loans	521	2,429	(1,908)
Fees and Reimbursables	442	355	87
Total Revenue	47,304	45,000	2,304
Expenses:			
Property Expenses	657	219	438
Depreciation and Amortization Expense	14,266	12,825	1,441
General and Administrative Expenses:			
Compensation Expense	4,477	6,069	(1,592)
Professional Fees	1,361	1,575	(214)
Other General and Administrative Expenses	1,721	1,736	(15)
Total General and Administrative Expenses	7,559	9,380	(1,821)
Total Expenses	22,482	22,424	58
Loss on Sale of Real Estate	—	(60)	60
Provision for Current Expected Credit Loss	(167)	—	(167)
Income From Operations	24,655	22,516	2,139
Other Income (Expense):			
Interest Income	747	113	634
Interest Expense	(379)	(273)	(106)
Total Other Income (Expense)	368	(160)	528
Net Income	25,023	22,356	2,667
Net Income Attributable to Noncontrolling Interests	(438)	(380)	(58)
Net Income Attributable to Common Stockholders	\$ 24,585	\$ 21,976	\$ 2,609

Revenue

Rental Income

Rental income for the year ended December 31, 2023 increased by approximately \$4.1 million, to approximately \$46.3 million, compared to approximately \$42.2 million for the year ended December 31, 2022. The increase in rental income was primarily attributable to:

- A full year of rental income from two cultivation facilities acquired at the end of the second quarter of 2022. The increase also includes nine months of rental income from exercising our option to acquire the adjacent land parcel to expand one of our existing cultivation facilities in Missouri during the first quarter of 2023. These acquisitions generated approximately \$1.6 million of rental income during the year ended December 31, 2023.

[Table of Contents](#)

- Rental income from one cultivation facility that converted from a mortgage loan to a twenty-year sale-leaseback on August 5, 2022, which generated an increase of approximately \$1.8 million of rental income during the year ended December 31, 2023.
- Funding of tenant improvements at our Arizona, Florida, Pennsylvania and both Missouri cultivation facilities, which generated approximately \$2.1 million of rental income during the year ended December 31, 2023.
- Annual escalations on our portfolio which generated an increase of approximately \$0.8 million of rental income during the year ended December 31, 2023.

The increase in rental revenue was partially offset by a decrease of approximately \$2.7 million primarily attributable to:

- During the year ended December 31, 2023, Revolutionary Clinics, the tenant of our cultivation facility in Massachusetts, failed to pay seven months of contractual rent under its lease agreement of approximately \$3.0 million. We applied their security deposit of approximately \$1.3 million, towards the outstanding rent. On October 27, 2023, we entered into a lease amendment and forbearance agreement and collected a portion of the back rent of approximately \$480 thousand for August and September and we collected rent at the full amended contractual amount for October through December 2023, totaling \$1.2 million. The application of the security deposit and rent collected during the year ended December 31, 2023 resulted in a net decrease of rental income of approximately \$2.6 million compared to rental income collected for the year ended December 31, 2022.
- The sale of two Massachusetts properties, one during 2022 and one during 2023, that resulted in a net decrease to rental income of approximately \$31 thousand for the year ended December 31, 2023.

Interest Income from Loans

Interest income from loans decreased by approximately \$1.9 million for the year ended December 31, 2023 compared to the year ended December 31, 2022. The decrease was attributable to the conversion of the \$30.0 million mortgage loan that we entered into during the fourth quarter of 2021 that converted to a twenty-year sale-leaseback, in accordance with the loan agreement, on August 5, 2022.

Fees and Reimbursables

Fees and reimbursables remained relatively flat year over year.

Expenses

Property Expenses

The Company's properties are leased to single tenants on a long-term, triple-net basis, which obligates the tenant to be responsible for the ongoing expenses of a property, in addition to its rent obligations. The Company will pay for certain expenses on behalf of the tenant and the tenant is required to reimburse the Company. The presentation in the statement of operations for these expenses are gross where the Company records revenue and a corresponding reimbursable expense. Expenses paid directly by a tenant are not reimbursable and therefore are not reflected in the statement of operations. The expense and reimbursable amounts may differ due to timing. The revenues associated with the reimbursable expenses were classified in "Fees and Reimbursables" in the accompanying consolidated statements of operations.

Property expenses for the year ended December 31, 2023 increased by approximately \$0.4 million to approximately \$0.7 million, compared to \$0.2 million for the year ended December 31, 2022. The increase was primarily attributable to insurance, real estate taxes and legal fees paid on behalf of certain tenants, which will be reimbursed to us.

Depreciation and Amortization Expense

Depreciation and amortization expense for the year ended December 31, 2023, increased by approximately \$1.4 million to approximately \$14.3 million, compared to \$12.8 million for the year ended December 31, 2022. The increase in depreciation was attributable to; (i) a full year of depreciation on approximately \$27.1 million related to the three cultivation facilities and one dispensary we acquired during 2022, which generated an increase of approximately \$403 thousand; (ii) a full year of depreciation on approximately \$28.5 million related to the cultivation facility that converted from a mortgage loan to a twenty-year sale-leaseback on August 5, 2022, which generated an increase of approximately

[Table of Contents](#)

\$584 thousand; (iii) a full year of depreciation on approximately \$21.0 million that was funded during the second quarter of 2022 in connection with the expansion at an existing cultivation facility in Florida, which generated an increase of approximately \$300 thousand; (iv) approximately \$30.8 million of improvements that were placed into service during 2022 and subsequent, which generated an increase of approximately \$429 thousand; and (v) to a lesser extent, a full year of depreciation on approximately \$0.1 million related to corporate assets that were placed into service during the third quarter of 2022, which generated an increase of approximately \$12 thousand. These increases were slightly offset by a decrease of approximately \$325 thousand related to adjustments for properties sold and assets that became fully depreciated.

General and Administrative Expenses

Total general and administrative expenses for the year ended December 31, 2023 decreased by approximately \$1.8 million, to \$7.6 million, compared to \$9.4 million for the year ended December 31, 2022. The decrease in general and administrative expense is described below by category.

Compensation Expense

Compensation expense for the year ended December 31, 2023, decreased by approximately \$1.6 million to \$4.5 million, compared to \$6.1 million for the year ended December 31, 2022. The decrease was primarily due to the following; (i) in connection with the retirement and the separation of certain executive officers during 2022 we incurred one-time severance payments of approximately \$1.7 million; and (ii) the associated accelerated vesting of their restricted stock units ("RSUs") of \$0.2 million. The decrease was partially offset by (i) a full year of compensation expense for one executive officer and two employees hired during 2022; and (ii) increased expenses on RSUs and performance stock units ("PSUs") granted to certain officers, employees and directors during 2023.

Professional Fees

Professional fees for the year ended December 31, 2023, decreased by approximately \$0.2 million to \$1.4 million, compared to \$1.6 million for the year ended December 31, 2022. The decrease was mainly attributable to a reduction of approximately \$115 thousand related to the elimination of outsourced accounting functions, a decrease of approximately \$196 thousand in recruiting fees not incurred during 2023, and a reduction of approximately \$139.4 thousand related to costs incurred for potential restructuring. These decreases were partially offset by increases in consulting fees, legal fees and tax preparation fees.

Other General and Administrative Expenses

Other general and administrative expenses were relatively flat year over year. Other general and administrative expenses is primarily comprised of director and officer insurance, information technology fees, public relations fees, filing and regulatory fees, reporting fees, corporate rent and various other expenses.

Loss on Sale of Real Estate

On March 21, 2022, we sold our dispensary in Franklin, Massachusetts for approximately \$0.8 million, which was leased to PharmaCann. We recognized a loss on sale of property of \$60 thousand during the year ended December 31, 2022.

Provision for Current Expected Credit Loss

On January 1, 2023, we adopted ASC 326, Financial Instruments - Credit Losses. In connection with this adoption, we used a discounted cash flow model to determine an expected credit loss on our loan receivable and recorded a provision for current expected credit loss of \$167 thousand during the year ended December 31, 2023.

Other Income (Expense)

Other Income

Interest income increased during the year ended December 31, 2023, by approximately \$0.6 million, to \$0.7 million, compared to \$0.1 million for the year ended December 31, 2022, primarily due to higher interest rates on our cash balances in our money market accounts.

Interest Expense

[Table of Contents](#)

Interest expense increased during the year ended December 31, 2023 by approximately \$0.1 million to \$0.4 million compared to \$0.3 million for the year ended December 31, 2022. The increase was mainly attributable to a full year of interest expense on the draw of \$1.0 million from the Revolving Credit Facility we entered into on May 6, 2022, and the associated non-cash interest expense, which increased by approximately \$268 thousand related to the amortization of deferred financing costs incurred in connection with this facility. The increase was partially offset by a decrease in interest expense on our loan payable in connection with the \$1.0 million principal pay down in January 2023.

Non-GAAP Financial Information and Other Metrics

Funds from Operations and Adjusted Funds from Operations

Funds from Operations (“FFO”) and Adjusted Funds from Operations (“AFFO”) are non-GAAP financial measures and should not be viewed as alternatives to net income calculated in accordance with GAAP as a measurement of our operating performance. We believe that FFO and AFFO are useful to investors because they are widely accepted industry measures used by analysts and investors to compare the operating performance of REITs.

We calculate FFO in accordance with the current National Association of Real Estate Investment Trusts (“NAREIT”) definition. NAREIT currently defines FFO as follows: net income (loss) (computed in accordance with GAAP) excluding depreciation and amortization related to real estate, gains and losses from the sale of certain real estate assets, and impairment write-downs of certain real estate assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by an entity. Other REITs may not define FFO in accordance with the NAREIT definition or may interpret the current NAREIT definition differently than we do and therefore our computation of FFO may not be comparable to such other REITs.

We calculate AFFO by starting with FFO and adjusting for non-cash and certain non-recurring transactions, including non-cash components of compensation expense and the effect of provisions for credit losses. Other REITs may not define AFFO in the same manner as we do and therefore our calculation of AFFO may not be comparable to such other REITs. You should not consider FFO and AFFO to be alternatives to net income as a reliable measure of our operating performance; nor should you consider FFO and AFFO to be alternatives to cash flows from operating, investing or financing activities (as defined by GAAP) as measures of liquidity.

The table below is a reconciliation of net income attributable to common stockholders to FFO and AFFO for the year ended December 31, 2023 and 2022 (in thousands):

	For the Year Ended December 31,	
	2023	2022
Net Income Attributable to Common Stockholders	\$ 24,585	\$ 21,976
Net Income Attributable to Noncontrolling Interests	438	380
Net Income	25,023	22,356
Adjustments:		
Real Estate Depreciation and Amortization	14,266	12,825
Loss on Sale of Real Estate	—	60
FFO Attributable to Common Stockholders - Diluted	39,289	35,241
Severance	—	1,752
Non-cash rental income - other	(522)	—
Provision for current expected credit loss	167	—
Stock-Based Compensation	1,439	1,493
Non-Cash Interest Expense	282	163

AFFO Attributable to Common Stockholders - Diluted	\$ 40,654	\$ 38,661

Liquidity and Capital Resources

Our cash requirements include the payment of dividends to our shareholders, distributions to our OP Unitholders, general and administrative expenses, debt service, other expenses related to managing our existing portfolio as well as acquisitions and unfunded tenant commitments. The sources of liquidity to fund these cash requirements include rental revenue from the leasing of our properties, which is our primary source of cash flow, borrowings under our revolving credit facility and equity and debt issuances either in the public or private markets, if markets permit. Where possible, we also may issue OP Units to acquire properties from existing owners seeking a tax-deferred transaction.

As of December 31, 2023, we had \$114.8 million of liquidity comprised of \$25.8 million of cash and cash equivalents and \$89.0 million available on our \$90.0 million revolving credit facility, subject to sufficient collateral in the borrowing base. The challenges posed by the increase in interest rates and inflation could adversely impact our cash flow from continuing operations but we expect that cash flow from continuing operations over the next twelve months, together with cash on hand, will be adequate to fund our business operations, cash dividends to our shareholders, distributions to our OP Unitholders and debt service. Acquisitions and unfunded tenant improvement costs may require funding from borrowings, equity issuance and or issuance of OP Units. We cannot however, be certain that these sources of funds will be available at a time and upon terms acceptable to us in sufficient amounts in the future.

Summary of Cash Flows

The following summary discussion of our cash flows is based on the consolidated statements of cash flows in our Consolidated Financial Statements and is not meant to be an all-inclusive discussion of the changes in our cash flows for the periods presented below (in thousands):

	For the Year Ended	
	December 31,	
	2023	2022
Net Cash Provided by Operating Activities	\$ 40,084	\$ 37,008
Net Cash Used in Investing Activities	\$ (12,835)	\$ (86,453)
Net Cash Used in Financing Activities	\$ (46,598)	\$ (32,460)
Cash and Cash Equivalents - End of Year	\$ 25,843	\$ 45,192

Net Cash Provided by Operating Activities:

Net cash provided by operating activities for the years ended December 31, 2023 and 2022 were approximately \$40.1 million and \$37.0 million, respectively. Net cash flows provided by operating activities primarily related to contractual rent and security deposits from our properties, partially offset by our general and administrative expenses.

Net Cash Used in Investing Activities:

Net cash used in investing activities for the years ended December 31, 2023 and 2022 were approximately \$12.8 million and \$86.5 million, respectively. Net cash used in investing activities for the year ended December 31, 2023 related to approximately \$350 thousand used to purchase an adjacent parcel of land by an existing cultivation facility in Missouri and approximately \$14.4 million used to fund tenant improvements, offset by approximately \$1.9 million of proceeds received in connection with the sale of our Palmer, Massachusetts property. Net cash used in investing activities for the year ended December 31, 2022 related to approximately \$37.0 million used to purchase three cultivation facilities and one dispensary, approximately \$45.2 million used to fund tenant improvements, and \$5.0 million used to fund an unsecured loan receivable at our cultivation facility in Missouri, partially offset by approximately \$0.8 million of proceeds received from the sale of our Franklin, Massachusetts property.

Net Cash Used in Financing Activities:

Net cash used in financing activities for the years ended December 31, 2023 and 2022 were approximately \$46.6 million and \$32.5 million, respectively. Cash used in financing activities for the year ended December 31, 2023, related to approximately \$33.7 million in dividend payments to holders of our common stock as well as distributions to OP Unitholders and dividend equivalents to RSU holders, \$1.0 million to pay down principal on our loan payable,

[Table of Contents](#)

approximately \$11.8 million to buy back stock under the stock repurchase program, approximately \$28 thousand in deferred financing costs related to updating our Revolving Credit Facility and approximately \$43 thousand of cash paid for taxes in lieu of issuance of common stock. Net cash provided by financing activities for the year ended December 31, 2022, were related to approximately \$29.7 million in dividend payments to holders of our common stock as well as distributions to OP Unitholders and dividend equivalents to RSU holders, \$1.8 million to pay down principal on our loan payable, approximately \$1.2 million in deferred financing costs related to obtaining our Revolving Credit Facility and approximately \$813 thousand of cash paid for taxes in lieu of issuance of common stock, offset by \$1.0 million drawn on our Revolving Credit Facility.

Dividends

To maintain our qualification as a REIT, U.S. federal income tax law generally requires that we distribute at least 90% of our REIT taxable income annually, determined without regard to the deduction for dividends paid and excluding net capital gains. We must pay tax at regular corporate rates to the extent that we annually distribute less than 100% of our taxable income. We evaluate each quarter to determine our ability to pay dividends to our stockholders based on our net taxable income if and to the extent authorized by our board of directors. Before we pay any dividend, whether for U.S. federal income tax purposes or otherwise, we must first meet both our operating requirements and debt service payments. If our cash available for distribution is less than our net taxable income, we could be required to sell assets or borrow funds to make cash distributions or we may make a portion of the required distribution in the form of a taxable stock distribution.

As a result of this distribution requirement, our operating partnership cannot rely on retained earnings to fund its ongoing operations to the same extent that other companies whose parent companies are not REITs can. During the year ended December 31, 2023, we declared and our board of directors approved, cash dividends on our common stock and restricted stock units and in our capacity as general partner of the Operating Partnership, authorized distributions on our OP Units totaling approximately \$1.57 per share. During the year ended December 31, 2022, we declared and our board of directors approved, cash dividends on our common stock and restricted stock units and in our capacity as general partner of the Operating Partnership, authorized distributions on our OP Units totaling approximately \$1.44 per share.

Contractual Obligations and Commitments

Unfunded Commitments

As of December 31, 2023, we had aggregate unfunded commitments to invest \$14.4 million to develop and improve our existing cultivation facilities in Arizona, Missouri, and Pennsylvania.

Corporate Office Lease

As of December 31, 2023, we are the lessee under one office lease for a term of four years, subject to annual escalations. The annual rent payments range from approximately \$72 thousand in year one to \$85 thousand in year four. The office lease has a remaining average lease term of approximately 2.7 years.

Revolving Credit Facility

As of December 31, 2023, the Company had \$1.0 million drawn on our Revolving Credit Facility which bears interest at a rate of 5.65% per annum.

Loan Payable

The loan payable outstanding balance as of December 31, 2023 was \$1.0 million and the discount had been fully amortized. Principal on the loan was payable in annual installments of which \$1.8 million and \$1.0 million were paid in January 2022 and January 2023, respectively. The final principal payment of \$1.0 million was made on January 3, 2024.

Adoption of New or Revised Accounting Standards

We are an emerging growth company, as defined in the JOBS Act. Under the JOBS Act, emerging growth companies can delay adopting new or revised accounting standards issued subsequent to the enactment of the JOBS Act until such time as those standards apply to private companies. We elected to use this extended transition period for complying with new or revised accounting standards that have different effective dates for public and private companies until the earlier of the date that we (i) are no longer an emerging growth company or (ii) affirmatively and irrevocably opt out of the extended

transition period provided in the JOBS Act. As a result, our consolidated financial statements may not be comparable to companies that comply with the new or revised accounting pronouncements as of public company effective dates.

Recent Accounting Pronouncements

Refer to Note 2 - “Basis of Presentation and Summary of Significant Accounting Policies” for recent accounting pronouncements.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk

Interest rates are highly sensitive to many factors, including fiscal and monetary policies and domestic and international economic and political considerations, as well as other factors beyond our control. We are subject to interest rate risk in connection with our Revolving Credit Facility. As of December 31, 2023, we had \$1.0 million drawn on our Revolving Credit Facility, at a fixed interest rate of 5.65% through May 2025 and a floating rate thereafter. Therefore, if interest rates decrease, our required interest payments may exceed those based on current market rates. If interest rates remain higher for longer, our cost of financing will significantly increase when the Revolving Credit Facility adjusts to a floating rate in May 2025. We may choose to mitigate such interest rate risk through the use of interest rate derivative instruments.

Inflation

The U.S. economy has experienced an increase in inflation rates over the past two years. We enter into leases that generally provide for annual fixed increases in rent at a fixed rate. In some instances, leases provide for annual increases in rent based on the increase in annual CPI. We expect these lease provisions to result in rent increases over time. During times when inflation is greater than increases in rent, as provided for in the leases, rent increases may not keep up with the rate of inflation.

Seasonality

Our business is not, and we do not expect our business to be, subject to material seasonal fluctuations.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

The information required by this Item 8 is incorporated by reference to our Financial Statements beginning on page F-1 of this report.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Our management, under the supervision and with the participation of our principal executive and financial officer, is responsible for and has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to our company's management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officer have concluded that such disclosure controls and procedures were effective as of December 31, 2023 (the end of the period covered by this Annual Report).

Management's Annual Report on Internal Control Over Financial Reporting

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act as a process designed by, or under the supervision of, the Company's Chief Executive Officer and Chief Financial Officer and

[Table of Contents](#)

effected by the Company's Board of Directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles, and includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risks that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Management of the Company has assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2023. In making its assessment of internal control over financial reporting, management used the criteria described in Internal Control—Integrated Framework (2013 framework) issued by the Committee of Sponsoring Organizations of the Treadway Commission, ("COSO"). Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2023 based on criteria in Internal Control—Integrated Framework issued by the COSO.

This annual report does not include an attestation report of the company's independent registered public accounting firm due to a temporary exemption transition period established by rules of the Securities and Exchange Commission for emerging growth companies under the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act").

Limitations on Controls

Our system of internal control over financial reporting was designed to provide reasonable assurance regarding the preparation and fair presentation of published financial statements in accordance with accounting principles generally accepted in the United States. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance and may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION.

During the quarter ended December 31, 2023, no director or officer of the Company adopted, modified or terminated any Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement, each as defined in Item 408 of Regulation S-K.

On March 6, 2024, the Company entered a new employment agreement with Ms. Lisa Meyer, effective June 13, 2024 (the "Effective Date"), pursuant to which she will continue to serve as the Chief Financial Officer, Treasurer and Secretary of the Company (the "New Employment Agreement"). As of the Effective Date, the New Employment Agreement will replace and supersede Ms. Meyer's existing employment agreement (the "Prior Employment Agreement") with the Company, which expires on June 13, 2024.

[Table of Contents](#)

Under the New Employment Agreement, Ms. Meyer reports directly to the Chief Executive Officer of the Company. The term of the New Employment Agreement will end on June 13, 2025. On that date, and on each subsequent anniversary of such date, the term of the New Employment Agreement will automatically be extended for one year, unless (i) earlier terminated or (ii) unless either the Company or Ms. Meyer gives the other party written notice at least ninety (90) days prior to the end of the then-existing term that the term of the New Employment Agreement shall not be further extended.

Ms. Meyer's New Employment Agreement provides that her annualized base salary will be \$350,000. The Company's Board of Directors (the "Board") or the Compensation Committee of the Board (the "Compensation Committee") may increase Ms. Meyer's annual base salary during the term of the New Employment Agreement. The New Employment Agreement also provides that Ms. Meyer will have the opportunity to earn an annual cash performance bonus ("Annual Cash Bonus") during the term, with a target Annual Cash Bonus of \$250,000. The Compensation Committee will determine the Annual Cash Bonus actually earned in each calendar year based on the attainment of Company and individual performance goals established by the Compensation Committee in consultation with Ms. Meyer.

The New Employment Agreement also provides that Ms. Meyer will be eligible to receive annual equity incentive grants (the "Equity Grants") under and subject to the terms and conditions of the Company's 2021 Equity Incentive Plan (the "Plan"). The target value of Ms. Meyer's annual Equity Grant shall be \$250,000.

The New Employment Agreement also provides that Ms. Meyer will be eligible to participate in the Company's retirement and welfare benefit plans, and is entitled to four weeks' vacation in each calendar year.

The New Employment Agreement provides that Ms. Meyer is entitled to receive the "Accrued Obligations" upon termination of her employment for any reason. The "Accrued Obligations" are (i) payment of any compensation (including base salary, Annual Cash Bonus and accrued but unused vacation) that was earned but remains unpaid on the date of termination, and (ii) any benefits due to Ms. Meyer under the Company's benefit plans.

In addition, the New Employment Agreement provides that Ms. Meyer is entitled to additional benefits upon a termination of employment by the Company without cause (as defined in the New Employment Agreement) or upon Ms. Meyer's resignation for good reason (as defined in the New Employment Agreement); provided that Ms. Meyer has given the Company a release and waiver of claims in the form attached to the New Employment Agreement. Ms. Meyer is entitled to receive (i) the Accrued Obligations; (ii) any unpaid Annual Cash Bonus for a prior fiscal year; (iii) a pro-rated target Annual Cash Bonus for the year in which the termination occurs; (iv) a payment equal to one times the sum of her annual base salary in effect on the date of termination and target Annual Cash Bonus for the year in which the termination occurs; (v) all outstanding Equity Grants awarded as of the date of termination and (vi) a payment equal to the amount of the applicable COBRA premiums for 18 months. All outstanding Equity Grants awarded to Ms. Meyer shall be subject to any applicable accelerated or continuing vesting provisions set forth in the applicable Grant Instruments (as defined in the Plan).

Under the New Employment Agreement, if Ms. Meyer is terminated for cause, she will be entitled to receive Accrued Obligations and any obligations under the New Employment Agreement that continue after termination of employment or in any other agreements between Ms. Meyer and the Company pursuant to any outstanding equity-based awards. Ms. Meyer will not be eligible to receive any unpaid Annual Cash Bonus, including any unpaid Annual Cash Bonus for a prior fiscal year.

Additionally, if the New Employment Agreement terminates as a result of Ms. Meyer's death or disability (as defined in the New Employment Agreement); provided that, in the case of termination as a result of Ms. Meyer's disability, Ms. Meyer's has given the Company a release and waiver of claims in the form attached to the New Employment Agreement, Ms. Meyer is entitled to receive additional compensation and benefits. Ms. Meyer is entitled to receive (i) the Accrued Obligations; (ii) any unpaid Annual Cash Bonus for a prior fiscal year; (iii) a pro-rated target Annual Cash Bonus for the year in which the termination occurs; and (iv) a payment equal to the amount of the applicable COBRA premiums for 18 months. All outstanding Equity Grants awarded to Ms. Meyer shall be subject to any applicable accelerated or continuing vesting provisions set forth in the applicable Grant Instruments.

The New Employment Agreement also provides that, if Ms. Meyer is terminated due to the Company's non-renewal of the New Employment Agreement at the end of the term, provided that Ms. Meyer has given the Company a release and waiver of claims in the form attached to the New Employment Agreement, Ms. Meyer is entitled to receive (i) the Accrued Obligations; (ii) any unpaid Annual Cash Bonus for a prior fiscal year; (iii) a pro-rated target Annual Cash Bonus for the year in which the termination occurs, and (iv) all outstanding Company equity based awards held by Ms. Meyer, which will vest, and, if applicable, be paid in accordance with the terms of such equity based award agreement. If the termination resulting from the Company's non-renewal of the term of the New Employment Agreement occurs following a change in control of the Company (as defined in the New Employment Agreement), provided that Ms. Meyer has given the Company a release and waiver of claims in the form attached to the New Employment Agreement, Ms. Meyer is also entitled to

[Table of Contents](#)

receive (i) a payment equal to the amount of the applicable COBRA premiums for 18 months; and (ii) an additional payment. The amount of the additional payment is equal to one times Ms. Meyer's annual base salary and target Annual Cash Bonus multiplied by a fraction, the numerator of which is 12 minus the number of months from the date of the change in control through the end of the then existing term of the New Employment Agreement, and the denominator of which is 12. In the event of a non-renewal after which Ms. Meyer remains employed by the Company, no severance compensation will be due solely by reason of such non-renewal, provided that any future termination may qualify for severance.

The foregoing description of the New Employment Agreement does not purport to be complete and is qualified in its entirety by the full text of the New Employment Agreement, a copy of which will be filed with our Quarterly Report on Form 10-Q for the quarter ending March 31, 2024.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS.

Not Applicable.

PART III**ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.**

The information required by Item 10 is incorporated herein by reference to the proxy statement to be filed with the SEC within 120 days after December 31, 2023.

ITEM 11. EXECUTIVE COMPENSATION.

The information required by Item 11 is incorporated herein by reference to the proxy statement to be filed with the SEC within 120 days after December 31, 2023.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.***Equity Compensation Plan***

The following table summarizes information about the Company's equity compensation plan under which our common stock may be issued as of December 31, 2023.

Plan Category	Number of Shares to be Issued upon Exercise of Outstanding Options, Warrants and Rights ⁽¹⁾	Weighted Average Exercise Price of Outstanding Options, Warrants and Rights	Number of Shares Remaining Available for Future Issuance under Equity Compensation Plans ⁽²⁾
Equity compensation plans approved by security holders	297,393		1,950,251
Equity compensation plans not approved by security holders	—	—	—
Total	297,393	—	1,950,251

(1) Consists of awards granted under the 2021 Equity Incentive Plan. This amount includes 27,811 vested RSUs, 63,582 unvested RSUs and 206,000 unvested PSUs. The number of PSUs reflects the maximum number of shares issuable if the maximum performance criteria are achieved. There is no weighted-average exercise price for these RSUs and PSUs.

(2) Reflects shares available for issuance under the 2021 Equity Incentive Plan, assuming that maximum performance is achieved with respect to PSUs.

The remainder of the information required by Item 12 is incorporated by reference to the proxy statement to be filed with the SEC within 120 days after December 31, 2023.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

The information required by Item 13 is incorporated herein by reference to the proxy statement to be filed with the SEC within 120 days after December 31, 2023.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

The information required by Item 14 is incorporated herein by reference to the proxy statement to be filed with the SEC within 120 days after December 31, 2023.

Report of Independent Registered Public Accounting Firm

Shareholders and Board of Directors
NewLake Capital Partners, Inc.
New Canaan, Connecticut

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of NewLake Capital Partners, Inc. (the “Company”) as of December 31, 2023 and 2022, the related consolidated statements of operations, changes in equity, and cash flows for each of the years then ended, and the related notes (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ BDO USA, P.C.

We have served as the Company's auditor since 2021.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 1 - Organization

NewLake Capital Partners, Inc. (the “Company”, “we”, “us”, “our”), a Maryland corporation, was formed on April 9, 2019 as GreenAcreage Real Estate Corp. (“GARE”). The Company is an internally managed Real Estate Investment Trust (“REIT”) focused on providing long-term, single-tenant, triple-net sale leaseback and build-to-suit transactions for the cannabis industry. The Company conducts its operations through its subsidiary, NLCP Operating Partnership LP, a Delaware limited partnership (the “Operating Partnership” or “OP”). The Company is the sole managing general partner of the Operating Partnership. Noncontrolling investors in the Operating Partnership are included in Noncontrolling Interest in the Company's consolidated financial statements. Refer to Note 8 for details. The Company's common stock trades on the OTCQX® Best Market operated by the OTC Markets Group, Inc., under the symbol “NLCP”.

Note 2 - Basis of Presentation and Summary of Significant Accounting Policies***Basis of Presentation and Consolidation***

The accompanying consolidated financial statements and related notes have been prepared in accordance with U.S. Generally Accepted Accounting Principles (“GAAP”). The consolidated financial statements include the accounts of the Company, the Operating Partnership, as well as its wholly owned subsidiaries of the Operating Partnership and variable interest entities (“VIEs”) in which the Company is considered the primary beneficiary. All significant intercompany balances and transactions have been eliminated in the consolidated financial statements.

Variable Interest Entities

The Company consolidates a VIE in which it is considered the primary beneficiary. The primary beneficiary is the entity that has (i) the power to direct the activities that most significantly impact the entity's economic performance and (ii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE that could be significant to the VIE.

NLCP Operating Partnership LP

The Operating Partnership is a VIE because the holders of limited partnership interests do not have substantive kick-out rights or participating rights. Furthermore, the Company is the primary beneficiary of the Operating Partnership because it has the obligation to absorb losses and the right to receive benefits from the Operating Partnership and the exclusive power to direct the activities of the Operating Partnership. As of December 31, 2023 and 2022, the assets and liabilities of the Company and the Operating Partnership are substantially the same, as the Company does not have any significant assets other than its investment in the Operating Partnership.

Use of Estimates

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Management will adjust such estimates when facts and circumstances dictate. Such estimates include, but are not limited to, useful lives for depreciation of property and corporate assets, the fair value of acquired real estate and in-place lease intangibles acquired and the valuation of stock-based compensation. Actual results could differ from those estimates.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 2 - Basis of Presentation and Summary of Significant Accounting Policies (continued)

Real Estate

Investments in real estate are presented at historical cost, less accumulated depreciation. Costs directly related to the properties' acquisition, development, or redevelopment of the properties are capitalized. Repairs and maintenance cost incurred, if any, on the properties are expensed. Major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives.

The Company capitalizes cost associated with property and tenant improvements ("TI") when it is considered the accounting owner of the improvements. Property and tenant improvements generally consist of building additions or significant upgrades to existing facilities and are considered construction in progress until placed in service. Such improvements are considered placed in service when ready and available for its intended use.

Upon acquisition of a property, the Company allocates the purchase price of the real estate to land, building and improvements (inclusive of tenant improvements), site improvements and if applicable, determined intangibles, such as the value of above and below market leases and origination costs associated with the in-place lease. The tangible and intangible assets acquired and liabilities assumed are initially measured based upon their relative fair values. We estimate the fair value of land by reviewing comparable sales within the same submarket and/or region, the fair value of buildings on an as-if vacant basis and may engage third-party valuation specialists. Acquisition costs for asset acquisitions are capitalized as incurred. All of our real estate investments to date were recorded as asset acquisitions.

The Company depreciates the amount allocated to building and improvements on a straight-line basis over their estimated useful lives generally between 20 to 35 years and the amount allocated to site improvements at our buildings, if any, over the estimated useful lives, generally between 8 to 15 years. The Company amortizes the amount allocated to intangibles related to in-place leases over the remaining term of the lease.

Provision for Impairment

The Company reviews current activities and changes in the business condition of all of our properties to determine the existence of any triggering events or impairment indicators. The Company evaluates our investments in real estate assets for impairment on a property-by-property basis. If triggering events or impairment indicators are identified, the Company analyzes the carrying value of its real estate for any impairment. Such impairment indicators include but are not limited to, deterioration in rent rates for a property, decline in projected rental rates, evidence of material physical damage to the property, holding period, and tenant defaults.

A provision is made for impairment if estimated future operating cash flows (undiscounted and without interest charges) plus estimated disposition proceeds (undiscounted) are less than the current book value of the property. Key inputs that the Company utilizes in this analysis include projected rental rates, estimated holding periods, capital expenditures and property sales capitalization rates.

Sale of Real Estate

The Company classifies real estate held for sale when the following criteria are met: (i) management commits to a plan to sell the property, (ii) the property is available for sale, (iii) the property is actively being marketed for sale at a price that is reasonable, (iv) the sale of the property within one year is considered probable, and (v) significant change to the plan to sell the property is not expected. A property classified as held for sale is no longer depreciated and is required to be reported at the lower of its carrying value or its fair value less cost to sell. A real estate asset held for sale is classified as "Property Held for Sale" in the consolidated balance sheets.

The Company recognizes gains or losses when real estate is sold in accordance with the provisions of Accounting Standards Codification ("ASC") ASC 610-20, Gains and Losses from the Derecognition of Nonfinancial Assets. The gain or loss recorded is measured as the difference between the sales price less cost to sell and the carrying

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 2 - Basis of Presentation and Summary of Significant Accounting Policies (continued)

amount of the real estate asset. The gain or loss from the sale of real estate is recognized in the consolidated statements of operations.

Revenue Recognition

The Company's triple-net leases are accounted for as operating leases. Operating leases that have fixed and determinable rent increases are recognized on a straight-line basis over the lease term, unless the collectability of minimum lease payments is not reasonably predictable. Rental increases based upon changes in the consumer price index are recognized only after the changes in the indexes have occurred and are then applied according to the lease agreements. Contractually obligated expenses as defined by the lease agreement that are paid directly by the tenant are not reflected in our consolidated financial statements.

Operating leases where the minimum lease payments are not reasonably predictable are recognized on a cash basis. Due to our tenants limited operating history and the uncertain regulatory environment in the United States relating to the cannabis industry, the Company records rental income, fees and reimbursables for its operating leases on a cash basis. Any rental payments received in advance of contractual due dates are recorded as "Rent Received in Advance" in the consolidated balance sheets.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents. Cash and cash equivalents are exposed to concentrations of credit risk. The Company has deposited cash and cash equivalents with three financial institutions that are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000 per financial institution. As of December 31, 2023, the Company had cash accounts in excess of FDIC insured limits. The Company mitigates the potential of losses with deposit accounts that offer FDIC insurance through a network of banks for its cash deposits in excess of \$250,000. The Company did not hold any cash equivalents as of December 31, 2023 and December 31, 2022.

Loan Receivable, net

Loans originated by the Company are initially recorded at their principal amount net of any premium or discount and is accounted for under ASC 326, Financial Instruments - Credit Losses ("CECL"). The CECL expected loss model requires the Company to record an allowance for the expected credit loss for the life of a loan receivable, which is recognized when the loan is either originated or acquired. The allowance for credit losses is deducted from, or added to the amortized cost basis of the loan receivable to present the net amount expected to be collected on the financial asset(s). At each reporting period, the Company updates its estimate and adjusts the allowance for credit losses accordingly. Changes in the allowance are recorded in the consolidated statement of operations in "Other Income (Expenses). Decreases in the allowance are recorded as a reversal of credit loss expense. The Company generally uses a discounted cash flow model approach to determine the credit loss, if any, for its loans receivable subject to the CECL guidance.

Interest income on loans is recorded using the effective interest method based on the contractual payment terms of the loan. Any premium amortization or discount accretion will be reflected as a component of "Interest Income from Loans" in the consolidated statements of operations.

Investment in Equity Securities

The Company records its investment in warrants under ASC 321, Investments - Equity Securities ("ASC 321"). This guidance provides an alternative to the requirement to carry equity interests at fair value in accordance with ASC 820, Fair Value Measurement. The measurement alternative applies to certain equity interests without readily determinable fair values that are within the scope of ASC 321 and are otherwise required to be measured at fair value. Application of the measurement alternative is optional and is applied upon acquisition of an equity

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 2 - Basis of Presentation and Summary of Significant Accounting Policies (continued)

interest on an instrument-by-instrument basis. The Company elected to use the measurement alternative to value its investment in warrants which is reported at cost and is classified in "Other Assets" in the consolidated balance sheets.

Deferred Financing Costs

Deferred financing costs represent commitment fees, legal, title and other third-party costs associated with obtaining commitments for financing, which result in a closing of such financing. These costs are amortized over the terms of the respective agreements. Costs incurred in seeking financing transactions, which do not close, are expensed in the period in which it is determined that the financing will not close. Deferred financing costs related to the Company's revolving credit facility are amortized on a straight-line basis and are classified in "Other Assets" in the consolidated balance sheets.

Offering and Organization Costs

Offering costs incurred by the Company in connection with common stock offerings and private placements are reflected as a reduction of additional paid-in-capital. Offering costs incurred by the Company in connection with its shelf registration will be deferred and recorded in "Other Assets" until such time the Company completes a common stock offering where all or a portion will be reclassified and reflected as a reduction of additional paid-in-capital. The deferred offering costs will be expensed upon the expiration of the shelf if the Company does not complete an equity offering. Organization costs are expensed as incurred.

Loan Payable, net

The Company records its loan payable net of discount in our consolidated balance sheets. The discount is amortized as a non-cash interest expense using the effective interest method or other method that is not materially different, over the life of the loan payable. Any premium amortization or discount accretion will be reflected as a component of "Interest Expense" in the consolidated statement of operations.

Lease Classification

The Company elected the practical expedients that allow an entity not to reassess upon adoption (i) whether an expired or existing contract contains a lease, (ii) the lease classification related to expired or existing lease arrangements, and (iii) whether costs incurred on expired or existing leases qualify as initial direct costs, and as a lessor, the practical expedient not to separate certain non-lease components, such as common area maintenance, from the lease component if the timing and pattern of transfer are the same for the non-lease component and associated lease component, and the lease component would be classified as an operating lease if accounted for separately.

Lease classification for leases under which the Company is the lessor are evaluated at lease commencement and leases not classified as sales-type leases or direct financing leases are classified as operating leases. Leases qualify as sales-type leases if the contract includes either transfer of ownership clauses, certain purchase options, a lease term representing a major part of the economic life of the asset, or the present value of the lease payments and residual guarantees provided by the lessee exceeds substantially all of the fair value of the asset. Additionally, leasing an asset so specialized that it is not deemed to have any value to the Company at the end of the lease term may also result in classification as a sales-type lease. Leases qualify as direct financing leases when the present value of the lease payments and residual value guarantees provided by the lessee and unrelated third parties exceeds substantially all of the fair value of the asset and collection of the payments is probable.

Lease classification for those leases under which the Company is the lessee are evaluated at lease commencement as finance or operating leases. Leases qualify as finance leases if the lease transfers ownership of the asset at the end of the lease term, the lease grants an option to purchase the asset that we are reasonably certain to exercise, the lease term is for a major part of the remaining economic life of the asset, or the present value of the lease

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 2 - Basis of Presentation and Summary of Significant Accounting Policies (continued)

payments exceeds substantially all of the fair value of the asset. Leases that do not qualify as finance leases are deemed to be operating leases. At lease commencement, the Company records a lease liability which is measured as the present value of the lease payments and a right of use asset which is measured as the amount of the lease liability and any initial direct costs incurred. The Company applies a discount rate to determine the present value of the lease payments. If the rate implicit in the lease is not known, the Company uses a discount rate reflective of the Company's incremental borrowing rate. On the consolidated statements of operations, operating leases are expensed through rent expense while financing leases are expensed through amortization and interest expense.

Property Expenses

The Company's properties are leased to single tenants on a long-term, triple-net basis, which obligates the tenant to be responsible for the ongoing expenses of a property, in addition to its rent obligations. Under certain circumstances, the Company will pay for certain expenses on behalf of the tenant and the tenant is required to reimburse the Company. The presentation in the statements of operations for these expenses are gross where the Company records revenue and a corresponding reimbursable expense. Expenses paid directly by a tenant are not reimbursable and therefore are not reflected in the statements of operations. The expense and reimbursable amounts may differ due to timing. The revenues associated with the reimbursable expenses were classified in "Fees and Reimbursables" in the accompanying consolidated statements of operations.

Reportable Segment

We are engaged in the business of providing real estate/financing for the regulated cannabis industry. We have aggregated the properties into one reportable segment as our properties are similar in that they are leased to state-licensed operators on long-term triple-net basis and consist of improvements that are reusable and have similar economic characteristics. The financial information disclosed herein represents all of the financial information related to our one reportable segment.

Income Taxes

We have made an election to be taxed as a REIT, under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"), commencing with 2019, our initial taxable year. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to currently distribute at least 90% of the REIT's ordinary taxable income to stockholders. As a REIT, we generally will not be subject to federal income tax on taxable income that we distribute to our stockholders. If we fail to qualify as a REIT in any taxable year, we will then be subject to federal income taxes on our taxable income at regular corporate rates and will not be permitted to qualify for treatment as a REIT for federal income tax purposes for four years following the year during which qualification is lost unless the Internal Revenue Service grants us relief under certain statutory provisions. Such an event could materially adversely affect our net income and net cash available for distribution to stockholders. However, we believe that we will continue to be organized and operate in such a manner as to qualify for treatment as a REIT and intend to operate in the foreseeable future in such a manner that we will remain qualified as a REIT for federal income tax purposes.

Even if we qualify for taxation as a REIT, we may be subject to certain state and local taxes on our income and property, and federal income and excise taxes on our undistributed income.

The Company elected to treat a domestic subsidiary as a taxable REIT subsidiary ("TRS") and may elect to treat other subsidiaries as TRSs in the future. In general, a TRS is utilized to hold assets and engage in activities that the Company cannot hold or engage in directly. Generally, a TRS may engage in any real estate or non-real estate-related business.

A domestic TRS may declare dividends to the Company which will be included in the Company's taxable income/(loss) and may necessitate a distribution to stockholders. Conversely, if the Company retains earnings at the

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 2 - Basis of Presentation and Summary of Significant Accounting Policies (continued)

domestic TRS level, no distribution is required. A domestic TRS is subject to U.S. federal, state and local corporate income taxes.

Stock-Based Compensation

The Company recognizes stock-based compensation expense for its equity awards in accordance with ASC 718 - Compensation-Stock Compensation ("ASC 718").

Restricted Stock Units

Under ASC 718, stock based compensation expense for restricted stock units ("RSUs") is based on the grant date fair value of the equity awards and is recognized over the requisite service or performance period. If awards are forfeited prior to vesting, the Company will reverse any previously recognized expense related to such awards in the period during which the forfeiture occurs.

Performance Stock Units

Under ASC 718, stock based compensation expense for performance stock units ("PSUs") is recorded at fair value of the equity award and is recognized over the performance period whether or not the performance hurdles are achieved. The fair value of the PSUs are determined using a Monte Carlo simulation for the future stock price of the Company and its corresponding peer group over the performance period. If awards are forfeited prior to vesting, the Company will reverse any previously recognized expense related to such awards in the period during which the forfeiture occurred. If performance hurdles are not met as of the last day of the performance period, the units are cancelled and no reversal of previously recognized expense is recorded for the cancelled units.

Earnings Per Share

The Company calculates earnings per share ("EPS") in accordance with ASC 260 – Earnings Per Share ("ASC 260"). Under ASC 260, non-vested share-based payment awards that contain non-forfeitable rights to dividends are participating securities and, therefore, are included in computing basic EPS pursuant to the two-class method. GAAP requires use of the two-class method in computing earnings per share for all periods presented for each class of common stock and participating securities as if all earnings for the period had been distributed. Under the two-class method, during periods of net income, the net income is first reduced for dividends declared on all classes of securities to arrive at undistributed earnings. During periods of net losses, the net loss is reduced for dividends declared on participating securities only if the security has the right to participate in the earnings of the entity and an objectively determinable contractual obligation to share in net losses of the entity. The Company's participating securities are not allocated a share of the net loss, as the participating securities do not have a contractual obligation to share in the net losses of the Company.

Noncontrolling Interests

Noncontrolling interests represent limited partnership interest in the Operating Partnership not held by the Company. Noncontrolling interests in the Operating Partnership are shown in the consolidated statements of changes in equity.

Reclassifications

Certain prior year balances have been reclassified to conform to our current year presentation of compensation expense and property expenses.

Note 2 - Basis of Presentation and Summary of Significant Accounting Policies (continued)

Recently Adopted Accounting Pronouncements

Description	Effective Date	Effect on Financial Statements
In June 2016, the FASB issued ASU 2016-13, Financial Instruments — Credit Losses, which changes the impairment model for most financial assets and certain other instruments. For trade and other receivables, held-to-maturity debt securities, loans and other instruments, companies will be required to use a new forward-looking “expected loss” model that generally will result in the earlier recognition of allowances for losses. In November 2018, the FASB issued ASU 2018-19, Codification Improvements to Topic 326, Financial Instruments — Credit Losses, which among other updates, clarifies that receivables arising from operating leases are not within the scope of this guidance and should be evaluated in accordance with Topic 842.	January 1, 2023	The adoption of this standard did not have a material impact on the Company’s consolidated financial statements due to the limited nature of financial assets held by the Company subject to ASU 2016-13.

Recently Issued Accounting Pronouncements

Description	Effective Date	Effect on Financial Statements
In November 2023, the FASB issued ASU 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures (“ASU 2023-07”). ASU 2023-07 aims to improve reportable segment disclosure requirements, primarily through enhanced disclosures about significant segment expenses. ASU 2023-07 requires disclosure of significant segment expenses that are regularly provided to the chief operating decision maker and included within each reported measure of segment profit or loss. The update also requires disclosure regarding the chief operating decision maker and expands the interim segment disclosure requirements.	For fiscal years beginning after December 15, 2023, and interim periods within fiscal years beginning after December 15, 2024, with early adoption permitted.	The Company is currently evaluating the impact of ASU 2023-07 on its consolidated financial statements.
In December 2023, the FASB issued ASU 2023-09, Income Taxes (Topic 740): Improvements to Income Tax Disclosures (“ASU 2023-09”). ASU 2023-09 requires entities to disclose additional information with respect to the effective tax rate reconciliation and to disclose the disaggregation by jurisdiction of income tax expense and income taxes paid.	For fiscal years beginning after December 15, 2024, with early adoption permitted.	The Company is currently evaluating the impact of ASU 2023-09 on its consolidated financial statements.

Note 3 - Real Estate (continued)

Real Estate Acquisitions

2023 Acquisitions

During the year ended December 31, 2023, the Company exercised its option to acquire an adjacent parcel of land to expand its cultivation facility in Missouri and invested approximately \$350 thousand and committed to fund \$16.2 million to expand the facility (refer to the Tenant Improvements ("TI") table below).

The following table presents the real estate acquisitions for the year ended December 31, 2023 (in thousands):

Tenant	Market	Site Type	Closing Date	Real Estate Acquisition Costs
Bloom Medicinal	Missouri	Cultivation	March 3, 2023	\$ 350
Total				\$ 350

2022 Acquisitions

During the year ended December 31, 2022, the Company invested approximately \$67.0 million to acquire four cultivation facilities and one dispensary. Included in the acquisitions is the August 5, 2022 conversion of the \$30.0 million mortgage loan with Hero Diversified Associates, Inc ("HDAI") to a sale leaseback with Calypso Enterprises.

The following table presents the real estate acquisitions for the year ended December 31, 2022 (in thousands):

Tenant	Market	Site Type	Closing Date	Real Estate Acquisition Costs⁽¹⁾
Bloom Medicinals	Missouri	Cultivation	April 1, 2022	\$ 7,301 ⁽²⁾
Ayr Wellness, Inc.	Pennsylvania	Cultivation	June 30, 2022	14,529
Ayr Wellness, Inc.	Nevada	Cultivation	June 30, 2022	13,579
Calypso	Pennsylvania	Cultivation	August 5, 2022	30,000 ⁽³⁾
PharmaCann	Ohio	Dispensary	November 3, 2022	1,550
Total				\$ 66,959

(1) Includes the purchase price (and in some cases, transaction costs that have been capitalized into the purchase price) and tenant improvement commitments funded at closing, if any, as of December 31, 2022. Excludes tenant improvement commitments not funded as of December 31, 2022.

(2) Includes approximately \$5.0 million of tenant improvements funded at closing of the property.

(3) The Company entered into a \$0.0 million mortgage loan on October 29, 2021, which converted to real estate through a sale leaseback transaction on August 5, 2022.

Note 3 - Real Estate (continued)

Tenant Improvements Funded

2023 Tenant Improvements

During the year ended December 31, 2023, the Company funded approximately \$14.4 million of tenant improvements. The following table presents the tenant improvements funded for the year ended December 31, 2023 (in thousands):

Tenant	Market	Site Type	Closing Date	TI Funded	Unfunded Commitments
Mint	Arizona	Cultivation	June 24, 2021	\$ 4,281	\$ 3,788 ⁽¹⁾
Organic Remedies	Missouri	Cultivation	December 20, 2021	282	—
Bloom Medicinal	Missouri	Cultivation	April 1, 2022	7,858	8,826
Ayr Wellness, Inc.	Pennsylvania	Cultivation	June 30, 2022	—	750
Calypso	Pennsylvania	Cultivation	August 5, 2022	2,013	987
Total				\$ 14,434	\$ 14,351

(1) Effective June 1, 2023, the lease agreement was amended to include an additional TI commitment of approximately \$ 6.5 million.

2022 Tenant Improvements

During the year ended December 31, 2022, the Company funded approximately \$45.2 million of tenant improvements. The following table presents the tenant improvements funded for the year ended December 31, 2022 (in thousands):

Tenant	Market	Site Type	Closing Date	TI Funded	Unfunded Commitments
Curaleaf	Florida	Cultivation	August 4, 2020	\$ 20,983 ⁽¹⁾	\$ —
Mint	Massachusetts	Cultivation	April 1, 2021	349	—
Mint	Arizona	Cultivation	June 24, 2021	7,415	1,554 ⁽²⁾
PharmaCann	Massachusetts	Dispensary	March 17, 2021	25	—
Trulieve	Pennsylvania	Cultivation	March 17, 2021	7,046 ⁽³⁾	—
Organic Remedies	Missouri	Cultivation	December 20, 2021	4,745	282
Bloom Medicinal	Missouri	Cultivation	April 1, 2022	4,682	534 ⁽³⁾⁽⁴⁾
Ayr Wellness, Inc.	Pennsylvania	Cultivation	June 30, 2022	—	750
Total				\$ 45,245	\$ 3,120

(1) On June 16, 2022, the Company funded the expansion of an existing property.

(2) The tenant had been paying rent for the remaining commitment since July 2022 in accordance with the lease agreement.

(3) The tenant had been paying rent for the TI since December 2021 in accordance with the lease agreement. As of May 2022, the TI had been fully funded.

(4) The unfunded commitments did not include an option, because the Company did not have an obligation to acquire the adjacent property from an existing tenant and fund TIs.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 3 - Real Estate (continued)
Disposal of Real Estate

On October 27, 2023, the Company closed on the sale of its property in Palmer, Massachusetts, for \$2.0 million, which was leased to Mint. The Company's investment in the property was \$1.9 million. Upon closing, Mint's lease agreement was terminated and they paid a portion of the closing costs, resulting in a break-even sale of the property. Therefore, the Company did not recognize a gain or loss on sale of the property.

On March 21, 2022, the Company sold one of its Massachusetts properties for approximately \$0.8 million, which was leased to PharmaCann. The Company recognized a loss on sale of the property of approximately \$60 thousand. PharmaCann continued to pay rent for the sold Massachusetts property through increased rent payments from each of the remaining two properties leased by PharmaCann until a suitable replacement property was found. On November 3, 2022, a replacement property in Wapakoneta, OH was acquired by the Company and leased to PharmaCann.

Construction in Progress

Construction in progress was \$24.2 million and \$12.1 million on December 31, 2023 and 2022, respectively and is included in "Buildings and Improvements" in the accompanying consolidated balance sheets.

2023 Construction in Progress

The following table summarizes the construction in progress balance for the year ended December 31, 2023 (in thousands):

Tenant	Site Type	Beginning Balance 01/01/2023	Fundings	Placed-in-Service	Ending Balance 12/31/2023
Mint	Cultivation	\$ 1,569	\$ (1,569) ⁽¹⁾	\$ —	\$ —
Mint	Cultivation	10,541	4,281	—	14,822
Bloom Medicinals	Cultivation	—	7,324	—	7,324
Calypso	Cultivation	—	2,013	—	2,013
		<u>\$ 12,110</u>	<u>\$ 12,049</u>	<u>\$ —</u>	<u>\$ 24,159</u>

(1) These tenant improvements were never placed in service. The property was sold on October 27, 2023.

2022 Construction in Progress

The following table summarizes the construction in progress balance for the year ended December 31, 2022 (in thousands):

Tenant	Site Type	Beginning Balance 01/01/2022	Fundings	Placed-in-service	Ending Balance 12/31/2022
Trulieve	Cultivation	\$ 8,453	\$ 7,047	\$ (15,500)	\$ —
PharmaCann	Dispensary	269	(269) ⁽¹⁾	—	—
Mint	Cultivation	1,220	349	—	1,569
Mint	Cultivation	3,127	7,414	—	10,541
Organic Remedies	Cultivation	—	4,745	(4,745)	—
Bloom Medicinals	Cultivation	—	9,468	(9,468)	—
		<u>\$ 13,069</u>	<u>\$ 28,754</u>	<u>\$ (29,713)</u>	<u>\$ 12,110</u>

(1) These tenant improvements were never placed in service. The property was sold on March 21, 2022.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 3 - Real Estate (continued)***Depreciation and Amortization***

Depreciation expense on the Company's real estate assets was approximately \$12.3 million and \$10.6 million for the years ended December 31, 2023 and 2022, respectively.

Amortization of the Company's acquired in-place lease intangible assets were approximately \$2.0 million and \$2.2 million for the years ended December 31, 2023 and 2022, respectively. Acquired in-place lease intangible assets have a weighted average remaining amortization period of 10.2 years.

In-place Leases

The following table presents the future amortization of the Company's acquired in-place leases as of December 31, 2023 (in thousands):

Year	Amortization Expense	
2024	\$	1,985
2025		1,985
2026		1,985
2027		1,985
2028		1,985
Thereafter		9,854
Total	\$	19,779

Impairment

The Company reviewed tenant activities and changes in the business condition of all of its properties and there were no triggering events or impairment indicators as of December 31, 2023 and 2022, requiring an impairment loss to be recognized.

Note 4 – Leases***As Lessor***

The Company's properties are leased to single tenants on a long-term, triple-net basis, which obligates the tenant to be responsible for the ongoing expenses of a property, in addition to its rent obligations. Under certain circumstances the Company will pay for certain expenses on behalf of the tenant and the tenant is required to reimburse the Company. The presentation in the statement of operations for these expenses are gross where the Company records revenue and a corresponding reimbursable expense. Expenses paid directly by a tenant are not reimbursable and therefore not reflected in the statement of operations. The expense and reimbursable amounts may differ due to timing. The revenues associated with the reimbursable expenses were classified in "Fees and Reimbursables" in the accompanying consolidated statements of operations. For the year ended December 31, 2023 and 2022, the reimbursable revenues were \$255.8 thousand and \$206.3 thousand, respectively. Reimbursable expenses are classified as "Property Expenses" in the accompanying consolidated statements of operations.

The Company's tenants operate in the cannabis industry. All of our leases generally contain annual increases in rent (typically between 2% and 3%) over the expiring rental rate at the time of expiration. Certain of our leases also contain a Tenant Improvement Allowance ("TIA"). TIA is generally available to be funded between 12 and 18 months. In some leases, the tenant becomes liable to pay rent as if the full TIA has been funded, even if there are still unfunded commitments. TIA also contains annual increases which generally increase at the same rate as

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 4 – Leases (continued)

base rent, per the lease agreement. Certain of the Company's leases provide the lessee with a right of first refusal or right of first offer in the event the Company markets the leased property for sale. Two of the Company's leases that were entered into in December 2019 provide the lessee with a purchase option to purchase the leased property at the end of the initial lease term in December 2029, subject to the satisfaction of certain conditions. The purchase option provision allows the lessee to purchase the leased property for an amount based on the fair market value of the Company's investment. As of December 31, 2023, the Company's gross investment in these two properties was approximately \$6.3 million.

Lease Amendments

Revolutionary Clinics

On October 27, 2023, the Company entered into a lease amendment and forbearance agreement (the "Agreements") for its existing lease agreement with Revolutionary Clinics on its cultivation facility in Massachusetts, where Revolutionary Clinics is the sole tenant. Under the terms of the Agreements, the lease term was extended by 5 years, the Company received \$480 thousand of unpaid rent and applied the remaining \$315 thousand of security deposit. Under the terms of the Agreements, the rental payments have annual fixed escalations and may also escalate as the tenant's business achieves certain gross revenue metrics based on a trailing 12 months and calculated quarterly. Under the forbearance agreement, the Company provided forbearance for approximately \$2.0 million of back rental income, fees and reimbursable expenses. Lastly, the Company received warrants which if exercised will entitle the Company to receive 26,058 of common units in Revolutionary Clinics. Refer to Note 10 for additional details.

Calypso Enterprises

On November 15, 2023, the Company's tenant Calypso Enterprises ("Calypso") was sold by its parent HDAI to Canvas Acquisition Corporation, LLC ("Canvas") an independent third party, whose parent replaced HDAI as the lease guarantor. In connection with the sale, the Company and Canvas agreed to certain revised terms through a lease amendment. Under the terms of the amendment, the Company reduced the rent payments, provided up to \$3.0 million in tenant improvements allowance, provided an option to purchase the property at the Company's cost basis, (inclusive of funding the \$3.0 million of tenant improvements), and received 6 months of rent escrow, among other provisions. The purchase option is exercisable from December 1, 2024 through December 31, 2025, with notice to be delivered no later than December 31, 2024. In the event the purchase option is exercised prior to December 31, 2025, the Company would receive a make-whole rent payment for rent through December 31, 2025.

As compensation for providing such lease modifications, HDAI agreed to pay the Company approximately \$1.5 million of additional rent to be paid in 5 installments over 18 months from November 15, 2023.

Note 4 – Leases (continued)

Lease Income

The following table presents the future contractual minimum rent under the Company's operating leases as of December 31, 2023 (in thousands):

Year	Contractual Minimum Rent ⁽¹⁾
2024	\$ 49,390
2025	51,421
2026	52,966
2027	54,345
2028	55,760
Thereafter	544,835
Total	\$ 808,717

includes future contractual minimum rent from the Company's existing lease agreements as of December 31, 2023.

(1) This table

Credit Risk and Geographic Concentration

The ability of any of the Company's tenants to honor the terms of its lease are dependent upon the economic, regulatory, competition, natural and social factors affecting the community in which that tenant operates.

As of December 31, 2023, the Company owned 31 properties leased to 13 tenants across 12 states including Arizona, Arkansas, California, Connecticut, Florida, Illinois, Massachusetts, Missouri, Nevada, North Dakota, Ohio, and Pennsylvania. During the year ended December 31, 2022, the Company owned 32 properties leased to 13 tenants across 12 states.

Credit Risk Concentration

The following table presents the tenants in the Company's portfolio that represented the largest percentage of the Company's total rental revenue, excluding reimbursable revenues, for each of the periods presented:

For the Year Ended December 31,					
2023			2022		
Tenant	Number of Leases	Percentage of Rental Revenue ⁽¹⁾	Tenant	Number of Leases	Percentage of Rental Revenue ⁽¹⁾
Curaleaf	10	24%	Curaleaf	10	24%
Cresco Labs	1	14%	Cresco Labs	1	15%
Trulieve	1	12%	Trulieve	1	13%
Columbia Care	5	9%	Revolutionary Clinics	1	12%
Calypso	1 ⁽²⁾	7%	Columbia Care	5	10%

based on rental income received during the period. This amount excludes revenue reimbursements.

(2) This tenant held a mortgage loan during the six months ended June 30, 2022, therefore the Company received interest income rather than rental income during that period. In August 2022, the mortgage loan converted to a twenty year sale-leaseback.

Note 4 – Leases (continued)

Geographic Concentration

The following table presents the states in the Company's portfolio that represented the largest percentage of the Company's total rental income, excluding reimbursable revenues, for each of the periods presented:

For the Year Ended December 31,					
2023			2022		
State	Number of Properties	Percentage of Rental Income	State	Number of Properties	Percentage of Rental Income
Pennsylvania	7	27%	Pennsylvania	7	23%
Florida	1	20%	Massachusetts	7 ⁽²⁾	21%
Illinois	7	19%	Illinois	7	20%
Massachusetts	6 ⁽¹⁾	14%	Florida	1	19%
Missouri	2	9%	Missouri	2	7%

the number of properties and revenue is one Massachusetts property sold in October 2023.

(2) Included in the number of properties and revenue is one Massachusetts property sold in March 2022.

(1) Included in

As Lessee

As of December 31, 2023 the Company was the lessee under one office lease for a term of four years, subject to annual escalations. The annual rent payments range from approximately \$72.0 thousand in year one to approximately \$85.0 thousand in year four. The office lease qualifies under the right-of-use ("ROU") model. Upon entering into the lease in June 2022, the Company recorded a ROU asset of \$273 thousand which is classified in "Other Assets" and a lease liability, which is classified in "Other Liabilities" in the accompanying consolidated balance sheets. The ROU asset is amortized over the remaining lease term. The amortization is made up of the principal amortization under the lease liability plus or minus the straight-line adjustment of the operating lease rent.

The following table presents the future contractual rent obligations as lessee as December 31, 2023 (in thousands):

Year	Amount
2024	\$ 75
2025	77
2026	52 ⁽¹⁾
Total Future Contractual Lease Payments	\$ 204
Amount Discounted Using Incremental Borrowing Rate	(19)
Total Lease Liability	\$ 185

(1) The lease is scheduled to expire in August 31, 2026. The lease allows for one renewal option of 3 years commencing immediately upon the expiration of the initial term.

As of December 31, 2023, the weighted-average discount rate used to calculate the lease liability was 5.65% and remaining lease term was 2.7 years.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 5 – Loan Receivable, net***Loan Receivable***

The Company funded a \$5.0 million unsecured loan to Bloom Medicinals on June 10, 2022. The loan initially bore interest at a rate of 0.25% and is structured to increase annually in April by the product of 1.0225 times the interest rate in effect immediately prior to the anniversary date. The loan is interest only for the first four years and can be prepaid at any time without penalty. If full principal payment on the loan is not made on June 30, 2026, the loan will begin amortizing principal and interest over the next 5 years, with a final maturity of June 30, 2031. The loan is cross defaulted with their lease agreement with the Company. As of December 31, 2023 and December 31, 2022, the loan earned interest at a rate of 10.48% and 10.25%, respectively, and the aggregate principal amount outstanding on the unsecured loan receivable as of December 31, 2023 and 2022 was \$5.0 million.

CECL Reserve

The Company recorded a provision for current expected credit loss on the \$5.0 million unsecured loan (discussed above). Estimating the CECL allowance for credit loss requires significant judgement. The Company used a discounted cash flow analysis to determine the expected credit loss of approximately \$167 thousand as of December 31, 2023, which is included in “Other Expense” on the consolidated statement of operations.

Note 6 – Financings***Loan Payable, net***

In connection with the purchase and leaseback of a cultivation facility in Chaffee, Missouri on December 20, 2021, the Company entered into a \$8 million loan payable to the seller, which is an independent third party from the tenant. The loan bears interest at a rate of 4.0% per annum. Principal on the loan is payable in annual installments of which \$1.8 million and \$1.0 million were paid in January 2022 and January 2023, respectively. The remaining principal of \$1.0 million and accrued interest is payable in January 2024 (refer to Note 16 for further information on the repayment). The discount has been fully amortized as of December 31, 2023 and the loans outstanding principal balance as of December 31, 2023 and 2022 was \$1.0 million and \$2.0 million, respectively.

Revolving Credit Facility

On May 6, 2022, the Company's Operating Partnership entered into a loan and security agreement (the “Loan and Security Agreement”) with a commercial federally regulated bank, as a lender and as agent for lenders that become party thereto from time to time (the “Agent”). The Loan and Security Agreement matures on May 6, 2027. The Loan and Security Agreement provides, subject to the Accordion Feature described below, \$30.0 million in aggregate commitments for secured revolving loans (“Revolving Credit Facility”), the availability of which is based on a borrowing base consisting of fee simple owned real properties that satisfy eligibility criteria specified in the Loan and Security Agreement and the lease income thereunder which are owned by certain subsidiaries of the Operating Partnership.

On July 29, 2022, the Operating Partnership entered into an amendment to the Revolving Credit Facility, amending the Loan and Security Agreement, to increase the aggregate commitment under the Revolving Credit Facility from \$30.0 million to \$90.0 million and added two additional lenders. The Loan and Security Agreement also allows the Company, subject to certain conditions, to request additional revolving incremental loan commitments such that the Revolving Credit Facility may be increased to a total aggregate principal amount of up to \$100.0 million. Borrowings under the Revolving Credit Facility may be voluntarily prepaid and re-borrowed, subject to certain fees.

The Revolving Credit Facility bears a fixed rate of 5.65% for the first three years and thereafter a variable rate based upon the greater of (a) the Prime Rate quoted in the Wall Street Journal (Western Edition) (“Base Rate”) plus an applicable margin of 1.0% or (b) 4.75%.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 6 – Financings (continued)

As of December 31, 2023 and 2022, the Company had outstanding borrowings of \$1.0 million under its Revolving Credit Facility, respectively. As of December 31, 2023, \$89.0 million in funds available to be drawn, subject to sufficient collateral in the borrowing base.

The facility is subject to certain liquidity and operating covenants and includes customary representations and warranties, affirmative and negative covenants and events of default. As of December 31, 2023, the Company was in compliance with the terms of such covenants under the agreement.

Note 7 - Related Party Transactions***Investor Rights Agreement***

Pursuant to our Investor Rights Agreement (the “Investor Rights Agreement”) HG Vora Capital Management, LLC (“HG Vora”), West Investment Holdings, LLC, West CRT Heavy, LLC, Gary and Mary West Foundation, Gary and Mary West Health Endowment, Inc., Gary and Mary West 2012 Gift Trust and WFI Co-Investments acting unanimously, collectively referred to as the “West Stockholders and NL Ventures, LLC (“Pangea”) hold certain nomination rights with respect of members to our board of directors so long as they individually own in the aggregate certain percentages of the Company’s issued and outstanding common stock for 60 consecutive days.

Separation and Retirement of Executive Officers

There were no severance costs incurred by the Company during the year ended December 31, 2023. In connection with the separation agreements of the former chief financial officer in June 2022 and the former chief executive officer in July 2022, the Company incurred one-time severance costs of approximately \$1.8 million, which were included in “Compensation Expense” on our consolidated statement of operations for the year ended December 31, 2022.

Note 8 - Noncontrolling Interests

The Company’s noncontrolling interests represent limited partnership interests in the Operating Partnership not held by the Company. Noncontrolling interests represented 1.8% and 1.7% ownership interest in the Operating Partnership at December 31, 2023 and 2022, respectively.

The following table presents the activity for the Company’s noncontrolling interests issued by the Operating Partnership for the years ended December 31, 2023 and 2022:

	2023			2022		
	OP Units	Noncontrolling Interests %		OP Units	Noncontrolling Interests %	
Balance at January 1,	373,582	1.7	%	453,303	2.1	%

Balance at December 31,	373,582	1.8	%	373,582	1.7	%

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 9 - Stock Based Compensation

The Company's board of directors adopted our 2021 Equity Incentive Plan (the "Plan"), to provide employees of the Company and its subsidiaries, certain consultants and advisors who perform services for the Company or its subsidiaries, and non-employee members of the board of directors of the Company with the opportunity to receive grants of incentive stock options, nonqualified stock options, stock appreciation rights, stock awards, stock units, other stock-based awards, and cash awards to enable the Company to motivate, attract and retain the services of directors, officers and employees considered essential to the long term success of the Company. Under the terms of the Plan, the aggregate number of shares of awards will be no more than 2,275,727 shares. If and to the extent shares of awards granted under the Plan, expire or are canceled, forfeited, exchanged or surrendered without having been exercised, or if any stock awards, stock units or other stock-based awards are forfeited, terminated or otherwise not paid in full, the shares subject to such grants shall again be available for issuance or transfer under the Plan. The Plan has a term of ten years until August 12, 2031. As of December 31, 2023 and 2022, there were 1,950,251 and 2,081,600 shares, respectively, available for issuance under the Plan, which assumes maximum performance is achieved with respect to PSUs.

Restricted Stock Units

Restricted Stock Units ("RSU, RSUs") are granted to certain directors, officers and employees of the Company. Per the terms of the agreements, certain director RSUs that vest cannot be converted until the director separates from the Company. Total outstanding RSUs as of December 31, 2023 and 2022 were 100,434 and 47,789, respectively.

Unvested Restricted Stock Units

The following table sets forth the Company's unvested RSU activity for the years ended December 31, 2023 and 2022:

	2023		2022	
	Number of Unvested Shares of RSUs	Weighted-Average Grant Date Fair Value Per Share	Number of Unvested Shares of RSUs	Weighted-Average Grant Date Fair Value Per Share
Balance at January 1,	29,255	\$ 22.89	45,018	\$ 27.49
Granted	59,031	\$ 12.87	19,362	\$ 20.54
Forfeited	—	\$ —	(8,566)	\$ 27.49
Vested	(24,704) ⁽¹⁾	\$ 22.04	(26,559)	\$ 27.49
Balance at December 31,	63,582	\$ 13.92	29,255	\$ 22.89

(1) Vested shares does not include 2,666 shares withheld to satisfy tax and other compensation related withholdings associated with the vested RSUs issued under the 2021 Equity Incentive Plan.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 9 - Stock Based Compensation (continued)

Vested Restricted Stock Units

The following table sets forth the Company's vested RSU activity for the years ended December 31, 2023 and 2022:

	2023		2022	
	Number of Vested Shares of RSUs	Weighted Average Grant Date Fair Value Per Share	Number of Vested Shares of RSUs	Weighted Average Grant Date Fair Value Per Share
Balance at January 1,	18,534	\$ 23.93	131,807	\$ 21.31
Vested	24,704	\$ 22.04	26,559	\$ 27.49
Converted	(6,386) ⁽¹⁾	\$ 27.49	(139,832) ⁽²⁾	\$ 22.13
Balance at December 31,	36,852	\$ 22.05	18,534	\$ 23.93

(1) Represents the gross number of RSUs vested, which includes 2,666 shares withheld for taxes and not converted to common stock.

(2) Represents the gross number of RSUs vested, which includes 7,273 shares withheld for taxes and not converted to common stock.

Each RSU represents the right to receive one share of common stock upon vesting. The vested RSUs are also entitled to receive an accumulated dividend payment equal to the dividends paid on each share of common stock during the vesting period. During the years ended December 31, 2023 and 2022, the Company paid \$35,264 and \$17,628, respectively of accumulated dividends that became earned upon vesting of RSUs. Accrued unearned dividends on unvested RSUs as of December 31, 2023 and 2022 were \$114,189 and \$38,575, respectively.

The amortization of compensation costs for the awards of RSUs are classified in "Compensation Expense" in the accompanying consolidated statements of operations and amounted to approximately \$0.7 million and \$0.9 million for the years ended December 31, 2023 and 2022, respectively. Included in the \$0.9 million of stock-based compensation for the year ended December 31, 2022, is approximately \$0.2 million of accelerated expense related to the retirement and separation of certain officers. There was no accelerated expense during the year ended December 31, 2023. The remaining unrecognized compensation cost of approximately \$0.6 million for RSU awards is expected to be recognized over a weighted average amortization period of 1.1 years as of December 31, 2023.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 9 - Stock Based Compensation (continued)

Performance Stock Units

Performance Stock Units (“PSU, PSUs”) are granted to officers and certain employees of the Company. Total outstanding PSUs as of December 31, 2023 and 2022 were 103,000 and 66,841, respectively.

The following table sets forth the Company’s unvested performance stock activity for the years ended December 31, 2023 and 2022:

	2023		2022	
	Number of Unvested Shares of PSUs	Weighted-Average Grant Date Fair Value Per Share	Number of Unvested Shares of PSUs	Weighted-Average Grant Date Fair Value Per Share
Balance at January 1,	66,841	\$ 24.04	77,742	\$ 24.04
Granted	55,017	11.23	-	-
Cancelled	(18,858) ⁽¹⁾	24.15	-	-
Forfeited	-	-	(10,901)	24.03
Balance at December 31,	103,000	\$ 17.18	66,841	\$ 24.04

(1) The Company did not meet the performance hurdles for 8,858 PSUs granted on December 14, 2021. Accordingly, the awards were not issued on December 31, 2023, which was the end of the performance period. Under the terms of the Plan, the canceled PSUs were recycled back into the Plan.

PSUs vest subject to the achievement of relative total shareholder return as measured against a peer group of companies and absolute compounded annual growth in stock price during each performance period. The actual number of shares of common stock issued will range from 0 to 206,000 depending upon performance. The performance periods are January 1, 2022 through December 31, 2024, and January 1, 2023 through December 31, 2025 and 47,983 and 55,017 PSUs are scheduled to vest at the end of each performance period, respectively.

The fair value of PSUs is determined using a Monte Carlo simulation for our future stock price and the corresponding peer group. The grant date fair value is an equally weight value comprised of (i) total shareholder return of the Company and a peer group of companies (“rTSR”); and (ii) the Company’s absolute compound annual growth rate (“CAGR”). To derive the value of rTSR, the Company uses a stochastic stock price simulation model using Geometric Brownian Motion (“GBM”) to model the future stock prices of the Company and the peer group companies. The key inputs to the GBM model include the standard deviation of the movement of the share price, also expressed as stock price volatility. Historical volatility is analyzed for the Company and peer group companies based on publicly traded shares of common stock. The model also assists in deriving a value of the Company’s CAGR which is then subjected to the vesting percentages according to the terms of the PSU agreements. The key inputs to calculate CAGR are the ending stock price, initial stock price and vesting period. The GBM simulates the ending stock price that is used in the CAGR model to determine the grant date fair value.

Using the above methodology, grant date fair values of \$24.00 and \$11.23 were used for PSUs with performance periods ending December 31, 2024 and 2025, respectively. PSUs are subject to restrictions on transfer and may be subject to a risk of forfeiture if the award recipient ceases to be an employee of the Company prior to vesting of the award.

Each PSU represents the right to receive one share of common stock upon vesting. Upon vesting each PSU is also entitled to receive an accumulated dividend payment equal to the dividend paid on each share of common stock during the performance period. If PSUs do not meet the performance hurdles and are cancelled, no dividends are paid on the cancelled units. During the years ended December 31, 2023 and 2022, no PSUs vested and therefore the Company did not pay any dividends. Unearned dividends on unvested PSUs as of December 31, 2023 and 2022 were \$245,680 and \$116,972, respectively.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 9 - Stock Based Compensation (continued)

The amortization of compensation costs for the awards of PSUs are classified in “Compensation Expense” in the accompanying consolidated statements of operations and amounted to approximately \$0.8 million and \$0.6 million for the years ended December 31, 2023 and 2022, respectively. The remaining unrecognized compensation cost of approximately \$0.8 million for PSU awards is expected to be recognized over a weighted average amortization period of 1.5 years as of December 31, 2023.

Stock Options

Prior to the completion of the IPO, the Company issued 791,790 nonqualified stock options (the “Options”) to purchase shares of the Company’s common stock, subject to the terms and conditions of the applicable option grant agreements, with an exercise price per share of common stock equal to \$24.00 and in such amounts as set forth in the option grant agreements. The Options vested on August 31, 2020. As of December 31, 2023 and 2022, the Options were fully exercisable and expire on July 15, 2027.

Note 10 - Warrants

Warrants Issued

On March 17, 2021, the Company entered into a warrant agreement which granted the holder the right to purchase 602,392 shares of common stock of the Company at a purchase price of \$24.00 per share. Warrants were immediately exercisable and expire on July 15, 2027. As of December 31, 2023 and 2022, the warrants were fully exercisable.

Investment in Warrants

On October 27, 2023, the Company entered into a lease amendment and forbearance agreement for its existing lease agreement with Revolutionary Clinics on its cultivation facility in Massachusetts. Under the forbearance agreement, the Company provided forbearance of 7 months of delinquent rent and received warrants. The warrants are accounted for under ASC 321. The Company elected to use the measurement alternative to value its investment in warrants, since the fair value was not readily determinable. The investment in warrants is classified in “Other Assets” in the consolidated balance sheets at its initial cost value of \$522 thousand. The cost value was determined based upon the implied recapitalized equity value of Revolutionary Clinics.

Note 11 - Stockholder’s Equity

Preferred Stock

On September 15, 2022, the board of directors approved all 125 authorized but unissued shares of the Company’s 12.5% Series A Redeemable Cumulative Preferred Stock to be reclassified into shares of preferred stock of the Company, \$0.01 par value per share, without designation as to class or series.

As of December 31, 2023 and 2022, the Company had 100,000,000 shares of preferred stock authorized and 0 shares of Series A preferred stock outstanding.

Common Stock

On August 13, 2021, the Company completed its IPO of 3,905,950 shares of common stock, with a par value of \$0.01 per share.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 11 - Stockholder's Equity (continued)

Stock Repurchase Program

On November 7, 2022, the board of directors of the Company authorized a stock repurchase program of its common stock up to \$0.0 million through December 31, 2023. Purchases made pursuant to the stock repurchase program will be made in the open market, in privately negotiated transactions, or pursuant to any trading plan that may be adopted in accordance with Rule 10b-18 of the Securities and Exchange Act of 1934, as amended. The authorization of the stock repurchase program does not obligate the Company to acquire any particular amount of common stock. The timing, manner, price and amount of any repurchases will be determined by the Company in its discretion and will be subject to economic and market conditions, stock price, applicable legal requirements and other factors. On September 15, 2023, the board of directors authorized an amendment to the stock repurchase program of up to an additional \$10.0 million of outstanding common stock and extended the program through December 31, 2024. The stock repurchase program may be suspended or discontinued by us at any time and without prior notice.

During the year ended December 31, 2023, pursuant to the stock repurchase program, the Company acquired 908,394 shares of common stock with an average purchase price, including commissions of \$13.00 totaling approximately \$11.8 million. The remaining availability under the stock repurchase program as of December 31, 2023 was approximately \$8.2 million. The Company did not repurchase any shares of common stock under the stock repurchase program during the year ended December 31, 2022.

Conversion of OP Units

There were no OP Units converted to common stock during the year ended December 31, 2023. During the year ended December 31, 2022, 79,721 OP Units were converted one for one into shares of the Company's common stock.

Conversion of RSUs

During the year ended December 31, 2023 and 2022, 3,720 and 92,559 RSUs were converted into shares of our common stock.

Note 12 - Earnings Per Share

The following table presents the computation of basic and diluted earnings per share (in thousands, except share data):

	For the Year Ended December 31,	
	2023	2022
Numerator:		
Net Income Attributable to Common Stockholders	\$ 24,585	\$ 21,976
Add: Net Income Attributable to Noncontrolling Interest	438	380
Net Income Attributable to Common Stockholders - Diluted	25,023	22,356
Denominator:		
Weighted Average Shares of Common Stock Outstanding - Basic	21,169,010	21,418,484
Dilutive Effect of OP Units	373,582	392,305
Dilutive Effect of Unvested Restricted Stock Units	6,384	—
Weighted Average Shares of Common Stock - Diluted	21,548,976	21,810,789
Earnings Per Share - Basic		
Net Income Attributable to Common Stockholders	<u>\$ 1.16</u>	<u>\$ 1.03</u>
Earnings Per Share - Diluted		
Net Income Attributable to Common Stockholders	<u>\$ 1.16</u>	<u>\$ 1.03</u>

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 12 - Earnings Per Share (continued)

During the year ended December 31, 2023, the effect of including OP Units and unvested RSUs were included in the Company's calculation of weighted average shares of common stock outstanding – diluted. The effect of 175,952 and 602,392 outstanding stock options and warrants, respectively, were excluded in the Company's calculation of weighted average shares of common stock outstanding – diluted as their inclusion would have been anti-dilutive. During the year ended December 31, 2022, the effect of including OP Units was included in the Company's calculation of weighted average shares of common stock outstanding – diluted. The effect of 175,952 and 602,392 outstanding stock options and warrants, respectively, and 29,255 unvested RSUs were excluded in the Company's calculation of weighted average shares of common stock outstanding – diluted as their inclusion would have been anti-dilutive. The Company does not include the effect of outstanding PSUs in the calculation of earnings per share due to the nature of the shares being performance based since there is no guarantee the PSUs will vest and be converted to common stock.

Note 13 - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Accounting guidance also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standards describe three levels of inputs that may be used to measure fair value:

Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Includes other inputs that are directly or indirectly observable in the marketplace.

Level 3 – Unobservable inputs that are supported by little or no market activities, therefore requiring an entity to develop its own assumptions.

The following table presents the carrying value and estimated fair value of financial instruments at December 31, 2023 and 2022 (in thousands):

	December 31, 2023		December 31, 2022	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Note Receivable ⁽¹⁾	\$ 4,833	\$ 4,748	\$ 5,000	\$ 4,952
Revolving Credit Facility ⁽²⁾	\$ 1,000	\$ 968	\$ 1,000	\$ 915
Loan Payable ⁽²⁾	\$ 1,000	\$ 992	\$ 1,986	\$ 1,942

(1) The fair value measurement of the \$ 5.0 million Note Receivable is based on unobservable inputs, and as such, is classified as Level 3. The carrying value reflects the provision for current expected credit loss of \$ 167 thousand

(2) The fair value measurement of the Company's Revolving Credit Facility and Loan Payable is based on observable inputs, and as such, are classified as Level 2.

As of December 31, 2023, the Company's investment in warrants was valued based on the initial investment, less impairment. The Company determined the investment was not impaired as of December 31, 2023. Since these securities are not actively traded, the Company will apply valuation adjustments if and when such indicators become available. As such, these securities are carried at cost and are classified as Level 3 of the fair value hierarchy.

NEWLAKE CAPITAL PARTNERS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2023

Note 13 - Fair Value Measurements (continued)

As of December 31, 2023 and 2022, the carrying amounts of financial instruments such as cash and cash equivalents, accounts payable and accrued expenses, and other liabilities approximate their fair values due to the generally short-term nature and the market rates of interest of these instruments. As such, these financial instruments are classified as Level 1.

Note 14 - Income Taxes

As a REIT, the Company is not subject to federal income tax to the extent that it makes qualifying distributions to its stockholders, and provided it satisfies on a continuing basis, through actual investment and operating results, the REIT requirements including certain asset, income, distribution, and stock ownership tests. The state and local tax jurisdictions for which the Company is subject to tax-filing obligations recognize the Company's status as a REIT, and therefore, the Company generally does not pay income tax in such jurisdictions. The Company may, however, be subject to certain minimum state and local tax filing fees as well as certain excise, franchise, or business taxes.

Taxable REIT Subsidiaries

In October 2023, the Company elected to treat a domestic subsidiary as a TRS. The TRS is subject to U.S. federal, state and local corporate income taxes at the current federal statutory rate of 21%. The Company's effective tax rate differs from its combined U.S. federal, state and local corporate statutory tax rate primarily due to income earned at the REIT, which is not subject to tax, due to the deduction for qualifying distributions made by the Company. For the year ended December 31, 2023, the TRS had limited activity and did not generate taxable income.

Note 15 - Commitments and Contingencies

As of December 31, 2023, the Company had aggregate unfunded commitments to invest \$14.4 million to develop and improve of our existing cultivation facilities in Arizona, Missouri and Pennsylvania. Refer to Note 16- "Subsequent Events" for details on commitments the Company entered into after December 31, 2023.

As of December 31, 2023, the Company is the lessee under one office lease. Refer to Note 4 for further information.

The Company owns a portfolio of properties that it leases to entities which cultivate, harvest, process and distribute cannabis. Cannabis is an illegal substance under the Controlled Substances Act. Although the operations of the Company's tenants are legalized in the states and local jurisdictions in which they operate, the Company and its tenants are subject to certain risks and uncertainties associated with conducting operations subject to conflicting federal, state and local laws in an industry with a complex regulatory environment which is continuously evolving. These risks and uncertainties include the risk that the strict enforcement of federal laws regarding cannabis would likely result in the Company's inability, and the inability of its tenants, to execute their respective business plans.

Note 16 - Subsequent Events***Tenant Improvements***

Subsequent to December 31, 2023, the Company funded approximately \$5.6 million of tenant improvements to our cultivation facilities in Arizona and Missouri.

December 31, 2023

Note 16 - Subsequent Events (continued)

Loan Payable

On January 3, 2024, the Company made its annual principal and interest payment of approximately \$1.0 million on its loan payable to the seller of a cultivation facility in Chaffee, Missouri. This represents the final installment payment on the Company's loan payable.

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13a-14(a) OF THE EXCHANGE ACT, AS AMENDED,
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Anthony Coniglio, certify that:

1. I have reviewed this Annual Report on Form 10-K of NewLake Capital Partners, Inc. (the “registrant”) for the year ended December 31, 2023;
 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flow of the registrant as of, and for, the periods presented in this report;
 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
-

- b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

NEWLAKE CAPITAL PARTNERS, INC.

CLAWBACK POLICY

Introduction

The board of directors (the “**Board**”) of NewLake Capital Partners, Inc. (the “**Company**”) believes that it is in the best interests of the Company to maintain a culture that emphasizes integrity and accountability and that supports and reinforces the Company’s pay-for-performance compensation philosophy. Therefore, the Board has adopted this Clawback Policy (this “**Policy**”) to provide for the recoupment of incentive-based compensation erroneously awarded to the Company’s executive officers and all other employees whose award agreements are subject to this Policy. The purpose of this Policy is to document the Company’s right to recover compensation that the Company determines, in its sole discretion, was unjustly paid to any Covered Individual. This Policy is intended to comply with and supplement, but not limit or constrain, any statutory or regulatory right or obligation of the Company to recover compensation from the Covered Individuals (including, without limitation, the requirements of the Sarbanes-Oxley Act of 2002, Section 16(b) of the Securities Exchange Act of 1934, as amended (the “**Exchange Act**”), and the applicable recoupment provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act).

1. Definitions. Capitalized terms in this Policy have the following meanings:

(a) “**Accounting Restatement**” means an accounting restatement required to be prepared by the Company due to the material noncompliance of the Company with any financial reporting requirement under the U.S. federal securities laws, including any accounting restatement required to correct an error in previously issued financial statements that is material to the previously issued financial statements or that would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period. “Accounting Restatement” does not include any change to the Company’s financial statements that is not made to correct errors, such as, but not limited to, the following: (i) a retrospective application of a change in accounting principle; (ii) a retrospective revision to reportable segment information due to a change in the structure of the Company’s internal organization; (iii) a retrospective reclassification due to a discontinued operation; (iv) a retrospective application of a change in reporting entity, such as from a reorganization of entities under common control; and (v) a retrospective revision for share splits, reverse share splits, share dividends or other changes in capital structure.

(b) “**Committee**” means the Compensation Committee of the Board or, at the Board’s sole discretion, the Board.

(c) “**Covered Individual**” is defined in Section 3 of this Policy.

(d) “**Erroneously Awarded Compensation**” means the amount of Incentive Compensation that was Received that exceeds the amount of Incentive Compensation that otherwise would have been Received had the amount of Incentive Compensation been determined based on the restated Financial Reporting Measures, computed without regard to any taxes paid by the Covered Individual or by the Company on the Covered Individual’s behalf. For Incentive Compensation based on total shareholder return or Company share price, where the amount of Erroneously Awarded Compensation is not subject to mathematical recalculation directly from the information in an Accounting

Restatement, the amount of Erroneously Awarded Compensation will be based on a reasonable estimate by the Committee of the effect of the Accounting Restatement on the share price or total shareholder return upon which the Incentive Compensation was Received. The Company will maintain documentation of the determination of that reasonable estimate and provide such documentation to the Relevant Exchange as required.

(e) **“Financial Reporting Measures”** means (i) measures that are determined and presented in accordance with the accounting principles used in preparing the Company’s financial statements, and any measures that are derived wholly or in part from such measures (whether or not such measures are presented within the Company’s financial statements or included in a filing made with the SEC), (ii) Company share price and (iii) Company total shareholder return.

(f) **“Incentive Compensation”** means a Covered Individual’s cash bonus awarded under the Company’s annual incentive plan and any equity-based awards granted pursuant to the Company’s long-term incentive plans that are earned, paid/granted or vested wholly (or in part) upon the attainment of any Financial Reporting Measure of the Company. For the avoidance of doubt, Incentive-Based Compensation does not include any of the following: (i) annual base salary, (ii) compensation that is awarded based solely on service (e.g., a time-vesting equity award), (iii) bonuses paid solely in the discretion of the Committee, or (iv) compensation that is awarded based on subjective standards, strategic or operational measures.

(g) **“Look-Back Period”** means the three completed fiscal years immediately preceding the earlier of: (i) the date the Board, a committee of the Board or the officer or officers of the Company authorized to take such action if Board action is not required, concludes, or reasonably should have concluded, that the Company is required to prepare an Accounting Restatement; and (ii) the date a court, regulator or other legally authorized body directs the Company to prepare an Accounting Restatement. In addition, if there is a change in the Company’s fiscal year-end, the Look-Back Period will also include any transition period to the extent required by the applicable listing standards of the Relevant Exchange.

(h) **“Received”** means the receipt of Incentive Compensation, which is deemed by this Policy to have occurred in the fiscal year during which the Financial Reporting Measure is attained, even if the payment or grant of the Incentive Compensation occurs after the end of that fiscal year.

(i) **“Relevant Exchange”** means the New York Stock Exchange or the NASDAQ Stock Market LLC (or any other national securities exchange on which the Company’s common stock is then listed).

(j) **“SEC”** means the United States Securities and Exchange Commission.

1. Administration.

This Policy shall be administered by the Committee.

2. Covered Individuals.

This Policy applies to the Company’s current and former executive officers (as determined by the Board in accordance with Section 10D of the Exchange Act), such other senior executives and employees who the Committee may deem to be subject to this

Policy and each recipient of a performance-based equity award agreement to the extent such agreement refers to this Policy (each at “**Covered Individual**”).

3. Recoupment; Accounting Restatement.

Subject to the terms of this Policy and the applicable listing standards of the Relevant Exchange, in the event the Company is required to prepare an Accounting Restatement, then the Company shall recover, reasonably promptly from each Covered Individual as set forth in Section 6 of this Policy, any Erroneously Awarded Compensation that was Received by such Covered Individual during the Look-Back Period.

4. Committee Discretion.

The Committee may, in determining appropriate remedial action, take into account the financial cost of penalties or punishments imposed by third parties, such as law enforcement agencies, regulators or other authorities; however, such determinations shall not mitigate or eliminate the Company’s obligations to recoup Erroneously Awarded Compensation pursuant to Section 4 of this Policy.

5. Enforcement and Impracticability.

The Committee shall recover any Incentive Compensation in accordance with this Policy unless such recovery would be impracticable, as determined by the Committee in accordance with Rule 10D-1 promulgated under the Exchange Act and the applicable listing standards of the Relevant Exchange. If the Committee determines to enforce recoupment, (i) the Committee shall provide the Covered Individual written notice of its intent to recoup Incentive Compensation under this Policy, along with the timeline within which the Covered Individual must respond, (ii) to the extent the Covered Individual does not intend to comply with such recoupment efforts, the Covered Individual must respond to the Committee in writing detailing the reasons why non-compliance is warranted and such response must be provided to the Committee within 15 business days from the Covered Individual’s receipt of the Committee’s initial notice, and (iii) if the Committee disagrees with the Covered Individual’s assertions, then the Committee must respond to the Covered Individual in writing detailing such reasons within the 15 business days from the Committee’s receipt of the Covered Individual’s written response.

6. Method of Recoupment.

The Committee will determine, in its sole discretion, the method for recouping the Erroneously Awarded Compensation pursuant to this Policy, and subject to the requirement that recovery be made reasonably promptly, the Committee will determine the appropriate means of recovery, which may vary, without limitation, between Covered Individuals or based on the nature of the applicable Incentive Compensation, and which may involve, without limitation: establishing a deferred repayment plan or set-off against current or future compensation otherwise payable to the Covered Individual; cancelling outstanding vested or unvested equity awards made to the Covered Individual; and taking any other remedial and recovery action permitted by law, as determined by the Committee.

7. No Indemnification and No Reimbursement of Insurance Premiums.

The Company shall neither indemnify any Covered Individual against or for the loss of any Erroneously Awarded Compensation nor pay or reimburse any Covered Individual for the premiums for any insurance policy covering any such loss.

8. Interpretation.

The Committee is authorized to interpret and construe this Policy and to make all determinations necessary, appropriate or advisable for the administration of this Policy. It is intended that this Policy be interpreted in a manner that is consistent with the requirements under Rule 10D-1 promulgated under the Exchange Act and any applicable rules or standards adopted by the SEC or the Relevant Exchange.

9. Amendment; Termination.

The Committee, in its discretion, may at any time amend or amend and restate this Policy and shall suspend, amend or terminate this Policy as the Committee deems necessary to comply with applicable law. Notwithstanding anything herein to the contrary, this Policy shall be deemed automatically and unilaterally amended to the minimum extent necessary to comply with the applicable listing standards of the Relevant Exchange.

10. Other Recoupment Rights.

The Board intends that this Policy will be applied to the fullest extent of the law. The Committee may require that any employment agreement, equity award agreement or similar agreement entered into with a Covered Individual shall, as a condition to the grant of any benefit thereunder, require a Covered Individual to agree to abide by the terms of this Policy. Any right of recoupment under this Policy is in addition to, and not in lieu of, any other remedies or rights of recoupment that may be available to the Company pursuant to the terms of any similar policy in any employment agreement, equity award agreement, or similar agreement and any other legal remedies available to the Company.

11. Successors.

This Policy shall be binding and enforceable against each Covered Individual and each Covered Individual's beneficiaries, heirs, executors, administrators or other legal representatives.

As adopted by the Board on November 8, 2023.
